Spring Arbor University is a Christian liberal arts university accredited through the Higher Learning Commission
30 North LaSalle Street, Suite 2400, Chicago, IL 60602-2504
PH: 312.263.0456
FROM THE PROVOST AND CHIEF ACADEMIC OFFICER

Welcome to Spring Arbor University’s graduate degree programs! We are delighted that you are a member of our 140-year-old Community of Learners. Together we will study and learn to apply the Liberal Arts to build our ability to be life-long learners, always embracing and upholding Jesus Christ as the perspective for that learning, with the intention to be critical participants in the contemporary world.

As a graduate student, you are preparing to contribute significantly to the thought and practice of your chosen profession. Our courses, programs and degrees are designed with the intention of giving you knowledge and skills to aid you in that contribution.

This catalog gives an overview of program content and degree requirements. It should be a valuable guide as you track your degree progress, work with your advisor, or consider matching program offerings to your learning needs and career aspirations. The policies and expectations set forth are designed to ensure program consistency, accountability, alignment with the values and mission of the University and, most importantly, the quality of the education offerings in support of your personal and professional progress.

More information is available to you through our web site, www.arbor.edu, and through your “MySAU” portal. And, please contact faculty, staff and administration if we can be of assistance to you.

Congratulations on your many successes that have brought you to graduate studies at Spring Arbor University. We look forward to helping, seeing, and celebrating your continued success as you grow academically, spiritually and socially during this important and exciting period of your life. And we pray God’s guidance and blessing upon you through this and all of your endeavors.

M Kimberly Rupert
Provost & Chief Academic Officer

## History of Spring Arbor University
Spring Arbor University is a liberal arts university located eight miles west of Jackson (the greater Jackson area has a population of about 160,000), and is affiliated with the Free Methodist Church. More than 40 denominations are represented in its student body. While most students are from Michigan, the University also attracts students from over 20 states and several foreign countries. Spring Arbor University is coeducational, with approximately 1,600 undergraduate students on the main campus, over 1,000 undergraduate students at various other locations throughout the state and over 1,000 students in our graduate programs.

Spring Arbor University was founded in 1873 by leaders of the Free Methodist Church as a private academy with elementary and secondary grades. It evolved into an institution of higher learning in the 1920s and acquired four-year liberal arts status and accreditation from North Central Association of Colleges and Schools in 1963. Today, Spring Arbor University grants associate and bachelor degrees. The University also grants the following graduate degrees: Master of Arts in Communication, Master of Arts in Counseling, Master of Arts in Education, Master of Arts in Family Studies, Master of Arts in Reading, Master of Arts in Spiritual Formation and Leadership, Master of Arts in Teaching English to Speakers of Other Languages, Master of Business Administration, Master of Special Education, Master of Science in Nursing and Master of Social Work. Graduate programs are available on campus, online, and at regional sites in Battle Creek, Bay City, Flint, Gaylord, Grand Rapids, Jackson, Kalamazoo, Lansing, Metro-Detroit, Metro-Toledo, and Petoskey.

## Spring Arbor University Concept
Spring Arbor University is an evangelical Christian university. The mission of the University — its purpose, its curriculum and the philosophical base for its community — is expressed in the Spring Arbor University Concept:

```
Spring Arbor University is a community of learners distinguished by our lifelong involvement in the study and application of the liberal arts, total commitment to Jesus Christ as the perspective for learning, and critical participation in the contemporary world.
```

The balanced integration of faith, living and learning is the continuing educational goal of Spring Arbor University. The faculty and administration are committed to Jesus Christ as the foundation for their teaching, advising and leading. Their personal relationships with Christ provide a basis for evaluating information, forming a worldview and shaping their daily participation in the lives of those around them. The University strives to help its students develop as Christian men and women equipped to meet all aspects of life with confidence.
Community Expectations
As with all aspects of Spring Arbor University, graduate programs are dedicated to fostering academic, social, physical and spiritual growth for its students. Spring Arbor University trusts that students either share the Christian perspective of the University or are amenable to such perspectives while a student. As active participants in the community, students enrolled at Spring Arbor University are expected to govern their lives in a way that is pleasing to the Creator, enriching to others and self-rewarding.

Non-Discriminatory Statement
Spring Arbor University does not exclude any persons who are qualified applicants from participation in our graduate programs, activities and benefits by reason of race, color, national origin, gender, age or handicap. Applicants do not need to be professing Christians; however, students should know the program is delivered with a Christian worldview.

Diversity at Spring Arbor University
Spring Arbor University is a community of learners committed to reflecting the Kingdom of God in the diversity of our students, faculty, staff, trustees, and other associates. Valuing the dignity of every human being is part of the historic legacy of our founding denomination. The University's continued focus on creating a diverse learning environment reflects these values and honors our heritage.

The University is committed to being a place where ethnic and racial inclusiveness is a hallmark of the community we create. However, as an imperfect human organization, we must acknowledge and plan for the challenge that such diversity brings. We boldly embrace this challenge, because as Christians, we know it is right. Jesus Christ is the perspective for our teaching and through Him, we are called to move beyond mere tolerance of each other to genuine acceptance and mutually transformative learning.

Becoming a diverse community of learners is consistent with our liberal arts tradition. It facilitates a healthy exchange of cultural, economic, social, religious, philosophical, and political views within the classroom and in campus activities.

Further, as an educational institution, we know we will ill-prepare students for personal and professional lives in a global society if we fail to expose them to the rich diversity of peoples and cultures. This exposure cannot solely come from books but needs to be tested and experienced through interactive and ongoing personal relationships.

Therefore, we will seek ways to invite and welcome diversity into our community. We will be proactive and creative in integrating different cultural perspectives into the curriculum and community life, and we will strive to be always a community of love and respect.

Catalog Subject to Change
Courses and policies listed in this catalog are subject to change through normal University procedures. Policy revisions are normally implemented in the next academic year following their adoption by the graduate council and academic senate. However, occasionally a policy may be changed and implemented in the same academic year. A curriculum or policy change could be applied to matriculated students and for this reason, this catalog should not be construed as constituting a contract between the University and any person. To complete a degree, a student is normally expected to meet the requirements listed in the catalog which is in effect for the year of the student’s admission or readmission to the University. Students may also need to meet additional degree requirements that have been officially published.

Important Catalog Note
Spring Arbor University has four schools: Gainey School of Business, School of Human Services, School of Education, and School of Arts and Sciences. The requirements and expectations in this Catalog apply to all graduate students, regardless of the school in which the course or degree program is housed. Individual schools, however, may impose additional requirements or expectations. See specific degree for additional information.

BASIC GRADUATE INFORMATION
Graduate Programs of Study
Spring Arbor University offers the following master’s degrees. For information, please call the regional site closest to you or the number shown below:

Master of Arts in Communication 517.750.6703
Master of Arts in Counseling 517.750.6554
Master of Arts in Education 517.750.6554
Master of Arts in Family Studies 517.750.6654
Master of Arts in Reading 517.750.6554
Master of Arts in Spiritual Formation and Leadership 517.750.6703
Master of Arts in TESOL 517.750.6554
Master of Business Administration 517.750.6763
Master of Science in Nursing 517.750.6703
Master of Social Work 517.750.6764
Master of Special Education 517.750.6554

Accreditation
All degrees offered by Spring Arbor University are accredited by the Higher Learning Commission, 30 North LaSalle Street, Suite 2400, Chicago, IL 60602. Both graduate and undergraduate programs offered by the University’s
General Information

School of Education are approved by the Michigan Department of Education and the National Council for Accreditation of Teacher Education (NCATE), 2010 Massachusetts Avenue NW, Suite 500, Washington, D.C. 20036; telephone: 202.466.7496. The Master of Science in Nursing program is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036.

Admissions

The following requirements are common to all Spring Arbor University graduate programs. Some programs specify a particular format for certain items and/or have additional requirements. Consult the individual program requirements. Admission must be approved prior to being considered for financial aid.

- A bachelor’s degree from a regionally accredited college or university; A student will be considered for conditional admission if that student has verification of completion of all degree requirements and provides an anticipated date of degree conferral.
- A 3.0 GPA for at least the last two years of the bachelor’s degree;
- An official transcript from the institution granting the bachelor's degree. Some programs require official transcripts from all previous institutions attended. See specific program for clarification.
- At least two recommendations from professional/academic individuals; and
- A completed application.

Expectations

All applicants should possess:

- graduate-level communication skills;
- computer competency;
- strong academic skills;
- strong motivation for learning;
- awareness of the time and effort required to successfully complete program requirements;
- a willingness to be part of a group learning process; and
- potential for growth and development in the student’s chosen field.

Admissions Status

Admission status is determined and specified as follows

- Full: all items are complete and admission requirements met
- Probationary: the admissions file is complete but the applicant’s GPA does not meet the standard or there are other concerns (e.g., weak writing sample)—there will be limits on the number of courses for which the applicant may enroll as well as closer monitoring of grades—the time limit that the student must come off probationary status will be the first six credits or the first semester, whichever is earlier.

Admissions Appeals

Students may only appeal denial of admissions. An appeal is initiated via written petition, which provides rationale and, where appropriate, includes supporting documentation. Appeals are presented to the program director, who will convene a review committee. The committee’s decision is final.

International Student Admission

International students are subject to all admission requirements of the graduate program and additional requirements as outlined below:

- Hold a degree equivalent to a bachelor’s from a regionally accredited academic institution in the United States. International applicants should be sent to Spring Arbor University and one must be submitted to one of the following services for evaluation: AACRAO (www.aacrao.org) or WES (www.wes.org). The service must send the evaluation(s) directly to Spring Arbor University.
- Submit proof of medical insurance.

NOTE: To maintain student status with immigration a student must be full-time (a minimum of six credit hours per semester).

Background Check

Spring Arbor University (SAU) values a reputation for honesty, integrity, and a safe environment for our community of learners and to the greater community in which we serve. To safeguard these standards, SAU may require a background check. Spring Arbor University reserves the right to deny admission to convicted felons in its sole discretion and reserves the right to make decisions based upon factors which it deems relevant under the totality of the circumstances. The specific policy guidelines and final review processes are outlined by the individual school, program, office, or department.
General Information

Guest Students
A guest student is currently enrolled in a master’s program in another regionally accredited college or university. A guest student may take a maximum of 6 credits. Contact the program office for further information.

Non-Degree Students
A non-degree student is one who wishes to take classes but is not seeking a degree. A non-degree student may take a maximum of 6 credits. Contact the program office for further information.

Dual Undergraduate/Graduate Enrollment
Dual undergraduate/graduate enrollment may be granted to any SAU senior who has (1) a GPA of 3.0 or higher for at least the last two years of baccalaureate study and (2) no more than 9 credits remaining for completion of the bachelor’s degree. A dual enrolled student may enroll in a maximum of 6 graduate credit hours (approved by the program advisor) along with the undergraduate hours required to complete the bachelor’s degree.

Dual enrollment is permitted only for the first semester of a program. If the bachelor’s degree is not earned by the end of the first semester of dual enrollment, the student may not continue in the program on dual enrollment. No graduate credits earned while dual enrolled can be used to meet undergraduate requirements. The enrolled graduate courses are not eligible for financial aid until the bachelor’s degree is completed.

Note: Not all graduate programs permit dual enrollment; those that do may have additional requirements. Please confer with the program office for additional information prior to enrollment.

Undergraduate Enrollment
Spring Arbor University seniors (90 credits or more) may take up to six hours of 500-level course work to apply toward the bachelor’s degree. If a course is counted for the undergraduate program, it may not be counted toward a graduate program.

Full-time Status
Enrollment in at least six graduate credits during any semester is considered full-time. Enrollment in at least three graduate credits during any semester is considered half-time. Grants and loans from state and/or federal governments are available for students who are enrolled at least half-time and who have been accepted in a degree program. Students should contact the Financial Aid Office for assistance.

Semester Credit Limits
Students may not enroll in more than 30 hours per 12-month period in any Spring Arbor University graduate program or combination of graduate programs, without the permission of the program director. Any schedule exceeding 10 hours per semester (traditional semester calendars) or 15 hours in a six-month period (non-traditional semester calendars) must have permission of the program director. A student wishing to register for more than three hours above these limitations must have the permission of the program director.

Student Academic Responsibility
SAU commits to helping students achieve their academic goals by providing numerous resources and tools, including academic advisors, degree audits, schedules, calendars, and online catalog. Students must assume certain responsibilities that include:
  • meeting admission requirements;
  • completing courses in an order that meets pre-requisite and core requirements;
  • becoming familiar with all academic policies and specific polices of the program to which the student is admitted; and
  • preparing work that is representative of the student’s own individual efforts.

Standards of Conduct
SAU is dedicated to fostering academic, social and spiritual growth for students. While enrolled as active participants in the SAU community, students are expected to govern their lives in harmony with its regulations, both on and off campus.

Residency
Some graduate programs have a residency requirement. Students are advised to consult the catalog and program handbooks for such requirements.

Research
Each masters program defines the nature and scope of any required thesis, research project, or case study. Students are advised to consult the catalog and program handbooks for specific requirements.

Assessment
Spring Arbor University regularly assesses the effectiveness of all academic programs. Registration for classes constitutes agreement to participate in assessment exercises and permission to collect resulting data.

Transfer Credit
Programs may accept a maximum of 9 graduate credits by transfer from a regionally-accredited institution. The transferred course grade(s) must be a “B” or better. An official transcript from the institution must be submitted to the
appropriate program office with the initial application. Transfer credits must be no more than 6 years old at the time of admission, but certain programs may allow exceptions. The program director has the discretion and the right to determine what is accepted and whether the course will substitute for a required course or elective credit. After admission to a Spring Arbor University graduate program, students wishing to complete coursework at another college or university, with the expectation that coursework being applied toward a Spring Arbor University degree, must seek written advance approval from the program director.

Overlapping Courses
Students may apply credits successfully completed in one SAU master’s degree towards degree requirements in another SAU master’s degree, subject to a maximum of 25% of the credits in each degree and an overall maximum of nine (9) credits.

Grading System
Coursework will be assigned a letter grade that carries scholastic points according to the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>U</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Plus and minus grades are intended to reflect more accurately the student’s actual performance in the classroom. Each weighted letter is defined as follows:

A = excellent achievement
B = good work
C = below average work
D = unsatisfactory work
U = unsatisfactory work—no credit is given—the number of hours is included when computing GPA
S = satisfactory work done (a grade of “B” or above)—credit is given—GPA is not affected
I = incomplete work in a regularly scheduled course at the time the final grade is due—given only when missing assignments are due to absences from classes for illness, or other emergencies—not given for unsatisfactory assignments or failure to submit assignments due to the student’s negligence.

Note: A grade of “I” must be removed within six weeks after the end of the term in which it is given or by a date officially agreed upon by the instructor and student—when an “I” is given, the instructor will indicate what grade the student will receive if the completion date is not met—if no grade is received, the “I” grade becomes a grade of “U.”

IP = incomplete work in progress at the time the final grade is due—given only for an independent study, internship, practicum, tutorial, exploratory experience or other special programs as approved by the registrar.

Note: A grade of “IP” must be removed within six months of the close of the term—if no grade is received, the “IP” grade will become a “U.”

