

RN to Bachelor of Science in Nursing

The RN to Bachelor of Science in Nursing accelerated degree program is uniquely designed for the registered nurse who wants a bachelor's degree with minimum additional coursework — and no clinicals or final exams. This degree will help you expand your experience, maximize your potential, and position yourself for an even brighter future in the rapidly changing health care field.

CAREER OPPORTUNITIES

The program has been designed with three distinct specialty areas that address growing trends in the health care industry: management/leadership; gerontology and faith/community. Requiring no additional courses, these specialty areas promote career advancement and provide a foundation for graduate studies or specialty certification.

GETTING STARTED

Admission into one of Spring Arbor University's degree completion programs requires prior completion of 58 semester hours. Hours can be earned through testing and approved courses taken at other accredited institutions.

- 1 | Submit completed application, \$30 application fee, autobiographical outline and writing sample. (If you apply online, we waive the fee.)
- 2 | Send your official transcripts from each college you have attended (must be official transcripts issued by the institution).
- 3 | Complete financial aid information such as the FAFSA, student loan request forms and employer assistance forms, if applicable. Our admissions specialists are available to help you if you have any questions.

Please note, additional requirements specific to individual programs may be required. For the most up-to-date application details, contact an admissions specialist.
