

Master of Business Administration

The Master of Business Administration program combines conventional academic training with field-based learning. The MBA curriculum addresses decision-making in accounting, information systems, finance, human resources, marketing and law. As a capstone experience, students participate in a living case study experience where they work as project leaders to conduct an organizational diagnosis with a business and implement an organizational development initiative in order to make a tangible impact on the host organization.

Our community of learners develops successful professionals through the study and application of theories, concepts, principles and methods of business administration.

The MBA program includes a four-day residency trip to an international business location as part of the International Business course.

CAREER OPPORTUNITIES

The MBA program prepares students to provide organizational leadership and decision-making skills in professional settings – all from a Christian worldview.

GETTING STARTED

- 1 | Complete and submit an application and a \$40 nonrefundable application fee. (If you apply online, we waive the fee.)
- 2 | Send your official transcripts from each college you have attended (must be official transcripts issued by the institution).
- 3 | Complete financial aid information such as the FAFSA, student loan request forms and employer assistance forms, if applicable. Our admissions specialists are available to help if you have any questions.

Please note, additional requirements specific to individual programs may be required. For the most up-to-date application details, contact an admissions specialist.