Academic Integrity
Any community of teachers and scholars recognizes that truth and honesty are absolutely essential in academic work. The expectation at Spring Arbor University is that these principles will be rigorously followed in all academic endeavors, including the preparation and presentation of lectures, preparation of class reports and papers, giving and taking of examinations, and in protecting the validity of assigned grades. This assumes that all work will be done by the person who purports to do the work, without unauthorized aids. Instructors will exercise due diligence in planning and supervising the academic program so that the principles of truth and honesty are upheld. Faculty will reserve the right to impose a penalty, including the right to fail any student in a course where the student has been engaged in cheating, plagiarism or other forms of academic dishonesty.

The Spring Arbor University Concept—the heart of this institution—is based on our common commitment to Jesus Christ as the perspective for learning. This means that the Spring Arbor University community seeks to live in close adherence to the example and teaching of Jesus Christ in our personal and scholarly pursuits. With the purpose of encouraging responsible conduct, this policy flows from the Concept and assumes these important community expectations:

- Everyone who is part of the Spring Arbor University community will seek to live a life of highest integrity, both personally and academically.
- Full truthfulness is essential from all those in the Spring Arbor University community.
- Faculty and students will carefully and diligently guard themselves from stealing material or intellectual property—whether physical or electronic in nature.
- Silence about others’ disregard for these standards devalues and violates the principles and spirit of our faith, the Concept and this policy. With prayerful introspection and loving confrontation, we should strive to hold one another accountable to the standards of our faith.

Acknowledging the call in the principles above, we challenge ourselves to maintain integrity in all we do academically. There shall be no cheating, misrepresentation, or plagiarism (borrowing ideas, images, facts, stylistic...
phrasing, or quoted material without credit) on assignments, tests, lectures, handouts or any other written materials. SAU's Academic Integrity policy is available electronically on the web site.

Characteristics of Graduate Culture
Graduate education is different from undergraduate education and has its own distinctive cultural norms. At the graduate level, the learning culture is characterized by several components:

- **Depth of Inquiry**: a rigorous inquiry and cognitive development, which will produce persons who gain a depth of knowledge about a subject field;
- **Research-based Learning**: a growing familiarity and conversance with the scholars, relevant research, findings, and research tools underlying the subject field;
- **Practical Application**: involvement with action-oriented research and best practices in the subject field;
- **Knowledge Creation**: engagement with the subject field in ways that have potential for development of new knowledge, affirmation of existing knowledge, testing of emerging theories, or application and refinement of research-based practice; and
- **Independent and Self-Directed Learning**: responsibility for learning, which is demonstrated by the learner’s manifestation of the ability for continuous learning in the subject field.

While some of these characteristics may be found in undergraduate education, the combination and degree of application in the learning process is at a higher level in graduate education.

The Spring Arbor Graduate
The Graduate Council has defined the ideal Spring Arbor University graduate as one who embodies the Spring Arbor University Concept. Thus, the goal of the Spring Arbor experience is the development of a person who:

- Understands what it means to be a part of a community of professionals—the student must be able to learn, communicate, and participate with others (community of learners);
- Has undergone a rigorous educational experience—the student will study topics that are grounded in theory, practice, and research (lifelong study and application);
- Has encountered the Christian faith from a variety of perspectives, including instructors, staff, students, coursework, and instructional materials—the student will see how the Christian faith impacts character and decision-making (total commitment to Jesus Christ as the perspective for learning);
- Is able to participate in a global society—the student must be able to think critically and demonstrate the ability to take a leadership role in society (critical participation in the contemporary world).

ACADEMIC POLICIES

Academic Advising
In each graduate program an academic advisor is available to assist students with planning and implementing their academic careers. The University provides the Academic Planner for all students to use for planning, registering, and dropping and adding courses. The Academic Planner is available through the MySAU Portal (http://mysau.arbor.edu) and is a tool that all students are expected to use. For support in using the Academic Planner, please refer to instructions provided online. If further assistance is needed, contact your advisor.

Student Responsibilities
While Spring Arbor University will provide assistance in planning academic programs, students are ultimately responsible for the completion of their program. Students are expected to become familiar with degree requirements and expectations, as well as take the initiative for requesting academic advising assistance.

Probation
A student will be placed on probation if his/her GPA falls below 3.0. The time limit that the student must come off probationary status will be the end of the next semester or a minimum of six credits, whichever comes first.

Auditing a Course
Students who wish to register to audit a class (i.e., attend the class but not receive credit) need to secure permission from the program director. Students must pay the applicable audit fee and any course fees. To have the audit placed on their permanent record, students must meet the regular attendance policy of the course. Registration for audit may not be changed to credit after that term’s drop/add period. If credit is subsequently needed or desired, the student must take the course for credit, paying the applicable tuition and fees.

Auditing students will not be required to complete assignments and exams unless the instructor requests that assignments be completed as a necessary part of attending the class. An instructor has no obligation to meet with an auditing student after class or to correct assignments submitted by an auditing student, unless the instructor has requested that the student complete the materials.

Adding a Course
Students may add courses during the authorized drop/add period by utilizing the Academic Schedule Planner on the MySAU Portal.
Dropping a Course
Students who wish to drop a course during the authorized drop/add period, must use the Academic Schedule Planner on the MySAU Portal. It is important that students check with the program office to learn the applicable deadlines and tuition charges. Students dropping a course after the first week (or the authorized drop/add period, if different) will be charged tuition for the course.

Withdrawing from a Course
Students may withdraw up to the halfway point of a course and receive a grade of “W,” which remains part of the student’s permanent record. Withdrawal after the halfway point will result in a grade of “U.”

Repeating a Course
There is no limit to the number of repeated courses, but any given course may only be repeated once. When computing GPA, a higher grade replaces the lower grade and the credit hours only count once. All entries remain part of the student's permanent academic record. Regular tuition charges and fees will be assessed for repeating a course. Courses with a grade lower than “C” will not be counted toward graduation requirements.

Course Cancellation
The University reserves the right to cancel a scheduled course for reasons it deems appropriate, including (but not limited to) staffing, low enrollment, or program changes.

Class Cancellation
In the event of bad weather or other unforeseen circumstances, a scheduled class session may be canceled. There will be an attempt to reschedule the canceled class session and notify students of the change.

Time Limits for Completing a Degree
Students must complete all degree requirements within six years of the date of enrollment in the first class after the student is admitted to the program. A student may petition the program director for an extension.

Withdrawing from a Program
Students who need to withdraw from a program must notify their program office in writing. Students need to check with their advisor or the Financial Aid Office to understand the consequences of withdrawal and how it may jeopardize state or federal financial aid.

Readmission to a Program
Students who have withdrawn from a program or have not been actively enrolled for more than one year and wish to re-enter will be required to submit an application for readmission. Approval of that application is determined by the program director. Official transcripts for any subsequent coursework taken at another institution must be sent to the program’s office for evaluation.

DISMISSAL POLICY

Reasons forDismissal
Dismissal is possible for failing to maintain minimum academic standards. For example, students on academic probation that have been unable to raise their cumulative GPA to the minimum 3.00 standard after taking six additional credit hours will be dismissed from the program. Dismissal is also possible for disciplinary reasons, including (but not limited to) the following:

- violating standards of academic integrity
- violating community, behavioral, program, professional expectations
- unsatisfactory performance in practicum, internship, or clinical courses
- criminal misconduct
- failure to comply with established SAU or program timelines or requirements
- unethical practices or unprofessional conduct
- actions that obstruct the training process or threaten client welfare

SAU has the right to review any circumstances that may impede the student's ability to continue in the program at any point while a student is enrolled in a graduate program. At the discretion of the program director, the student may be placed on suspension, while the matter is being investigated. A student who is placed on suspension may not participate in program-related activities.

Dismissal Process
To protect the student's due process rights and SAU's interests in upholding academic and professional standards, the following steps will be taken as part of the dismissal review process:

Step 1: The program director will inform the student in writing of the allegations or circumstances that may affect the student's continuance in the program. These allegations may emanate from personnel both within and outside the SAU community. (Note: if the allegation involves an academic integrity issue, current SAU policy will be followed.)

Step 2: At the discretion of the program director, the student may be asked to seek an informal resolution of the allegation with the accusing party. The student will inform the program director of the outcome within 7 days after the program director's request. If resolution is not achieved in this informal process, then the matter will be brought before a disciplinary committee, consisting of the following individuals:

- program director
Step 3: The program director will notify the student of the scheduled meeting of the disciplinary committee. The student will be invited to submit a written response to the allegations no later than 7 days prior to the scheduled meeting.

Step 4: Following receipt of the student’s response, the disciplinary committee will convene (face-to-face, teleconference, or other means) to discuss the matter and render a decision, which may result in:
- dismissal of the charges
- allowing the student to continue in the program, pending compliance with specified conditions
- dismissal from the program

Step 5: Within 7 days of the committee’s decision, the program director will notify the student of the decision in writing. A student may appeal this decision by following the appeal process below.

Appeal Process
The student must commence an appeal within 7 days after receipt of the program director’s written notification. The appeal must be typewritten and submitted to school dean, who will review the appeal and the decision of the disciplinary committee. The dean may request additional information from the student or the disciplinary committee. The dean will make a decision and notify the student in writing within 14 days after receipt of the student’s appeal. At all times, the burden of proof is on the student.

NOTE: The appeal process can take up to three months. Because this is a private university administrative hearing, legal counsel or representation is inappropriate.

Readmission
Students who have been dismissed may apply for readmission after one year has elapsed. Evidence to support the request for readmission must be submitted in writing to the program director. The burden of proof remains with the student. Filing an application does not guarantee readmission.

Grade Appeals
Students wishing to appeal a final grade must do so within 30 days after the grade has been posted. At all times, the burden of proof is on the student. The following procedures must be followed.

Step 1: The student should confer with the instructor, stating his/her objections to the assigned grade and providing any relevant evidence. If both parties reach an agreement, the instructor has the right (but not the obligation) to change the submitted grade.

Step 2: If the student makes at least two unsuccessful attempts to contact the instructor and provides documentation of those efforts, or if contact is made but an agreement is not reached, the student may appeal to the program director in writing or by e-mail. The program director may consult with the school dean.

Step 3: If the matter remains unresolved, the student may contact the Academic Affairs Office for the appropriate forms. Upon receipt of properly completed forms by the student, the Academic Affairs Office will convene a committee to review all materials and make a recommendation to the Academic Affairs Office. The final (and non-appealable) decision rests with Academic Affairs. If the appeal is upheld, the originally submitted grade will be changed to "S" (satisfactory), which will remove that course from GPA calculations.

Note: The appeal process can take up to three months. Because this is a private university administrative hearing, legal counsel or representation is inappropriate.

Academic Policy Appeals
If a student believes that the university has not followed published policies regarding academic decisions, the student may appeal the decision. The student must initiate the process within 30 days of the decision. At all times, the burden of proof is on the student. The following procedures must be followed.

Step 1: The student should confer with the individual who made the decision for a full explanation of the policy and how it was followed.

Step 2: If the matter remains unresolved, the student may appeal to the program director in writing or by e-mail. The program director may consult with the school dean.

Step 3: If the matter remains unresolved, the student may contact the Academic Affairs Office for the appropriate forms. Upon receipt of properly completed forms by the student, the Academic Affairs Office will consider the appeal and render a final (and non-appealable) decision.

Note: The appeal process can take up to three months. Because this is a private university administrative hearing, legal counsel or representation is inappropriate.
**Graduate Attendance Policy**
Regular attendance and participation is expected in all graduate programs. Refer to specific program guidelines for details.

**Tuition and Fees**
Cost of tuition and fees for each graduate program can be obtained from the Spring Arbor University business office. Fees for special materials may be required for some courses. All fees are nonrefundable. In addition to tuition and fees, each course will require textbooks and other materials. If any additional fees or costs must be assessed, they will be explained at the time the fees or costs go into effect. Tuition and fee changes will be published each year.

NOTE: Spring Arbor University reserves the right to adjust tuition, books, and fees.

**Payments**
Students are expected to pay tuition and fees before class begins. Most programs require payment at least three weeks in advance. A third-party payment plan is available, details of which can be obtained through the business office. Failure to meet financial obligations may result in the referral of the delinquent account to an outside agency for collection of the total amount due plus all applicable collection costs.

**Financial Aid**
Financial aid may be available to students if appropriate criteria are met. Grants and loans for full-time or part-time students may be requested from the federal and/or state government. Students should work with appropriate staff and the Financial Aid Office. Early filing of the Free Application for Federal Student Aid (FAFSA) is encouraged to meet specific deadlines. Standards of academic progress must be met in order for students to receive federal (Title IV funds) and/or state aid.

**Refunds**
If a refund is due to the student and the student received financial aid from federal student loans or the Michigan Tuition Grant, part of the refund must be returned to those programs. Proportionate amounts of the total refund will be returned by the University to the respective programs in the following order:

1. Federal Unsubsidized Stafford Loans
2. Federal Subsidized Stafford Loan
3. Federal Graduate PLUS Loan
4. Michigan Tuition Grant

The remaining refund will be given to the student when all incurred costs at Spring Arbor University have been paid.

**Withdrawal Refunds**
Refunds for properly authorized withdrawals from the University shall be based upon:

**Tuition**
Calendar Days 1-7* 100% refund
Through 25% of class 75% refund
Through 60% of class 50% refund
After 60% of class No refund

*Classes with duration of less than 14 days will be refunded on a pro-rated basis.

**Switching classes will result in an additional charge, based on the applied tuition refund schedule. Please see the Business Office for more details.**

**Transcripts**
Transcript requests must be made on-line at www.arbor.edu. Transcripts will not be released to students who have not paid their University bills or who are delinquent in loan payments.

**Veteran’s Benefits**
Veterans should contact the Office of Registration and Records for certification with regional Veterans’ Offices at least one month prior to beginning the degree program. The Office of Registration and Records maintains all veteran academic records. To receive veteran’s benefits, a student must remain in good standing according to the academic policies of the University and the specific program in which the student is enrolled.

**Graduation**
Students must have an overall 3.00 GPA (“B” average) to graduate from any of Spring Arbor University’s graduate programs.

Students who have completed all degree requirements are invited to participate in commencement on the University’s main campus, where diplomas will be awarded. Students must complete a graduation/diploma application approximately three months prior to the ceremony. When applications are received a graduation fee is assessed.

If an application for graduation has been made and requirements are not finished as stated, a re-application fee will be charged. Students who cannot complete their requirements by the anticipated date should send written notification to their respective program offices.

Diplomas will not be issued to students whose financial obligations to the University are not met.
Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) of 1974 was developed to protect the privacy of education records, establish the right of students to inspect and review their education records, and provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings.

Students have the right to file complaints with the Family Educational Rights and Privacy Act (FERPA) Office concerning alleged failures by the institution to comply with the Act.

The Privacy Act permits the University to release, without student consent, directory information. Directory information includes the student’s name, address (including email), telephone number, date and place of birth, major field of study, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended.

As of January 3, 2012, the U.S. Department of Education’s FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities (“Federal and State Authorities”) may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is “principally engaged in the provision of education,” such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

As a student, you have the right to restrict the institution from releasing your directory information. If you choose to restrict such release, you need to sign a Directory Information Hold form. The form is available in the Office of Registration and Records. Forms must be completed and returned to Registration and Records by the close of the second week of classes for a particular semester.

University policy explains in detail the procedures to be used by the institution for full compliance with the provisions of the Act. Copies of the policy can be obtained at the Office of Registration and Records. This office also maintains a directory of records that lists all education records maintained on students by this institution. Questions concerning the Family Education Rights and Privacy Act may be directed to the Office of Registration and Records.

STUDENT SERVICES

All graduate students who are currently enrolled at Spring Arbor University may use on-campus facilities, including the library, computer labs, academic student connection, career center, physical education complex and dining and snack facilities.

Library Services

Spring Arbor University has online library services to aid students in their learning. Access the White Library website at www.arbor.edu/whiteli. Of our more than 200,000 books in the library collection more than half of them are e-books that can be easily accessed online. We also provide access to numerous online research databases. If you would like to check-out print books from our library, we will ship them to your home, and a postage-paid mailing label will be provided for return shipment. If we do not have the book or article(s) you need for your research, our Inter-librarian loan department will work to obtain the materials for you.

Graduate students can contact a research librarian at the White Library at saulibrary@gmail.com or 517-750-6742. Our librarians are available for a one-on-one consultation with our graduate students. Set up a Skype, Google+, or GoToMeeting session with a librarian. We can provide database instruction,
research help, or citation assistance in these meetings. We also have a 24/7 chat service so that you can talk with a librarian anytime of the day or night.

Welcome to the Master of Arts in Communication (MCOM) program. As part of the department of Communication and Media, our mission is to train credible, creative Christian professionals for a world where the mastery of communication skills and technologies is essential.

At the graduate level, we are able to do this through the Master of Arts in Communication that is offered completely and only online. We also offer a Graduate Certificate in Communication. Learn more about the program at our Web site, online.arbor.edu/programs/master-of-arts-in-communication/

Please feel free to call or e-mail us if you have any questions. May the Lord bless you as you continue to explore His design for your life.

Dr. Wally Metts Jr.
wmetts@arbor.edu
PROGRAM DESCRIPTION

The Master of Arts in Communication is a 36-credit hour program, which brings both theoretical and Christian perspectives to bear on practical problems and provides a foundational understanding of communication through an interdisciplinary foundation and core courses. Additional coursework will be accomplished in a specific concentration, along with electives and a culminating activity that allows students to design, implement, and evaluate a project which effectively applies an interdisciplinary understanding of communication studies to a real-life situation.

The 16-hour Certificate is suitable for those who want to document their professional growth or expertise for advancement in their profession, or those who simply want to understand communication issues better.

Goals
- To provide quality online graduate education in communication in a format that minimizes disruption to family or current employment.
- To provide a learning environment that fosters critical thought, scholarship, and praxis, such that the learners who complete the program become transforming communicators and communication specialists within their spheres of influence.
- To establish a forum grounded in biblical foundations for reflection, thought, research, and publication on Christian worldview issues related to communication, thereby influencing the leadership of organizations throughout the world.

Objectives
The MCOM program will assist students to:
- Integrate the Christian faith with the field of communication through critical thinking, research, writing, and learning from the normative base of a Christian worldview.
- Experience education in the virtual communication environment.
- Explore multi-disciplinary approaches for enhancing culture and human development from a values-based perspective that is grounded in communication skills, knowledge and practice.
- Develop and exchange concepts relating to understanding and improving communication and communication-related activities within organizations and industries around the world.
- Experience innovative learning situations, which will enable students to acquire the knowledge, dispositions, and abilities required of leaders in any organizational setting.

CONCENTRATIONS

Students will choose from one of the following concentrations; it is possible to choose two concentrations. An individualized option is also available.

Communication Leadership
For those who have or desire leadership responsibilities in either profit or nonprofit organizations, this option helps students develop communication and management responsibilities, including strategic planning and public relations.

Communication Ministries
For leaders and potential leaders in church, para-church, and missions organizations, this option focuses on effective presentation of Christian messages in culturally-sensitive ways.

Communication Education
For individuals interested in teaching at the secondary or post-secondary levels, this option includes coursework in both traditional and distance learning. Students who wish to use any of these courses to qualify for the professional certificate or for renewal of the provisional, professional, or continuing certificate must contact the School of Education certification officer to confirm a planned program prior to enrolling in the course.

Professional Writing
For both writers and editors, this option explores writing as vocation and includes courses in rhetoric and writing for print, broadcast, and electronic media.

New Media
For individuals who expect to develop or manage interactive technologies, this option focuses on interactive computer-mediated communication by examining research, trends and production issues.

ADMISSIONS

MCOM Applicants must have:
- A bachelor’s degree from a regionally accredited college or university;
- A 3.0 GPA for at least the last two years of the bachelor’s degree;
- An official transcript from the institution that granted the bachelor’s degree
- Two recommendations from professional/academic individuals;
- One recommendation from a member of the clergy in your faith community
- Recent writing sample (a published magazine, newspaper, or journal article; an undergraduate or graduate research paper; or a work-
related proposal);
• Personal Goals Statement of two pages or less, in which you briefly describe your personal or professional goals as they relate to graduate studies in communication at a Christian university;
• Online Computer Literacy Survey (this assesses your current computer skills and the hardware/software configurations necessary for our online program);
• A completed application; and
• Current application fee.

Graduate Certificate in Communication applicants must have:
• A bachelor’s degree from a regionally accredited college or university;
• A 3.0 GPA for at least the last two years of the bachelor’s degree;
• An official transcript from the institution that granted the bachelor’s degree
• Two recommendations from professional/academic individuals;
• One recommendation from a member of the clergy in your faith community;
• Recent writing sample (a published magazine, newspaper, or journal article; an undergraduate or graduate research paper; or a work-related proposal);
• Online Computer Literacy Survey (this assesses your current computer skills and the hardware/software configurations necessary for our online program);
• A completed application; and
• Current application fee.

Note: This program requires access to a high-speed internet connection.

Please see our Web site, www.arbor.edu for more information.

POLICIES

Registration
Students are responsible for registering online and ordering text books online. A course plan is developed in conjunction with an academic advisor.

Audits
Students may audit up to two classes in the MCOM program. No credit is earned.

Independent study
Subject to approval by their academic advisor and the sponsoring faculty member, students may take up to two independent studies.

Assessment
As part of an ongoing assessment program, students will complete evaluations for each course and provide representative work and a self-assessment to an online portfolio.

Spiritual Development
The University is committed to supporting spiritual development for all students, including graduate students in both traditional and online programs. Department faculty have experience and training in pastoral care and spiritual direction. Students may request one of them to pray for them on a regular basis and be available as a mentor in spiritual formation.

CURRICULUM

The Graduate Certificate in Communication requires the following courses:

- COM 502 (3) Graduate Seminar
- COM 504 (3) Communication Theory and Worldview
  Three courses (9 hours) in any one concentration.
- COM 598 (1) Case Study

The Master of Arts in Communication requires:

- Foundations courses: 9 semester credit hours
- Core courses: 9 semester credit hours
- Concentration: 9 semester credit hours
- Capstone Experience: 3 semester credit hours
- Electives to total 36 semester hours: courses/ind. studies/special topics
- Required for graduation: 36 semester credit hours

FOUNDATIONS COURSES

COM 502 Graduate Seminar (3)
Introduces students to expectations and resources for graduate study. Includes orientation to research as well as program specific library resources. Must be taken before or concurrent with any other first course.

COM 504 Communication Theory and Worldview (3)
An overview of theoretical frameworks related to various contexts of communication. Theology and ethics of communication are examined in light of a Christian worldview. Prerequisite: COM 502.

COM 606 Research Methods in Communication (3)
Students develop skills in designing, interpreting, and evaluating research designs by examining and applying both quantitative and qualitative research
methods. A thesis or portfolio proposal is prepared. Prerequisites: COM 502, 504 and at least 15 hours in the program.

CORE Courses (choose 3)

COM 601 Interpersonal Communication (3)
An examination of interpersonal study and analysis of the relationships between interpersonal communication and group, family, gender, and intrapersonal processes. Prerequisite: COM 502.

COM 603 Group and Public Communication (3)
Examines how personal and professional communication styles impact group dynamics, conflict, team building, leadership and public presentations. Prerequisite: COM 502.

COM 605 Mass Communication, Culture and Technology (3)
Examines the challenges of and opportunities for living faithfully in mediated societies as new media technologies create new ways to serve people and to oppress them. Prerequisite: COM 502.

COM 607 Communication Ethics & Moral Reasoning (3)
Case study approach to problems and issues that confront communicators in contemporary culture. Prerequisite: COM 502.

COM 609 Intercultural Communication (3)
An analysis of intercultural communication competence, examining paralinguistic and nonverbal influences in cross cultural contexts. Theological impacts will be considered. Prerequisite: COM 502.

CONCENTRATIONS

Communication Leadership

COM 510 Communication Leadership (3)
Explores effective communication styles of effective leaders through an analysis of research and practice. Prerequisite: COM 502. (Offered in fall of odd academic years).

COM 610 Advertising and Public Relations (3)
Considers current research and practice in advertising and public relations. Traditional and nontraditional techniques are explored. Prerequisite: COM 502. (Offered in spring of odd academic years).

COM 612 Conflict Resolution (3)
Current theories of conflict resolution, with a special emphasis on biblical peacemaking. Prerequisite: COM 502. (Offered in summer of odd academic years).

Communication Education

EDU 560 Instructional Technology (3)
Instructional Technology has been defined as “the theory and practice of the design, development, utilization, evaluation, and management of the processes and resources for human learning.” The field of Instructional Technology is concerned with the application of technology throughout the educational process. The course is an introduction to the field and theory of Instructional Technology. The course explores the multiple roles of technology in instruction and management of the learning process, with special emphasis on K-12 education. This course assumes the student has minimum competency in technology. Prerequisite: COM 502.

COM 620 Assessing and Teaching Communication Arts (3)
Examines teaching and assessing communication competencies, in interpersonal, small group, public, intercultural and mass media contexts. Prerequisite: COM 502.

COM 622 Online Pedagogy (3)
A study of best practices in online communication education. Includes emerging technologies such as social book marking and collaborative environments. Prerequisite: COM 502.

Communication Ministries

COM 530 The Church in Cyberspace (3)
Examines the religious uses of the Internet, social media and other digital technologies with a focus on creating and sustaining community and expanding cultural influence in postmodern cultures. Prerequisite: COM 502.

COM 630 Communication in Christian Ministries (3)
Explores effective communication techniques from a pastoral perspective, with applications for staff and volunteers. Includes speaking, writing and listening. Prerequisite: COM 502. (Offered in summer of even academic years).

COM 632 Communicating Change: Spiritual Formation & Renewal (3)
Examines spiritual formation as transformation, and develops strategies for helping others understand and apply its principles. Prerequisite: COM 502. (Offered in spring of even academic years).
Professional Writing

COM 540 Writing As Vocation (3)
Explores professional opportunities in writing. Issues of genre, style, voice and publication are considered. Prerequisite: COM 502. (Offered in spring of even academic years).

COM 640 Writing and Reporting (3)
Covers best practices for writing about current events and people. Focuses on gathering and organizing information in ethical and effective ways. Prerequisite: COM 502. (Offered in summer of even academic years).

COM 642 Editing and Publishing (3)
Examines careers in editing, and the processes between the writer and the marketplace. Prerequisite: COM 502. (Offered in fall of even academic years).

New Media

COM 550 Computer Mediated Communication (3)
Examines the ways CMC affects the effectiveness of human interaction. Includes a discussion of current strategies and technologies. Prerequisite: COM 502. (Offered in summer of odd academic years).

COM 650 Visual Communication (3)
Examines the ways CMC affects the effectiveness of human interaction. Includes a discussion of current strategies and technologies. Prerequisite: COM 502. (Offered in fall of odd academic years).

COM 652 Web Publishing (3)
Theory and practice in creating, managing and publishing on the internet. Prerequisite: COM 502. (Offered in spring of odd academic years).

CASE STUDY

COM 598 Case Study (1)
Upon completion of 12 hours or more, students in the certificate program enroll for this one hour project. The case study applies concepts from their concentration to a professional problem or opportunity. (For certificate only; offered each semester).

CAPSTONE EXPERIENCE

COM 694 Capstone Experience (3)
The student proposes and develops a capstone project that meets department criteria regarding length, number of sources, etc. Suitable projects may include case studies, action research, portfolio pieces, academic articles or presentations or book proposals. A philosophy of communication is also developed and career expectations and strategies are explored. Prerequisite: COM 606. (Offered in spring.)

THESIS (By invitation only.)
COM 699 Thesis (2)
A thesis answers a research question through the collection of data and the analysis and application of communication literature and theory. May be repeated once. Enrollment by permission only.

ELECTIVES AND OPTIONS

COM 570 Special Topics (1-3)
Offered each year based on interest and enrollment.

COM 670 Special Topics (1-3)
Offered each year based on interest and enrollment.

COM 590 Independent Study (1-3)
Offered each semester.

COM 690 Independent Study (1-3)
Offered each semester.

Welcome to the Master of Arts in Spiritual Formation and Leadership program (MSFL). We are delighted that you are considering our graduate program!

The MSFL is designed as a cohort-based, hybrid program that allows you to travel through the degree with a group of others who are seeking to bring the life of the mind together with life with God in the world. Combining online classes with face-to-face residencies, we strive to bring together the best of an online program with the interpersonal connections that are vital to holistic spiritual formation.

Our curriculum was developed in intimate dialogue with Richard Foster and includes an openness toward deeper transformation into the likeness of Christ. The MSFL program provides instruction for pastors, laypersons, and others intent on pursuing their own development and fostering the skills to lead others in formation.

Having witnessed the impact of the program in the lives of our students, I am convinced we offer the most unique and rewarding spiritual formation program available today. We cannot begin to express the depth of spiritual transformation that God’s Spirit continues to breathe through the program.

As we embark on this journey toward God together, expect to be stretched and transformed, challenged and blessed. We look forward to walking with you as we pursue the God who is pursuing us.

Grace and peace,

Dr. Eric Magnusson
Appreciate the historical traditions of Christian Spirituality

Skills

(Academic)
- Think critically and globally
- Write and research at a high graduate level
- Communicate Christian spiritual concepts clearly

(Leadership)
- Lead others in private and corporate spiritual practices
- Facilitate small groups and retreats
- Deliver passionate homilies and presentations

(Formational)
- Interpret scripture transformationally
- Critically practice disciplines that encourage personal and communal spiritual health

Habits and Virtues
- Cultivate the fruit of the Spirit: love, joy, peace, patience, kindness, generosity, faithfulness, gentleness, and self-control
- Demonstrate and grow in a life of prudence, fortitude, justice, temperance, faith, hope, and charity

Values
- Commitment to a high Christology within orthodox Christian theology
- Academic rigor and excellence
- Practical and experiential at all levels of instruction
- Rooted in the ancient Christian tradition
- Ecumenical and global in scope from within a Wesleyan orientation
- Relational by utilizing a cohort model throughout the program

MSFL Key Definitions

Spiritual – By spiritual we mean primarily Christian spirituality. Within the phrase “spiritual formation” the term spiritual designates two realities. First and foremost, spiritual designates the Spirit of Christ who is the primary agent of formation. Second, spiritual designates the very essence of our being. As the French Jesuit, Pierre Teilhard de Chardin, once said “we are not human beings having a spiritual experience, but spiritual beings having a human experience.” What is formed is not a disembodied aspect of a person, as if the human person was a dichotomy of body and soul. We believe that a human person is a body/soul unity and thus the whole of our existence, physical, mental, emotional, and relational, is spiritual.

Spiritual Formation - By the phrase spiritual formation we mean primarily that the Spirit of Christ is transforming people. The reality is that each and every person is in a constant process of formation, whether cognizant of it or not. Our actions, interactions, and decisions, along with other outside stimuli and information, are shaping who we are as persons. To experience spiritual formation is to live in an intimate relationship with the Triune God within the context of our various relationships with other people and with all of creation, so that we more fully bear the image and likeness of God in our lives. We also believe God invites people to partner actively with the Spirit in the spiritual formation of his church and world. We participate and help lead others in spiritual formation by tilling the ground for God’s gracious work of transformation. Tilling the ground includes but is not limited to removing any obstruction in our lives and communities that hinders the work of God as well as practicing and encouraging others to practice the various disciplines encouraged in the Christian Scriptures and the Christian tradition.

Program Features & Requirements
- A hybrid program, MSFL features both online and face-to-face learning.
- Three face-to-face residency courses (Intensive Seminars) are held during the program. These one-week courses have an additional course fee. Personal travel expenses are not included in the tuition or fee. Two of the residencies occur in January. The other residency, Social Justice and Christian Spirituality, occurs in Guatemala during the first summer of the program. NOTE: Future locations for the Intensive Seminars may be subject to change.
- Each MSFL course emphasizes practical and experiential learning.
- The program utilizes a cohort group model for interpersonal community and small group formation.
- MSFL students are required to be in a mentor relationship with a spiritual director throughout the duration of their program.
- MSFL students are required to practice the disciplines of silence, guidance, and retreat. Each semester, the student is required to take a personal 24 hour retreat, and a 2 day retreat each summer.

MSFL degree:
12 courses x 3 credits = 36 credits
(9 online courses + 3 face-to-face courses)
ADMISSIONS
The following requirements are mandatory for acceptance into the MSFL. Admission must be approved prior to being considered for financial aid.
• A bachelor’s degree from a regionally accredited college or university;
• A 3.0 GPA for at least the last two years of the bachelor’s degree;
• An official transcript from the institution granting the bachelor’s degree, as well as official transcripts for any graduate work;
• Two recommendations: one church reference (minister or church leader) and either one academic reference or one professional reference;
• Submission of Autobiographical Question form (available online);
• Vocational or volunteer ministry experience (subject to evaluation)
• A completed application and application fee
Please see www.arbor.edu for more information.

CURRICULUM

COURSE SEQUENCE
(Example of a two Year Schedule Starting in Fall)

FALL TERM (Year 1)
SFL 060 Orientation to Online Learning (no credit/Pass/Fail)
SFL 600 Introduction to Christian Spirituality (3)
SFL 602 Disciplines of the Spirit (3)

JANUARY INTENSIVE SEMINAR (Year 1)
SFL 673 Special Topic in Christian Spirituality (3)
[SFL 673 will run for ~7 days in January with a travel day at the beginning and at the end. This course will take place in even numbered years at different retreat or learning locations around the country.]

SPRING TERM (Year 1)
SFL 612 Formational Theology (3)
SFL 623 Spiritual Wisdom of the Hebrew Scriptures (3)
SFL 671 Intensive Seminar I: Social Justice & Christian Spirituality (3)
[SFL 671 will run for 7 days with a travel day at the beginning and at the end. This course will take place in Guatemala during the summer after matriculation.]

FALL TERM (Year 2)
SFL 624 Jesus Christ and New Testament Spirituality (3)
SFL 613 The Spirit-Empowered Life (3)

JANUARY INTENSIVE SEMINAR (Year 2)
SFL 674 Special Topic in Christian Spirituality (3)
[SFL 674 will run for ~7 days in January with a travel day at the beginning and at the end. This course will take place in odd numbered years at different retreat or learning locations around the country.]

SPRING TERM (Year 2)
SFL 637 Introduction to Spiritual Direction (3)
SFL 611 Christian Spirituality and Everyday Life (3)
SFL 604 History of Christian Spirituality (3)
[SFL 604 will be offered during June and July.]

COURSE DESCRIPTIONS

SFL 060 Orientation to Online Learning (no credit)
Satisfactory completion of this course is required prior to taking the first spiritual formation course (SFL 600). Students with prior experience in online learning may request a waiver.

SFL 600 Introduction to Christian Spirituality (3)
This course explores the biblical and theological aspects of Christian formation. Students examine the goal and nature of formation, as well as the process of holistic spiritual transformation.

SFL 602 Disciplines of the Spirit (3)
This course is an exploration into the nature, dynamics and exercise of classic spiritual disciplines. Spiritual disciplines are a significant means by which we connect to God. Emphasis is upon the practice of various spiritual disciplines such as solitude and silence, listening and guidance, prayer and intercession, study and meditation, repentance and confession, fasting and worship, fellowship and simplicity, service and witness.

SFL 604 History of Christian Spirituality (3)
This course introduces students to the history, traditions, and leaders of the Christian church, which grants a richer understanding of what it means to participate in the Body of Christ. Students are exposed to the Patristic, Medieval, Reformation, and Enlightenment periods. This course helps students grow into a greater fullness of Christian maturity and gives them a renewed appreciation for the way the church’s past shapes the church’s present and future.
SFL 611 Christian Spirituality in Everyday Life (3)
This course assists students in broadening their understanding of spirituality within the Christian tradition and how to connect this understanding to all aspects of their lives. The course goal is intellectual and existential: students are introduced to a wide variety of literature focused on the sacred actions of God within the ordinary rhythms of everyday life; at the same time, students through a variety of learning experiences are also encouraged to grow spiritually through their own choices of prayer, worship, and discipline.

SFL 612 Formational Theology (3)
This course is designed to integrate traditional themes in systematic theology with spiritual formation. Emphasis is given to the study of Christology, Pneumatology, Theological Anthropology, and Ecclesiology. Experiential components are integrated into the course to help strengthen students' love for God and neighbor.

SFL 613 The Spirit-Empowered Life (3)
This course investigates the biblical, theological, historical, and practical foundations of the person and work of the Holy Spirit (pneumatology) and the Spirit-Empowered Life. Specific attention will be given to spiritual renewal movements and spiritual gifts, including the more controversial gifts, especially divine healing of mind, body, will, emotions, spirit, and social relationships. Personal experience in inner healing prayer and practical experience in praying for the healing of others will be a part of the essential learning in this course. It will also require a great deal of trust and vulnerability on the student's part.

SFL 623 Spiritual Wisdom in the Hebrew Scriptures (3)
This course explores the dynamics and power of the Hebrew Scriptures for personal and communal transformation. Special emphasis is given to the wisdom literature in the Hebrew Scriptures. A key aspect of this course is the understanding and development of biblical hermeneutical principles and practices that focus not only on the biblical text's content but also on its potential effect(s) as part of the church's Scripture. Various classical and contemporary methods of contemplative reading of Scripture are explored. This course teaches students to engage the Hebrew Scriptures in ways that grasp and change a community's life.

SFL 624 Jesus Christ and New Testament Spirituality (3)
This course examines the dynamics and power of the New Testament for personal and communal transformation. Special emphasis is given to the life and teaching of Jesus Christ and Paul's theological reflection on the life, death, and resurrection of Christ. In addition to learning about life with God from Scripture, competence in listening to the living Word within the text is gained. This course teaches students to engage the New Testament in ways that grasp and change a community's life.

SFL 637 Introduction to Spiritual Direction (3)
This is an introductory course that explores the meanings, models, and practices of the ministry of spiritual direction. Various traditional and current traditions of spiritual direction are surveyed. Particular attention is given to certain spiritual practices that equip students to come alongside others in their spiritual growth. This course includes experiential components as part of learning this valuable ministry of companionsing people through their spiritual journey.

SFL 671 Intensive Seminar I: Social Justice and Christian Spirituality (3)
This course explores the connection between being formed into the likeness of Jesus Christ and being involved in intentional justice work. Specific focus is on personal and communal formation in relation to those who Jesus called "the least of these." This course is taught in an intensive face-to-face format in Guatemala, where students experience the serious needs for Biblical justice in the world, in the context of Latin America. Residency at the designated site is mandatory.

SFL 673 Intensive Seminar III: Special Topic in Christian Spirituality (3)
This course gives the student access to nationally known persons and SAU faculty in the area of spiritual formation and leadership. Representatives of the Christian tradition will be sought over a two-year cycle. The intensive seminar will consist of a mixture of lecture, small group discussion, personal examination and reflection, various spiritual exercises, practical experiences in spiritual formation, as well as reading and writing assignments. Residency at the designated site is mandatory. This course is taught in an intensive face-to-face format every other January.

SFL 674 Intensive Seminar IV: Special Topic in Christian Spirituality (3)
This course will explore a specific aspect of Christian spirituality. Topics will vary year to year. It will consist of a mixture of lecture, small group discussion, personal examination and reflection, various spiritual exercises, practical experiences in spiritual formation, as well as reading and writing assignments. Residency at the designated site is mandatory. This course is taught in an intensive face-to-face format every other January.

Professor of Philosophy, University of Southern California
Ph.D., University of Wisconsin
“Intensive Seminar in Spiritual Formation” (Mater Dolorosa Retreat Center,
Sierra Madre, CA – January 2008)
On behalf of the Gainey School of Business faculty and staff, I welcome you to the Master of Business Administration (MBA) program. By joining the program, you are an integral part of a growing community of learners. We are excited about the growth you are about to experience and the potential that you can reach through the program. While outstanding faculty and curriculum are important components of our MBA program, we believe that dedicated students with aspirations to become selfless leaders are the other half of the equation for success.

The Spring Arbor University MBA is distinguished by our focus on combining theories with applications and learning through the research project. Not only will you learn from the professors, you will also learn from your fellow classmates who bring different perspectives and experiences to the learning environment. By employing state-of-the-art academic technology, learning will take place both in the classroom and in the virtual world. Another great distinctive of our program is the International Business Summit. You will be traveling to an international city such as New York, N.Y. and meeting students from other cohorts for an experiential learning experience.

In closing, I would like to encourage you to think of all the opportunities that are lying ahead of you. Instead of questioning your ability to do well in the program, be inspired by the Little Engine that Could and tell yourself that you can too. The Gainey School of Business faculty and administrative staff would love to see you succeed. It is our pleasure to be part of your journey.

Blessings on you,

Dr. K. Caleb Chan
Dean
SAU CONCEPT
Spring Arbor University is a community of learners distinguished by our life-long involvement in the study and application of the liberal arts, total commitment to Jesus Christ as the perspective for learning, and critical participation in the contemporary world.

GRADUATE CULTURE
At the graduate level, the learning culture is characterized by several components including:

- Depth of Inquiry: A rigorous inquiry and cognitive development, which will produce persons who gain a depth of knowledge about a subject field
- Research-based Learning: A growing familiarity and conversance with the scholars, relevant research, findings, and research tools underlying the subject field
- Practical Application: Involvement with action-oriented research and best practices in the subject field
- Knowledge Creation: Engagement with the subject field in ways that have potential for development of new knowledge, affirmation of existing knowledge, testing of emerging theories, or application and refinement of research-based practice
- Independent and Self-directed Learning: Responsibility for learning, which is demonstrated by the learner’s manifestation of the ability for continuous learning in the subject field

MBA PROGRAM MISSION
To develop successful professionals through the study and application of theories, concepts, principles, and methods of business administration informed by a Christian worldview.

PROGRAM OBJECTIVES
The MBA program is designed to help students understand and live out the SAU Concept through active participation in business and organizations. Students will integrate the Christian perspective and the discipline of business administration with an emphasis on stewardship and service. Students will gain mastery in business area knowledge, recognize the impact of culture and diversity on global business, and demonstrate skills in effective communication, professional collaboration, teamwork, critical thinking, ethical reasoning, and problem solving. Program objectives are categorized into eight specific areas: knowledge, scholarship, application, innovation, personal development, Christian worldview, global perspective, technical, and human skills.

PROGRAM DESCRIPTION
The MBA degree prepares students for successful participation in business and other organizations competing in domestic and international markets.

Through the core curriculum, students gain knowledge of functional areas of business within a framework of service and stewardship and develop skills in critical thinking, ethical reasoning, analytical problem solving, effective communication, and decision making.

PROGRAM DELIVERY OPTIONS
The MBA program is comprised of 36 credit hours and is offered in a cohort delivery model. Students may complete the program in 18 months in a hybrid or entirely online format. Students participate in an International Business Summit, which is a 4-day trip to an international business location where students engage in an international business conference environment with experiential learning activities. Both delivery options provide comprehensive academic instruction in a vibrant cohort community of learners.

Students must complete the 36-credit hour curriculum with a minimum 3.00 GPA to graduate.

MBA PROGRAM WITH CONCENTRATIONS

Core Courses – 24 hours
- MBA 500 MBA Orientation (0)
- MKT 661 Managerial Marketing (3)
- MIS 624 Information Technology and Project Management (3)
- ECN 623 Managerial Economics (3)
- ORG 601 Organizational Development and Change (3)
- IBS 607 International Business (3)
- BUS 642 Business Research Methods (3)
- ACC 631 Financial Accounting for Decision Makers (3)
- MBA 600 MBA Research Project Proposal and Fieldwork (0)
- MBA 686 MBA Research Project (3)

Concentration Courses – 12 hours
- MBA Concentration in Finance
  - FIN 601 Financial Economics (3)
  - FIN 602 Managerial Finance (3)
  - FIN 603 Investments (3)
  - FIN 604 Applied Financial Analysis (3)
- MBA Concentration in Healthcare Administration
  - HCA 601 Contemporary Issues in Healthcare Administration (3)

ADMISSIONS

The following are requirements for admission into the MBA programs. Admission must be approved prior to being considered for financial aid.

Admission requirements include:

- Bachelor’s degree from a regionally-accredited college or university
- An overall 3.0 GPA for all undergraduate coursework
- An official transcript from the institution granting the bachelor’s degree
- At least two recommendations from professional/academic individuals
- A completed application
- Approval by the MBA Admissions Committee

Please see www.arbor.edu for more information.

POLICIES

Attendance
Class attendance is expected for successful completion of any course. Under emergency circumstances, a student is allowed one (1) absence in a course. Failure to log into Blackboard for two consecutive weeks will result in administrative withdrawal from the course. Repeated absences may result in a failing grade for the course or dismissal from the MBA program.

Advising
The MBA program coordinator will be available for advising assistance.

MBA Research Project Client Assessment
At the end of the living case study, the host organization will provide an assessment of the student’s conduct of the project.

Transfer Credit
The MBA program does not accept any transfer credit toward the 36 required credit hours for the degree.

CURRICULUM

Core Curriculum Courses
MBA 500 MBA Orientation (0)
Introduces the MBA program and the web-enhanced content management system and tools. Provides an overview of organization theory and organizational development as an organizational learning platform for professional managers. Coverage includes self-directed learning and self-leadership techniques.

MKT 661 Marketing Management (3)
Introduces the principles of service and stewardship through marketing management. Focuses on concepts, principles, and techniques of marketing with emphasis on application in client organizations. Topics include customer value and satisfaction, market research and surveys, market segmentation, differentiation, positioning, and the development and execution of marketing plans. Integrates a Judeo-Christian perspective, ethics, values, and corporate social responsibility.

MIS 624 Information Technology and Project Management (3)
Examines current and emerging technologies from a managerial perspective. Integrates principles and application of project management skills. Covers the strategic use of information technologies to achieve organizational
goals, support business initiatives, and enhance personal and organizational productivity.

**ECN 623 Managerial Economics (3)**
Focuses on the integration of economic theory with business practice. Applies economic principles and economic thinking to management problem solving and rational decision making in organizations. Covers the market forces of supply and demand, role of elasticity in decision making, efficiency of markets, cost structures, and competitive markets.

**ORG 601 Organizational Development and Change (3)**
Examines organization design, development, and change. Explores the systemic and dynamic nature of organizations and the processes by which organizations adapt and change in relations to the environment. Covers the forces shaping the realities of organizations including structure, culture, processes, and technologies.

**IBS 607 International Business* (3)**
Introduces key aspects of contemporary international business management and the implications of international business on organizational strategy, structure, and function. Coverage includes country differences, trade and investment, global monetary systems, and competition in a global marketplace.

*As a part of the International Business course (IBS 607) students will attend an International Business Summit as part of a four-day trip to New York City. The university covers the cost of accommodations (i.e.; hotel, food) to participate in the summit. Students are responsible for travel arrangements and expenses.

**BUS 642 Business Research Methods (3)**
Introduces qualitative and quantitative research methods including statistical tools and techniques for collecting and analyzing qualitative and quantitative data.

**ACC 631 Financial Accounting for Decision Makers (3)**
Introduces the fundamental concepts and principles in financial accounting as a discipline to support managerial decision making in organizations. Covers financial ratio calculations and analysis, preparation of financial statements, taxes, accounting liquidity, contribution margin, budgeting, and auditing issues. Integrates ethical considerations, faith, and biblical values into business practices.

**MBA 600 MBA Research Project Proposal and Fieldwork (0)**
Guides students through the MBA Research Project proposal process and supports students through the initial fieldwork phase. Students need an approved host organization to begin the MBA 600 course. Students develop the research project proposal including the Human Subjects Review Board (HSRB) form, Informed Consent, and Instrumentation including all requirements pertaining to the submission of these documents to the SAU Internal Review Board (IRB) for approval. Students are required to obtain approval from the host organization and the faculty to implement the MBA research project.

**MBA 686 MBA Research Project (3)**
Guides students through the process of implementing a change initiative to make a tangible impact on a host organization and to gain a valuable learning experience. The change initiative will be based upon an organizational diagnosis that identified a problem to be solved or process to be improved within a host organization and an approved project proposal, project charter, and project plan. Actual findings will be reported. Clients will provide feedback on the implementation of the project as well as the extent to which the project improved the organizations.

**Concentration Courses**
**The concentration courses are delivered entirely online.

**MBA Concentration in Finance**
*Develops fundamental knowledge of the theory and practice of business and corporate finance with a focus on applying financial theory to specific business situations. Students will develop critical thinking skills, computer skills, effective communication skills, and the skills needed to work effectively in groups or team environments.*

**FIN 601 Financial Economics (3)**
Introduces financial economic principles critical for understanding financial markets and the evaluation of a firm’s financial performance. Covers issues related to inflation, GDP, interest rates, money supply, unemployment, classical and Keynesian theory, multiplier effect, and fiscal and monetary policies.

**FIN 602 Managerial Finance (3)**
Examines fundamental concepts and contemporary approaches to financial management in organizations. Covers financial objectives of investments and management, lease financing, securities portfolios, dividend policies, risk/return, tradeoffs, capital budgets, cost of capital, cash management, and international finance.

**FIN 603 Investments (3)**
Introduces theory and application of investments from a corporate perspective. Explores investment strategies and management including the importance of long and short term investments. Covers the nature of financial markets, security pricing models, security analysis techniques, security risk, and risk analysis.
### MASTER OF BUSINESS ADMINISTRATION

**FIN 604 Applied Financial Analysis (3)**  
Focuses on the application of financial theory and practice of managerial finance to real problems in organizations. Covers budgeting, capital structure, risk management, financial statement analysis, long-term financial forecasting and strategy.

**MBA Concentration in Healthcare Administration**  
Develops management knowledge and skills necessary for healthcare professionals and builds business acumen required for effective healthcare leadership. The concentration courses focus on the complexities and trends in the healthcare industry by focusing on contemporary issues in healthcare administration, policy, economics, quality, and strategy of healthcare management.

**HCA 601 Contemporary Issues in Healthcare Administration (3)**  
Addresses contemporary issues in the field of healthcare and the factors influencing the structure, delivery, and financing within healthcare systems. Examines the roles of various healthcare institutions and professional groups providing health services. Covers emerging trends that impact healthcare in the U.S. as well as the leadership challenges associated with healthcare administration.

**HCA 602 Healthcare Finance (3)**  
Examines the fundamentals of financial management in the healthcare sectors. Prepares nonfinancial healthcare professionals with skills necessary to manage and control costs while simultaneously investing resources in strategic opportunities.

**HCA 603 Quality in Healthcare (3)**  
Identifies the principles of quality improvement necessary for creating a quality culture in healthcare. Examines tools and methods of planning and implementing quality improvement initiatives in healthcare. Addresses both clinical improvements related to the delivery of quality patient care and process improvements related to the processes necessary in supporting the delivery of quality patient care.

**STL 602 Strategic Planning and Management (3)**  
Introduces the concepts of strategic planning and management and considers the vision, mission, and goals of the organization. Examines the balanced scorecard approach to strategic planning and management for translating strategy to action.

**MBA Concentration in Human Resource Management**  
Develops knowledge and skills necessary to leverage organizational human resources to improve individual performance and enhance organizational effectiveness. Strengthens skills in problem-solving, strategic thinking, and critical analysis necessary for identifying and solving human related issues within an organization. Prepares students to promote employee and organizational growth through individual and organizational learning.

**HRM 601 Workplace Learning and Development (3)**  
Develops the knowledge and skills necessary for managers to promote employee and organizational growth through organizational learning. Explores how adults in the workplace acquire knowledge and skills necessary for human performance improvement. Covers issues related to human performance improvement and best workplace learning and development practices.

**MGT 606 Management and Human Resources (3)**  
Explores major issues of managing human resources. Develops skills in assessing human resource needs for career development and organizational effectiveness. Covers hiring, terminations, assessment, compensation, training, safety, promotion, and evaluation of human resources.

**ORG 602 Organizational Psychology (3)**  
Introduction to the management of behavior in organizations, the field of industrial and organizational psychology, and various aspects of people in the workplace. Covers issues related to employee development through training and learning, employee productivity, well-being, attitudes, behaviors, motivation, and leadership.

**ORG 603 Groups and Teams in Organizations (3)**  
Examines the management and development of groups and teams in organizations. Develops skills in creating and effectively managing teams in organizations. Covers job design in groups and team development, conflict management, team building, decision making in groups and teams, and approaches for improving productivity and organizational effectiveness.

**MBA Concentration in Management**  
Develops skills necessary for effective traditional management in organizations. Students will engage in a computer simulated business environment in competitive strategy to demonstrate knowledge gained in the core MBA courses. Examines management and human resource development, the use of statistics for managers, and ethical leadership.

**MGT 609 Competitive Strategy (3)**  
Integrates many aspects of the MBA curriculum into problem solving and strategic decision-making in a complex and interrelated simulated business environment.

**MGT 606 Management and Human Resource Development (3)**  
Explores major issues of managing human resources. Develops skills in
assessing human resource needs for career development and organizational effectiveness. Covers hiring, terminations, assessment, compensation, training, safety, promotion, and evaluation of human resources.

MGT 622 Statistics for Managers (3)
Develops knowledge of statistical analysis tools and techniques appropriate for both exploring qualitative data and examining quantitative data.

MGT 617 Ethical Leadership (3)
Introduces theories and practices of organizational leadership directed at understanding, predicting, and influencing individuals and groups in organizations. Explores organizational leadership from the Christian perspective. Covers the nature of leadership, assessing leadership effectiveness, leading change, leadership in groups and teams, and emerging leadership theories and issues.

MBA Concentration in Organizational Development
Develops a strong foundation in assessing, researching, and finding possible solutions to personnel and organizational problems. Develops requisite skills necessary for understanding, predicting, and influencing individual and group behavior in organizations as the foundation for leading effective organizational development and change initiatives. The concentration is developed for people interested in applying social and psychological principles in the work context to positively influence individuals, groups, and organizations.

ORG 602 Organizational Psychology (3)
Introduction to the management of behavior in organizations, the field of industrial and organizational psychology, and various aspects of people in the workplace. Covers issues related to employee development through training and learning, employee productivity, well-being, attitudes, behaviors, motivation, and leadership.

ORG 603 Groups and Teams in Organizations (3)
Examines the management and development of groups and teams in organizations. Develops skills in creating and effectively managing teams in organizations. Covers job design in groups and team development, conflict management, team building, decision making in groups and teams, and approaches for improving productivity and organizational effectiveness.

ORG 604 Organizational Culture and Strategy (3)
Explores innovative approaches for organizing the business as a transformative and competitive strategy through structuring, processes, and culture. Develops skills for designing, implementing, and managing strategic change and transformation in organizations to foster resulting change in collective behavior.

ORG 605 Organizational Consulting (3)
Examination of best consulting practices for internal and external change agents. In depth exploration and practice on contracting, assessment and diagnosis, data collection, feedback techniques, implementation of planned change initiatives, resistance to change, and other psychodynamics in the organization related to change.

MBA Concentration in Strategic Leadership
Prepares business professionals to predict and influence individual and group behavior through strategic leadership. The concentration is designed for organizational professionals already proficient in administrative management. Broadens knowledge and skills through strategic leadership, strategic planning, and management courses.

ORG 603 Groups and Teams in Organizations (3)
Examines the management and development of groups and teams in organizations. Develops skills in creating and effectively managing teams in organizations. Covers job design in groups and team development, conflict management, team building, decision making in groups and teams, and approaches for improving productivity and organizational effectiveness.

ORG 604 Organizational Culture and Strategy (3)
Explores innovative approaches for organizing the business as a transformative and competitive strategy through structuring, processes, and culture. Develops skills for designing, implementing, and managing strategic change and transformation in organizations to foster resulting change in collective behavior.

STL 601 Strategic Leadership (3)
Examines characteristics and skills that allow leaders to make positive and strategic contributions to their organizations. Focuses on the development of strategic leadership skills including the development of strategic thinking and strategic actions for superior organizational performance.

STL 602 Strategic Planning and Management (3)
Introduces the concepts of strategic planning and management and considers the vision, mission, and goals of the organization. Examines the balanced scorecard approach to strategic planning and management for translating strategy to action.

FROM THE DEAN

Thank you for choosing to undertake a graduate program in Spring Arbor University’s School of Education. You join a rich and talented group of current students and alumni that includes missionary and international teachers, public and private school teachers, principals, superintendents, and educators serving in the business and government sectors. Our hope and prayer is that your graduate education helps you to make a positive impact in the learning and dispositions of K-12 students, and feeds your motivation to care for and inspire them.

We are committed to maintaining an excellent School of Education. Our faculty consists of dedicated educators who are respected by their peers for their subject matter expertise. Our administrators are known throughout our State for their active involvement in improving the quality of teacher education. Our staff is savvy at helping graduate students understand and complete their program. They have all chosen to be at an institution that frees them to bring their faith perspective and experience into their work, and to that end you can expect to experience a rigorous and rewarding graduate experience within the context of integrating faith and learning.

Our graduate programs focus upon the professional development needs and interests of K-12 teachers. As educators, you serve an increasingly diverse student population, and it is our intention that any program you choose will provide a strong foundation for you to develop and enhance your professional skills and strategies to better serve that population. Each graduate curriculum provides contemporary perspectives and ideas to support the kind of educational quality that is necessary for today’s classrooms.

Welcome to the School of Education. I encourage you to experience every class to the fullest. Get involved with each other, participate fully with your professors in discussions and assignments, challenge your own assumptions about education and assess your classroom success, and reflect upon the ethical bases of your teaching. “Get wisdom and get understanding” (Proverbs 4) so that your educational success becomes your students’ learning success.

I wish you God’s best

Reuben A. Rubio II, Ph.D.
Interim Dean, School of Education
The domains of the knowledge base used for this model are as follows:

**Content Knowledge**
SOE graduate students acquire advanced content knowledge in educational practice through an MAE in Instruction and Curriculum, an MA in Reading, an MSE in Learning Disabilities, or an MA in TESOL, Teaching English to Speakers of Other Languages. Students in all SOE graduate programs examine and strengthen the basis for their personal and professional worldview and think critically to respond to critical issues in education, including ethical dilemmas and conflicting worldviews.

**Management and Organization**
SOE graduate students develop effective management and organization skills, including an understanding of individual and group motivation and behavior to establish communities of learners, positive social interactions, active engagement in learning, and self-motivation in the learner.

**Pedagogy**
Graduate educators demonstrate methods of instruction that apply various theories of learning and human growth and development to the educational context and incorporate appropriate use of instructional technologies in the classroom. Graduate students create meaningful instruction based on knowledge of the subject matter, the prior knowledge and experiences of the students, the values of the community, and curriculum goals of the school district.

**Collaboration with Stakeholders**
The primary focus of this domain is engaging with families and other stakeholders in the instructional process. Students are expected to interact effectively with colleagues, families, students, administrators, counselors, support personnel, and other constituencies to benefit students and advance their own professional development. For educational professionals, collaboration extends to professional organizations and legislative actions as well.

**Diversity**
Graduate educators understand how students differ in their approaches to learning and create instructional opportunities that are adapted to diverse populations of learners. Graduate students understand that culture, language, race, ethnicity, gender, religion, cognitive and physical abilities, and socioeconomic status impact learning and development in important ways. Students learn about issues of equity and how to develop an inclusive environment. The concept of diversity in a global society is a special focus of graduate education at SAU.

**Assessment**
Today’s educators face a difficult tension: they must constantly reconsider the wisdom of traditional practice while also considering new approaches. SOE graduate students synthesize elements of traditional and new assessment techniques into coherent effective assessment strategies that advance the continuous intellectual, social, and physical development of the learner. Assessment includes student assessment and self-assessment. An emphasis on uses of assessment data in K-12 schools assists educators in evaluating instruction and incorporating new pedagogies to address identified needs.

**PROGRAMS OF STUDY**
These programs of study are available for those desiring graduate study in education. Some programs are offered completely online. Face-to-face classes often include online work between class meetings during the semester.

- **The MAE in Curriculum and Instruction** is designed for those who wish to enhance student achievement, obtain a master’s degree, meet recertification requirements, or broaden or refresh their knowledge in areas of professional education. Educators completing this degree gain the knowledge and skills to be research-based advocacy leaders in K-12 education. The program is offered both online and upon demand at our main campus.

- **The MA in Reading** leads to a master’s degree and the Reading Specialist (BR) endorsement for certified teachers who complete the program and pass the required Michigan Test for Teacher Certification (MTTC) in Reading. Because reading affects every aspect of student achievement, this degree is highly desirable in K-12 education and for teachers who wish to increase their effectiveness as educators. This degree provides educators with the knowledge and skills to plan, lead, and support K-12 literacy initiatives. This program is offered completely on-line.

- **The MA in TESOL (K-12)** prepares educators to better serve and teach students for whom English is not the first language. This program is offered completely online.

- **The MA in TESOL (Adolescent and Adult)** prepares candidates with a baccalaureate degree to teach English in non-K-12 settings both in the USA or abroad. This program is offered both online and upon demand at our main campus.
Objectives of the Master of Arts in Education (MAE), Master of Arts in Reading (MAR), and the Master of Arts in Teaching English to Speakers of Other Languages (MATESOL) programs

- To enhance the professional knowledge and skills of educators.
- To enable participants to apply analytic, research, and advocacy skills to the solution of current problems faced by educators.
- To provide educators with the opportunity to develop a sound basis for dealing with questions of ethics and values.
- To provide educators with the opportunity to refresh and expand their liberal arts experiences.
- To provide educators with the opportunity to acquire, refresh, or expand their knowledge of the role of research in education.
- To provide educators with the opportunity to develop the leadership skills necessary for developing collaboration among the constituencies in the local community and with state and national education professionals.
- To equip educators to meet the needs of an increasingly diverse student population.
- To prepare educators for new professional service and leadership roles.

Master of Special Education with a Concentration in Learning Disabilities or Autism Spectrum Disorder

This special education (MSE) concentration is designed for educators who wish to complete a graduate degree in this field to further enhance their abilities to serve this student population and their families.

Objectives of the Master of Special Education (MSE) program

- To enhance the professional knowledge and skills of special educators.
- To enable the participants to apply analytic and research skills to the solution of current problems faced by special educators.
- To provide special educators with the opportunity to examine and/or strengthen a sound basis for dealing with academic and behavioral challenges of students with special needs.
- To provide special educators with the opportunity to acquire the leadership, classroom management, technological, and instructional skills necessary to meet the increasing demands of exceptional students.
- To equip special educators in assessment and methods to provide intervention for students struggling in reading and other subject areas.

Non-degree program. This option is designed for teachers who wish to enhance their students’ achievement through more effective teaching, to meet requirements for the professional certificate, for teachers needing certificate renewal, or for teachers who wish to broaden or enrich their academic background but do not wish to pursue a degree program. This option also serves individuals who are not certified teachers but who wish to explore their interest in specific educational focuses from the degree programs above.

Michigan Department of Education Reading Requirement

In compliance with PA 32, the Michigan Department of Education requires an advanced reading course as a requirement for the Professional Certificate. For those holding a Michigan elementary certificate, EDU 624 meets this requirement. For those holding a Michigan secondary certificate, EDU 625 meets this requirement.

Endorsements

Teachers seeking additional endorsements in other content areas such as early childhood, special education learning disabilities, elementary education, or specialty programs in the arts and sciences may do so through a planned program of coursework at the bachelor’s level arranged with the Certification Officer prior to enrollment in any course. Endorsements can only be added to valid Michigan teaching certificates. Students holding certificates from other states must work with their certifying institution.

Reading (BR) Endorsement

Teachers who complete the MA in Reading and pass the MTTC test for the reading specialist endorsement (#92) as required by the Michigan Department of Education can add the BR endorsement to their teaching certificate.

ESL Endorsement

Students taking the MATESOL K-12 Track can apply for the ESL Endorsement from the Michigan Department of Education after completing the 24 credit hours of CORE courses for the endorsement and passing the MTTC Test (NS).

Enrichment

Students who wish to take occasional courses for enrichment or interest should make initial contact with the Certification Officer. Such coursework does not count towards a master’s degree at Spring Arbor University unless the student is formally admitted to the graduate program in education.

Master of Arts in Counseling (MAC) with an emphasis in school counseling (K-12) program (available through the School of Graduate and Professional Studies in conjunction with the School of Education) is designed for students who wish to obtain a master’s degree with a concentration in school guidance counseling for the purpose of obtaining a School Counseling
License (SCL) from the State of Michigan. See the MAC section of this catalog for more information.

Preparation for Coursework for Master of Arts in Education (MAE), Master of Arts in Reading (MAR), and MA in TESOL online programs

EDU 060 Orientation to Online Learning (no fee, no credit) This course is recommended prior to enrollment in on-line graduate education courses. Students with prior experience in online learning may choose to waive this course. EDU 060 is offered two weeks prior to each semester (August and January). Students desiring more information about on-line learning and practice with the elements of Blackboard should register for this course, which can be repeated if students desire additional support.

Course Description
EDU 060 Orientation to Online Learning (0)
Some of the topics covered include an introduction and overview of online learning, expectations, and tools that online students encounter. This course explores SAUonline’s learning management system (LMS), principles of online learning, including student expectations, characteristics related to successful online learning, and an overview of SAUonline courses – their structure, typical learning activities, and interactions. The course seeks to introduce online SOE students to SAU’s mission and values and the implications of those values for academic integrity, scholarly inquiry, and collegial behaviors and practices of online students.

MAE in Curriculum and Instruction

The MAE in Curriculum and Instruction offers advanced development for the professional educator in all domains of the School of Education’s conceptual framework and the Michigan Professional Standards for Teaching standards. Today’s educators face increasingly stringent student and professional assessments. The MAE in Curriculum and Instruction helps teachers develop the knowledge, skills, and dispositions to become educational leaders in their schools, communities, and state and national arenas. Designed for certified teachers who wish to enhance their effectiveness as educators as they obtain a master’s degree, this degree is offered on-line.

The required curriculum includes each of the following core courses:

- EDU 503 Elements of Successful Teaching (3)
- EDU 530 Values, Ethics, and Worldview (3)
- EDU 538 Diversity in a Global Society (3)
- EDU 560 Instructional Technology (3)
- EDU 578 Educational Assessment (3)
- EDU 594 Teaching Discouraged Learners/Troubled Youth (3)
- EDU 639 Critical Issues and Advocacy (3)
- EDU 650 Educational Research Methods and Design (4)
- EDU 656 Graduate Thesis (4) Prerequisite: 650

Students must choose a 3-credit elective from the following options:
- EDU 624 Elementary and Middle School Reading or
- EDU 625 Secondary Reading or
- Spring Arbor University graduate education credit EDU 517 workshops

(Please see information about allowable Workshop Credit.)

TOTAL REQUIRED COURSE HOURS: 32

MA in Reading with a Reading Specialist (BR) Endorsement

The MA in Reading provides the knowledge and skill set to earn the Reading Specialist (BR) endorsement for certified teachers who complete the program and then pass the required Michigan Test for Teacher Certification (MTTC) in Reading. Standards initiatives at the state and national level have increased the need for literacy leaders in K-12 education. This program prepares teachers to assume those roles to enhance both the profession and student achievement. Designed for certified teachers who wish to obtain a master’s degree and add a BR (Reading Specialist) endorsement, this degree is offered completely on-line. Students complete the entire MAR prior to taking the MTTC (#92) for the Reading specialist endorsement, as program synthesis and preparation for the MTTC occurs in RDG 692 and RDG 694.

The curriculum includes the following required courses:

- EDU 530 Values, Ethics, and Worldview (3)
- EDU 624 Elementary Reading (3)
- RDG 628 Teaching Writing (3)
- RDG 656 English Language Learners (3)
- RDG 678 Children and Young Adult Literature (3)
- RDG 679 Adolescent Literacy (3)
- RDG 680 Content Area Literacies (3)
- RDG 682 History and Psychology of Reading (3)
- RDG 684 Program Design and Analysis (3)
- RDG 689 Literacy Mentoring, Coaching, and Leadership (3)
- RDG 692 Literacy Research and Design (4) Prerequisite: all previous RDG courses
- RDG 694 Literacy Research Thesis (4) Prerequisite: RDG 692

TOTAL REQUIRED COURSE HOURS: 38
Master of Special Education

The Masters in Special Education is desirable to already certified teachers as well as non-certified teachers who desire to work in a field where a deep knowledge of the special needs population and the ability to work with that population are desired. The MSE provides the knowledge and skill set to earn the Special Education endorsement for certified teachers who complete the program and then pass the required Michigan Test for Teacher Certification. This program prepares individuals to take a leadership role in the field of special education. There are thirteen core credits required and then individuals will choose from either the Learning Disabilities concentration or the Autism Spectrum Disorder concentration. At the completion of the coursework, students with certification complete a research project and student teaching (for endorsement in LD or ASD). Those not seeking an endorsement complete a research project in their field of service.

The required curriculum includes each of the following courses:

CORE COURSES
- SED 500 Current Issues in Special Education (3)
- SED 501 Support and Collaboration - Special and General Education, Parents, Professionals, and Agencies (3)
- SED 502 Human Development for Special Education (1)
- SED 503 Law and Policy for Special Education (3)
- SED 523 Assessment and Evaluation in Special Education (3)

LEARNING DISABILITIES CONCENTRATION
- SED 520 Elementary Methods for Language Arts and Mathematics (3)
- SED 521 Secondary Methods for Content Area Reading, Study Skills, and Transition (3)
- SED 522 Language Development and Instruction (3)
- SED 504 Classroom Management and Development of Social Competencies for Students with Special Needs (3)
- SED 524 Assistive Technology (3)
- SED 525 Curriculum and Instruction for Student with Learning Disabilities (3)
- SED 550 Research Based Student Teaching and Seminar (5)

AUTISM SPECTRUM DISORDER CONCENTRATION
- SED 530 Introduction to Autism Spectrum Disorder (3)
- SED 531 Language and Communication Development (3)
- SED 532 Assessment and Intervention for ASD (3)
- SED 536 Curriculum and Instructional Methods for Students with ASD (3)

Master of Arts in TESOL

MA in TESOL in K-12 track

The MA in TESOL (K-5, K-8 or 6-12 education) is a 33-credit program. Michigan teachers seeking the ESL endorsement through this program will also need to pass the MTTC test for ESL (NS), meet English proficiency requirements for oral language and writing, and provide evidence of the study of a foreign language (one semester at the undergraduate level, two semesters in high school, or extensive time living or working in a non-English speaking country).

The following courses qualify Michigan teachers to sit for the MTTC for the ESL endorsement on a Michigan teacher’s certificate and can be applied toward the 33-credit MA in TESOL in K-12 education track.

ESL (NS) Endorsement (the NS endorsement applies to your level of certification whether K-5, K-8 or 6-12)
- 24 CORE credit hours for the ESL (NS) Endorsement
  - TSL 500 Linguistics for Teachers of English (3)
  - TSL 501 Cross Cultural Competence in Communication (3)
  - TSL 502 TESOL Methods and Materials for Second Language Acquisition (3) Prerequisite TSL 501
  - TSL 505 Assessment & Evaluation of Language Minority Students & Programs (3) Prerequisite TSL 501
  - TSL 506 Literacy Instruction for English Language Learners (3) Prerequisite TSL 501 & 502
  - TSL 508 English Grammar Approaches for English Language Learners (3) Prerequisite TSL 501 & 502
  - TSL 590 Sheltered Immersion (SIOP) for Content Area Teachers (3) Prerequisite TSL 501
  - TSL 600 Capstone Project, Field Experience, and Portfolio (3) Prerequisite: all courses in this set (all other CORE courses listed above).

Add the following required courses for the MA TESOL (K-12) degree.
Master’s in Education/Reading/Special Education/TESOL

TSL 503 Methods of Teaching, Speaking, and Listening with Beginners (3)
Prerequisite: TSL501.
TSL 510 Integrity in Teaching English as Mission (3)
Prerequisite: TSL501.
And ONE of the following elective courses
EDU 624 Elementary and Middle School Reading (3)
EDU 625 Secondary Reading (3)
RDG 628 Teaching Writing (3)
RDG 678 Children and Young Adult Literature (3)

TOTAL REQUIRED COURSE HOURS: 33

MA in TESOL in Adolescent and Adult Education (AAE) Track

The MA in TESOL AAE track is suited for students with a BA or BS degree with a major in a wide variety of subjects from accredited institutions but without K-12 teacher certification. Students in this track may be interested in teaching English in universities or community colleges in the US or abroad, in middle schools and high schools in some countries or in after-school English Language programs for elementary children in non-English speaking countries. Graduates may also teach in ministry-based settings primarily with adult students in the USA or abroad.

Required courses:
RDG 628 Teaching Writing (3)
RDG 678 Children and Young Adult Literature (3)
TSL 500 Linguistics for Teachers of English (3)
TSL 501 Cross Cultural Competence in Communication (3)
TSL 502 TESOL Methods and Materials for Second Language Acquisition (3)
TSL 503 Methods of Teaching, Speaking, and Listening with Beginners (3)
Prerequisite: TSL501.
TSL 505 Assessment & Evaluation of Language Minority Students & Programs (3) Prerequisite TSL501
TSL 506 Literacy Instruction for English Language Learners (3)
Prerequisite TSL 501 & 502
RDG 656 may be substituted for this course
TSL 508 English Grammar Approaches for English Language Learners (3) Prerequisite TSL501
TSL 510 Integrity in Teaching English as Mission (3) Prerequisite:TSL501.
TSL 600 Capstone Project, Field Experience, and Portfolio (3)
Prerequisite: TSL506, TSL 508, TSL 503, TSL 502, TSL 500.

TOTAL REQUIRED COURSE HOURS: 33

Master’s in Education/Reading/Special Education/TESOL

Master of Arts in Counseling
(with an emphasis in school counseling)

This 50-credit hour MAC degree is fully approved by the Michigan Department of Education. Individuals who complete this program and pass the Michigan Test for Teacher Certification (MTTC) in Guidance Counseling will be able to obtain a School Counselor License (SCL) from the State of Michigan. If the student also holds a valid Michigan teaching certificate, s/he may also add a Guidance and Counseling (NT) endorsement to his/her certificate. (Note: A teaching certificate is not required to earn the SCL)

The School of Human Services admits students into this program and determines course and graduation requirements. See the Master of Arts in Counseling program description in this catalog for program information. Specific inquiries related to the NT endorsement should be directed to the Certification Officer in the School of Education.

ADMISSIONS

Degree-seeking Programs (MAE, MAR, MSE, MATESOL)
Applicants must submit the following:
• Official transcripts verifying an earned bachelor’s degree from a regionally accredited college or university with a cumulative GPA of at least 3.00 for the last two years of the bachelor’s degree*
• Contact information for two references
• Copy of valid driver’s license or other government-issued photo ID
• Teacher certification information
• Conviction disclosure
• Completed graduate application

*Note: Grades earned after the bachelor’s degree may be considered in admission decisions.

MAR applicants must also submit the following:
• a writing sample
• a professional and a personal recommendation

MA TESOL applicants must also submit the following:
• Official transcripts verifying a bachelor’s degree from an accredited institution in the United States, England, Canada, or from an institution where the language of instruction was 100% in English
• A minimum GPA of 3.0 on a 4.0 scale
• Oral interview
• Writing sample essay
Master’s in Education/Reading/Special Education/TESOL

- Native English speakers must provide evidence of the study of a foreign language (one semester at undergraduate level, two semesters in high school, or extensive time spent living and working in a non-English speaking country)
- Non-native English speakers with a degree from an institution in a non-English speaking country must have a TOEFL score of 100 iBT or its equivalent 6.5 within the last six years.

*If significant time has been spent in the United States, England, or Canada, the candidate may request to demonstrate proficiency in English through professor observation of listening and speaking, as well as a college-level reading comprehension assessment and writing assessment.

MA TESOL K-5, K-8, 6-12 Endorsement Information
- Copy of Michigan teacher certification is required
- To complete the ESL Endorsement program, candidates in Michigan will have to pass the MTTC test for ESL (NS) after taking the 24 required credits in the endorsement track.
- If you are certified in a state other than Michigan, you will need to work with that state’s requirements for ESL certification

Please see www.arbor.edu for more information.

Classroom Access
Many of the courses in the SOE graduate programs assume that students are currently classroom teachers and have access to K-12 students, classrooms, and schools. Graduate students should be affiliated with a school in some manner (teacher, counselor, administrator, parapro, etc.) to truly get the most that they can from these courses. Many courses include working with K-12 students or teachers to fulfill course assignments, i.e., case studies, demonstrating lessons, surveying teachers, interviewing peers, conferencing with students, and so on. Due to the strong clinical component within our courses, graduate students who do not currently have their own classrooms or are not working within a school setting may find fulfilling assignment requirements challenging. Potential graduate students lacking sufficient access to schools are advised that professors will not necessarily be able to assist them with school placements, find alternative assignments or make modifications to the course work. It is not the responsibility of the course instructor to make such arrangements for graduate students.

Non-degree Seeking
Applicants must submit the following:
- Official transcripts verifying an earned bachelor’s degree from a regionally accredited college or university;

Master’s in Education/Reading/Special Education/TESOL

- Copy of valid driver’s license or other government-issued photo ID;
- Conviction Disclosure Form
- Michigan Certification information or a copy of teaching certificate (if issued by a state other than Michigan); and
- A completed application

Please see www.arbor.edu for more information.

Guest Students
Applicants who are currently enrolled at another university may enroll as a guest student for up to six credit hours to transfer back to their home university.

Guest students may enroll in one course at a time. A 3.0 or better grade in the first course permits registration in the second course as a guest student.

To apply for guest student status, complete and submit the SAU guest graduate application with a photocopy of the front and back of a valid driver’s license.

Misdemeanor and Felony Disclosure
Due to state employment and reporting regulations, applicants must answer questions regarding past or pending misdemeanors or felonies as an adult or juvenile. Falsification of information will be considered fraud and denial of admission to or grounds for revoking prior admission to the University. Furthermore, falsification of information could result in denial by the Michigan Department of Education (MDE) for future certification and/or revocation by the MDE of current certification. Individuals with questions regarding this information should contact the Certification Officer in the School of Education.

Transfer Credit
A maximum of nine (9) semester hours of graduate work from a regionally accredited college or university may be reviewed for credit toward the SOE graduate degrees at Spring Arbor University. Credit may not be older than six years. Applicants must provide official transcripts along with course syllabi and/or official catalog course descriptions for each course for which they are requesting transfer credit. This option most often applies to the MAE program, as masters programs leading to new endorsements must adhere to Michigan Department of Education requirements as represented in the MDE-approved program.

Workshop Credit
Students in the MAE in Curriculum and Instruction program may take up to three hours of EDU 517 through varied workshop offerings through SAU. The MSE, MAR, and MA TESOL degree programs do not accept workshop credit.
MAE, MAR, MA TESOL, and MSE GRADUATION REQUIREMENTS

- Successful completion of the required credit hours of approved work for the program;
- Cumulative GPA of at least 3.00;
- Courses with a grade lower than a C may not be counted toward the degree requirements;
- No more than two courses with a grade of C may be counted toward graduation requirements;
- Successful completion of a minimum of 24 hours of graduate course work at Spring Arbor University; and
- Successful completion of all other requirements for graduation specified in this catalog, the School of Education, and University policy.

DISCLAIMER: Due to configurations of courses, changes in course hour requirements, or certification requirements, it is possible for a student to accumulate more than the required credit hours for an SOE graduate degree. The listed credit hours are merely the minimum for completion of a specific degree.

POLICIES

Advising
Students in a degree-seeking program may consult with a graduate program academic advisor, the Certification Officer, or graduate education faculty and staff for advising assistance.

Academic Standing
A student is considered to be in good academic standing with a cumulative GPA of 3.00 or better where no more than two of the courses have received individual grades below 2.00. Students who do not maintain good academic standing will be placed on probation. Students must be in good academic standing in order to graduate.

Course Load
Students in graduate programs may take up to sixteen (16) credit hours per six-month semester. Students may consult with their advisors to inquire about taking additional credits during a given semester.

Course Registration Changes (drops/adds)
Information and policies for adding, dropping, or withdrawing from courses are listed in the General Information section at the front of this catalog. Financial aid regulations make the timing of withdrawals important for students. If you withdraw from a class your financial aid and student accounts may be affected.

Minimum Competency in Computer Technology
Graduate education course design assumes that students can effectively use word-processing programs, spreadsheets, presentation software (including PowerPoint), web browsers, search engines, and library databases. Remediation in these basic skill areas will not be provided during these courses. If you have concerns about your technology skills, you are encouraged to seek help before taking classes. All SOE graduate students can enroll in the free two-week EDU060 course for training in online learning offered prior to each semester. The University offers an introductory computer course (CPS 150 Introduction to Computers). There are also a number of text and on-line resources that can be reviewed.

Registration/Withdrawal Policy for Workshops by the University
If a student is planning to obtain graduate credit for any workshops offered by the University, s/he must register and pay the appropriate tuition rate at the first class session. Once students register and pay for the workshop, the University will not honor withdrawals, drops, or tuition refunds under any circumstances.

MAE IN CURRICULUM AND INSTRUCTION

Ten REQUIRED courses listed below

EDU 503 Elements of Successful Teaching (3)
This course focuses on the development of teaching skills and strategies based on elements documented in effective teaching research. Students also investigate the impact of legislation on education. Students create plans to apply various techniques and strategies studied to address the needs of their own students.

EDU 530 Values, Ethics, and Worldview (3)
In this study of the influence of Christianity on values and ethics in contemporary society, students gain an understanding of the historical influence of Christianity in the development of values and ethics in our nation. This course provides a foundation for and an understanding of the effects of a Christian worldview. Ethical dilemmas for teachers and students are explored.

EDU 538 Diversity in a Global Society (3)
Students examine the impact of culture, poverty, and globalization on teaching, learning, and community in the American educational system. (Culture includes, but is not limited to race, ethnicity, gender, religion, and nation of origin.) The purpose of this course is five-fold: to facilitate greater self-awareness of learners’ beliefs and values and how they impact others; to
broaden understanding of culture and poverty as each impacts students in an educational setting; to increase understanding of global and international perspectives of education and 21st century skills; and to provide impetus for the development and use of adapted teaching practices that are based upon educational research.

EDU 560 Instructional Technology (3)
Instructional Technology has been defined as “the theory and practice of the design, development, utilization, evaluation, and management of the processes and resources for human learning.” The field of Instructional Technology is concerned with the application of technology throughout the educational process. EDU 560 is an introduction to the field and theory of Instructional Technology. The course explores the multiple roles of technology in instruction and management of the learning process, with special emphasis on K-12 education. This course assumes the student has minimum competency in technology.

EDU 578 Educational Assessment (3)
Participants examine the roles of assessment and evaluation in education, explore the principles underlying the assessment process, and develop the skills needed to use assessment and evaluation data wisely. Participants gain skills needed to interpret and use assessment tools and data in classroom settings, schools, and districts to inform instruction and communicate with stakeholders. (Formerly EDU 678).

EDU 594 Teaching Discouraged Learners/Troubled Youth (3)
Students study the needs and behaviors of discouraged learners with strategies for teaching and reaching these students. Instructional design based on brain research and these principles provides the opportunity for students to translate current research and theory in this field into practice to increase opportunities for student engagement and achievement. (formerly EDU 694).

EDU 639 Critical Issues and Advocacy (3)
Students research and explore current topics and issues in education to create advocacy strategies as they consider the interrelationships of curriculum, educational initiatives, contemporary issues, and instruction. Students explore critical thinking skills and design plans to incorporate those skills in their professional practice. (Formerly EDU 539).

EDU 650 Educational Research Methods and Design (4)
Students in this course examine research approaches to learn more about questions in education. Students acquire a broad understanding of the research process, including the ability to read and understand educational research, and the ability to critique methods and findings of selected research. Teacher-researchers identify their personal research focus, craft research questions, and create a research plan. Students review related literature and draft a literature review. Chapters 1, 2 and 3 and the bibliography and appendices of the thesis are addressed in this course. Prerequisite: All previous required courses in the program. (Offered in fall)

EDU 656 Graduate Thesis (4)
In this course, teacher-researchers present, fine-tune, and implement their research plans. Students conduct data collection, analysis, and interpretations leading to recommendations for action based on findings. Chapters 4, 5, and 6, as well as the abstract, table of contents, and tables and figures of the thesis are produced in this course. Students report their research via a bound thesis and a formal academic presentation to a professional audience. In this course, students put action research in context, exploring paradigms, theories, and the transformative nature of teacher research. Prerequisite: EDU 650. (Offered in spring.)

Plus ELECTIVE COURSES to total three credit hours

EDU 510 Navigating the First Five Years of Teaching (2 credits)
Open to SAU-certified teachers, this year-long on-line course provides an online mentored networking opportunity for new teachers in the early stages in their career.

EDU 517 Workshop--Special Topics (1-3 credits)
To obtain graduate credit from Spring Arbor University for workshops or conferences partnering with SAU, students must complete the School of Education registration form and pay related fees and the published tuition rate for the graduate credit being offered for the workshop by the first day of class. Once students register and pay for graduate credit in conjunction with the workshop(s), Spring Arbor University will not honor withdrawals, drops or tuition refunds under any circumstances. Students who wish to receive graduate credit in conjunction with the affiliated conference or workshop must complete all assignments described in the syllabus by the time specified. Transcripts will be available through Spring Arbor University three weeks after the instructor of record has submitted grades. EDU 517 workshops on many educational topics are offered at many sites across Michigan.

EDU 624 Elementary and Middle School Reading (3)
This course for pre-K through 6th-grade teachers includes field experiences in the diagnosis and remediation of reading disabilities and provides the educator opportunity to engage with one reader to discover student strengths and needs and develop a case study. Course focuses include interest inventories, English language learning screening, visual and auditory discrimination tools, language expression and processing screening, phonemics, phonics, vocabulary, fluency, comprehension, spelling and writing assessment tools, and instructional strategies. Students will explore current models of reading assessment and
support, as well as classroom applications designed to develop effective reading skills and dispositions, including differentiated instruction in response to student needs. For those holding an elementary certificate, this course satisfies the Michigan Department of Education reading requirement for new professional certificates issued after July 1, 2009, per 2007 PA 32, MCL 380.1531(4) (previously PA118). (Offered online).

EDU 625 Secondary Reading (3)
This course for 6-12 grade teachers investigates issues in secondary reading and skill development. Focuses include differentiated instruction, interest inventories, fluency, comprehension, spelling and writing assessment tools, and instructional strategies. The course explores the skills and complexities of the reading process through classroom field experiences. Students will investigate a variety of instructional techniques to facilitate the development of effective readers and learners. The emphasis will be on practical research-based classroom applications. For those holding a secondary certificate, this course satisfies the Michigan Department of Education reading requirement for new professional certificates issued after July 1, 2009, per 2007 PA 32, MCL 380.1531(4) (previously PA118). (Offered online).

EDU 690 Individual Advanced Research (1-3)
This course is designed to allow a student to research a topic of interest on an individualized basis. The instructor must approve planning for the topic and for the final project and/or paper before the student may register for the class. This course may be taken more than once.

MA IN READING (with BR Endorsement)
Twelve REQUIRED courses listed below

EDU 530 Values, Ethics, and Worldview (3)
In this study of the influence of Christianity on values and ethics in contemporary society, students gain an understanding of the historical influence of Christianity in the development of values and ethics in our nation. This course provides a foundation for and an understanding of the effects of a Christian worldview. Ethical dilemmas for teachers and students are explored.

EDU 624 Elementary and Middle School Reading (3)
This course for pre-K through 6th-grade teachers includes field experiences in the diagnosis and remediation of reading disabilities and provides the educator opportunity to engage with one reader to discover student strengths and needs and develop a case study. Course focuses include interest inventories, English language learning screening, visual and auditory discrimination tools, language expression and processing screening, phonemics, phonics, vocabulary, fluency, comprehension, spelling and writing assessment tools, and instructional strategies. Students will explore current models of reading assessment and

EDU 628 Teaching Writing (3)
Teachers investigate writing development and applications across the curriculum as they design, facilitate, and assess writing experiences and assignments in all subjects. Teachers develop methods and materials for writing process approaches, investigate instructional strategies for teaching genre and writing conventions, and explore the implications of standardized testing for writing instruction. Course focuses include workshop approaches, current research, experiential learning, and classroom applications of research and theory.

RDG 656 English Language Learners (3)
This course offers an overview of the role of language and cultural identity on English language acquisition. Current research in best practices for teaching reading and writing to English Language Learners will be explored. Teachers use a case study to investigate issues, strategies, and programs designed to assist English Language Learners. (Formerly EDU 696).

RDG 678 Children and Young Adult Literature (3)
A study of literature and Its uses for K-12 students, including the most recently published materials, the role of children and young adult literature in developing literacy, standards for selection and evaluation of materials, and strategies for involving students in particular types of literature comprise this course. Teachers apply criteria for selecting and evaluating literature from a historical perspective and in conjunction with critical theory. Teachers investigate research in the field and explore strategies to incorporate literature, including multicultural literature, into the curriculum in all subjects.

RDG 679 Adolescent Literacy (3)
This course examines the needs of and demands on adolescent learners to be multi-literate in contemporary society and explores how educators can advocate, create, and collaborate to meet these needs. Strategies for informing and involving students and parents in literacy development, including technology use, are featured. Teachers analyze societal, school, family, and individual situations that promote and inhibit literacy learning and develop strategies to address these issues.

RDG 680 Content Area Literacies (3)
This course addresses reading and writing processes and pedagogy, genre study, elements of effective oral and written communication, and the integrated
nature of literacy skills instruction and use across the curriculum. Issues of motivation, developmental needs, and literacy teaching strategies are also explored.

**RDG 682 History and Psychology of Reading (3)**
Teachers explore the acquisition and operation of reading processes beginning with emergent literacy and the history and influences on the teaching of reading and reading practices from colonial to contemporary times. Course work focuses on basic research in reading and reading research methods in cognitive and developmental psychology. Teachers examine the influences of psychology on reading theory and topics in the psychology of reading. Teachers investigate how these have influenced reading assessment tools and development.

**RDG 684 Program Design and Analysis (3)**
Teachers examine contemporary and historical models for literacy learning and reading. Investigations into family literacy strategies and programs, research of reading programs and literacy research, policies at the national, state and local levels, staff and program development, text selection, and interpretation of student assessment data for reading and language arts, with special attention to advocacy, are course focuses. Prerequisites: EDU 624, RDG 628, RDG 678, RDG 679, RDG 680, and RDG 682.

**RDG 689 Literacy Mentoring, Coaching and Leadership (3)**
This course addresses essential leadership qualities, contextual factors, and needs of students and adult learners while initiating and implementing literacy policies and programs. Students will analyze literacy initiatives and the change process using a variety of theoretical lenses, including cultural, sociological, and psychological. This course will highlight pragmatic and pedagogical considerations for literacy leaders, as well as the need for collaboration among all stakeholders to enhance sustainability and students. Prerequisites: EDU 624, RDG 628, RDG 678, RDG 679, RDG 680, and RDG 682.

**RDG 692 Literacy Research Methods and Thesis Proposal (4)**
This course focuses on the elements and processes of literacy research and academic writing. Teachers study literacy research methods, existing literacy research studies, and their own literacy concerns to design a research study. Students develop Chapters 1, 2 and 3, the bibliography and the appendices of their thesis in this course. Students create a cohesive professional portfolio encompassing essential knowledge and application strategies using research and information from each course in the program. Prerequisite: completion of all previous classes in the program.

**RDG 694 Literacy Research Thesis (4)**
In this course, teacher-researchers implement their literacy research plans.

Coursework promotes professional development through coaching and mentoring models for teachers in order to support implementation of various instructional programs and practices. Teachers conduct data collection, analysis, and interpretations leading to recommendations for action based on findings. Students complete Chapters 4 and 5 as well as the abstract, table of contents, and tables and figures of the thesis. In this course students review all Reading Specialist standards and prepare for the MTTC examination. Prerequisite: RDG 692.

**MA IN TESOL**

**TSL 500 Linguistics for Teachers of English (3)**
This course provides a study of English as a system, the components of the language system: phonology, orthography, phonics morphology, syntax, and the relatedness of language systems for those preparing to teach English to speakers of other languages. The coursework will compare different theories of language variation, social and academic language registers, the benefits of bilingualism, and how knowledge of sentence structure instruction fits into current practices in language teaching.

**TSL 501 Cross Cultural Competence in Communication (3)**
This course is designed to assist students in exploring personal biases and methods of overcoming them and the basic principles underlying multicultural education. This course provides an opportunity to develop appropriate teaching strategies, activities and materials and to adapt and evaluate curricula for use in culturally diverse, as well as homogeneous classrooms. Ten hours of lab experiences, which will help students apply the concepts, are included in the course requirements.

**TSL 502 TESOL Methods and Materials for Second Language Acquisitions (3)**
This course focuses on the pedagogical aspects of teaching English and the preparation of teaching materials for classroom use. Integrated methods and strategies will be explored for teaching listening, speaking, reading, and writing to ELLs of diverse backgrounds and levels. This course requires highly constructive class participation and responsible out of class lesson preparation for the lab setting. The goals of this course are to develop students' knowledge in the following areas: theories of second language acquisition, research based pedagogy for ELLs, how to manage instruction for different levels of learners with diverse abilities, appropriate interactions with students and parents from diverse cultural backgrounds. Prerequisite: TSL 501

**TSL 503 Methods of Teaching Speaking and Listening with Beginners (3)**
The course focuses on the pedagogical and teaching materials for classroom use when teaching children and adults as beginning speakers of English.
Integrated methods and strategies will be explored for developing listening and speaking skills of ELLs of diverse backgrounds and levels. This course requires highly constructive class participation and responsible out of class lesson assignment preparation.

TSL 505 Assessment and Evaluation of Language Minority Students (3)
This course explores theoretical and practical aspects of language assessment and evaluation, particularly in measuring English language skills of students in ESL programs. The students will use the Michigan English Language Proficiency Assessment to assess listening, speaking, reading, and writing. WIDA and DIBELS_ELD standards will be reviewed and compared. Performance based and standardized assessment tools will be developed, used and evaluated in light of issues related to bias, social, political, and psychological factors. Prerequisite: TSL 501.

TSL 506 Literacy Instruction for English Language Learners (3)
This course is a general overview of the interconnectedness of culture and reading and writing skill development. Students will review the developmental aspects of second language acquisition, as well as the developmental aspects of reading and writing, providing insights for the creation of programs for literacy development for English language learners. The course aims to develop an understanding of learners who intermediate language acquisition and learning to read and write in English in the ESL and general education classroom. Students will assess the oral language proficiency, reading comprehension, vocabulary knowledge, and writing skills of a case study student or small group. Reading comprehension and writing skill development strategies will be implemented with the case study individual or group. Challenges for developing phonemic awareness, spelling, vocabulary, and comprehension with English Language Learners will be explored. Students will review current research into best practices for teaching reading and writing. Prerequisite: TSL 501 and TSL 502. RDG 656 may be substituted for this course.

TSL 508 English Grammar Approaches for English Language Learners (3)
This course will enhance the classroom instruction of teachers of English language learners by blending classroom strategies with a study of the most important grammatical structures of the language. Students will become familiar with the meta-language and key concepts of English grammar. Students will develop lessons for the production of English in speaking and writing activities, with a focus on communicative competence. The course will target the most useful grammatical skills needed for beginning and intermediate level English language learners. Students will analyze spoken and written English of native and non-native speakers in order to understand and explain the most frequent error types of learners from different language groups. Prerequisite: TSL 501.

TSL 509 Sheltered Immersion (SIOP) for Content Area Teachers (3)
This course is built around the SIOP model for teaching content and language in mixed ability classrooms in K-12 settings. Students will develop an understanding of how to plan a supportive classroom learning environment for ELL students. Candidates will plan for multi-levels of diverse students using standards-based ESL and content curriculum. Candidates will design integrated activities that focus on listening, speaking, reading, and writing goals which also address content objectives. Ten hours of observation and participation in a science, social studies or math classroom with ELLs are required. Prerequisite: TSL 501.

TSL 510 Integrity in Teaching English as Mission (3)
This course provides a study of integrity in effective English language programs in the States and overseas. The coursework will consist of critically examining issues such as linguistic imperialism, teaching English as professionals in creative access countries, the need for integrity, and the importance of adequate teacher training. Prerequisite: TSL 501.

TSL 600 Capstone Research Project, Field Experience, and e-Portfolio (3)
Teachers will build a web-based portfolio which demonstrates how they have met the criteria for selected National Board for Professional Teaching Standards, NCATE/TESOL, and the Michigan ESL Endorsement standards. Knowledge of research in the field of Applied Linguistics will be demonstrated in a comprehensive literature review of an issue related to any one of the domains addressed in the standards. The topic will be pre-approved by the professor. Documentation of teaching competence and reflection will be part of the portfolio. The portfolio contents are a collection of the videos, screencasts, unit plans, article analyses, webiographies, article reflections, case studies, etc. that the student has produced as part of the TESOL course work or during the field experience. Prerequisites: required courses in the 24 CORE required set for ESL endorsement in K-12 track TSL 502, TSL 500, TSL 505, TSL 508, TSL 506. Prerequisites for AAE Track: TSL 500, TSL 502, TSL 503, TSL 505, TSL 506, TSL 508.

TOTAL REQUIRED COURSE HOURS: 33

Master of Special Education

CORE courses

SED 500 Current Issues in Special Education (3)
This course offers an introductory overview of the special education field. The focus will be the needs of students with disabilities: knowledge of handicap conditions, educational implications, legal considerations, procedures for identification and placement of students with disabilities, due process and privacy requirements, historical and philosophical background of special educa-
tion, and the instructional strategies applied in educational settings.

**SED 501 Support and Collaboration - Special and General Education, Parents, Professionals, and Agencies (3)**
This course provides information on identifying and accessing resources relevant to persons with disabilities. These resources may be within the school setting or from outside agencies. The course will also address factors that impede the use of these resources. Instruction will be provided on the development of interpersonal skills needed to effectively communicate with parents, colleagues, and outside agencies. Instruction will also be provided in methods used to teach cooperatively with regular educators, methods used in participation on teams within the school, and methods used to supervise classroom aides, volunteers, and paraprofessionals.

**SED 502 Human Development for Special Education (1)**
This course complements an educational psychology course with emphasis on the exceptional development of special education students. Common mental, emotional, neurological, environmental, and psychological conditions that affect learning will be explored.

**SED 503 Law and Policy for Special Education (3)**
This course includes a study of the history of special education laws, each law’s intent, and the working state and federal laws. Special emphasis is placed on IDEA and the evolution of the Reauthorization of IDEA 2004. The learner will also be able to effectively communicate the needs and rights of persons with disabilities. Knowledge of institutional and administrative factors, which facilitate or impede delivery of services, will be studied. An understanding will be gained of the roles and organizational structures that regular and special education play in providing total service for the students.

**SED 504 Classroom Management and Development of Social Competencies for Students with Special Needs (3)**
This course is designed to provide students with a practical foundation in the principles of individual and group management structures. The course will enable students to not only understand basic behavioral management concepts but also demonstrate their ability to develop, implement, and incorporate appropriate behavior management techniques. The maintenance of appropriate academic and social behaviors in the special education classroom will be emphasized as well as the development of strategies in the areas of prevention, assessment, identification, and intervention. These strategies will be used to help the LD student develop the self-management skills required for constructive social participation and independent learning. Many students with learning disabilities face challenges in the area of socialization therefore this class will include developing appropriate social behavior.

**Concentration in Learning Disabilities courses**

**SED 520 Elementary Methods for Language Arts and Mathematics (3)**
This course focuses on the educational methods and strategies to meet the needs of the student with learning disabilities at the elementary level. Emphasis will be placed on the understanding of remedial techniques for reading, mathematics, and written expression. Prerequisite: SED 523.

**SED 521 Secondary Methods for Content Area Reading, Study Skills, and Transition (3)**
This course focuses on the educational methods and strategies to meet the needs of the student with learning disabilities at the secondary level. This course will also provide skills in making adaptations and modifications in lesson plans and tests. Prerequisite: SED 523.

**SED 522 Language Development and Instruction (3)**
This course provides skills and techniques in understanding learning problems by focusing on the development of language as it relates to reasoning, thinking, listening, speaking, reading, writing, and spelling. Emphasis will be placed on understanding the components of language, knowing how the assessment of these skills is conducted and what effect disorders in listening, speaking, and thinking have on learning to read, write, and spell. Finally, instruction will be provided on teaching strategies to help the language learning disabled student and additional information will be provided on resources the teacher can utilize to become a more effective teacher. Prerequisites: Undergraduate or graduate introductory course in Special Education and Undergraduate or graduate course in human development for students with disabilities.

**SED 523 Assessment and Evaluation in Special Education (3)**
This course provides instruction in appropriate procedures for the assessment and reporting of student’s reading, writing, mathematical, and social skills. Emphasis will be placed on assessment methods that lead directly to diagnosing skill deficits and determining current level of functioning, which can be translated into goals and objectives and statements of progress on the student’s IEP. Methods of evaluating instructional outcomes will be explored so that an ongoing instructional plan can be adjusted to meet the student’s needs. Prerequisite: Undergraduate or graduate introductory course in Special Education.

**SED 524 Assistive Technology for Special Education (3)**
This course provides an understanding of how adaptive technology may be used to enhance the education of handicapped students. It teaches a framework for assessing special needs students’ abilities, environment, required tasks, and assistive tools. Students will investigate high tech, mid tech, low tech, and no tech responses to the needs of students with disabilities.
SED 525 Curriculum and Instruction for Students with Learning Disabilities (3)
This course includes a study of research based curriculum designs and strategies for the student with learning disabilities. Topics include preplanning, principals of curriculum decision making, effective school research, and participatory strategies for the curriculum and instruction. The types of learning disabilities and the characteristics of each is discussed in light of curriculum design. Emphasis is placed on differentiating instruction for the child with learning disabili- ties. Educators will acquire skills that will enhance student learning.

SED 550 Research Based Student Teaching and Seminar (5)
This course consists of mentored special education teaching in a K-12 setting. The student teacher will have opportunities to manage the classroom and learning activities of special education pupils. The student teacher assumes responsibility for directing the classroom. The seminar portion of the course will focus on research topics specific to the special education field, practical aspects of assessing students, planning and implementing instruction, evaluating and revising student programs, consulting with teachers and other professionals and parents. Student teachers will develop and implement a research plan. They will conduct data collection, analysis, and interpretations leading to recommendations. Those not seeking an endorsement will complete the research component as relevant to their area of service.

Concentration in Autism Spectrum Disorder

SED 530 Introduction to Autism Spectrum Disorder (3)
This course focuses provides students with an overview of Autism Spectrum Disorder (ASD). It addresses the process and methods of identification. Social issues and the implications of Autism Spectrum Disorder on an individual’s life will be introduced. Current treatments and research will be introduced with a focus on evidence based practices for students with ASD.

SED 531 Language and Communication Development (3)
This course examines procedures for assessment of communication, language, and speech of students with Autism Spectrum Disorder and it will review strategies for promoting language and communication skills across the different environments. Prerequisite: SED 530.

SED 532 Assessment and Intervention for ASD (3)
This course will cover diagnosis criteria in the identification of students with Autism Spectrum Disorder. Students will understand the importance of early diagnosis and become familiar with recommended screening instruments for autism. Particular focus is placed on linking assessment data to implementation of meaningful interventions in all educational settings. Prerequisite: SED 530 and SED 531.

SED 533 Technology for Students with ASD (2)
This course will cover assistive technology applications for students with Autism Spectrum Disorders. Emphasis will be placed on proper assessment, informed choices of equipment, training and implementation in the use of assistive technology devices, and progress monitoring of the impact of the use of assistive technology. Prerequisite: SED 530 and SED 531.

SED 534 Collaboration and Transition Planning for Students with ASD (2)
This course introduces students to the idea of collaboration as a special education professional. Prevocational and vocational planning as well as transitional issues will be discussed. Using supported employment, community-based instruction, and skillful assessment of a young person’s goals, strength, and skills. Prerequisite: SED 530 and SED 531.

SED 535 Behavior Programming for Students with ASD (3)
In this course, students will review legal and ethical guidelines affecting behavior planning, as well as learning evidence-based practices for behavior interventions as related to students with Autism Spectrum Disorder. Focus will be placed on collaboration to determine impact of multiple variables upon student behavior, to develop interventions based upon group consensus, and to review and modify interventions based upon data. Prerequisite: SED 530 and SED 531.

SED 550 Research Based Student Teaching and Seminar (5)
This course consists of mentored special education teaching in a K-12 setting. The student teacher will have opportunities to manage the classroom and learning activities of special education pupils. The student teacher assumes responsibility for directing the classroom. The seminar portion of the course will focus on research topics specific to the special education field, practical aspects of assessing students, planning and implementing instruction, evaluat-
ing and revising student programs, consulting with teachers and other professionals and parents. Student teachers will develop and implement a research plan. They will conduct data collection, analysis, and interpretations leading to recommendations. Those not seeking an endorsement will complete the research component as relevant to their area of service.

SCHOOL OF HUMAN SERVICES

Master of Arts in Counseling
Master of Arts in Family Studies
Master of Science in Nursing
Master of Social Work
Nonprofit Leadership and Administration Endorsement
FROM THE INTERIM DEAN

Welcome to the School of Human Services. Our graduate programs are designed to offer our students an outstanding educational experience with an integration of faith and learning. We believe in service to our greater communities as well as to each other.

We currently offer degrees in Counseling, Family Studies, Social Work, and Nursing. Our programs are offered online and at SAU sites across the State of Michigan. Please contact Spring Arbor University at www.arbor.edu or a site near your hometown for more information or to enroll in one of our dynamic professional degrees.

Tamara Dindoffer, Ph.D
Dean
School of Human Services
**PROGRAM DESCRIPTION**

The Master of Arts in Counseling (MAC) provides comprehensive academic instruction and clinical experience for students interested in helping others in a counseling setting. The MAC program is a 60-credit hour degree program, which includes a 100-hour practicum and a 600-hour internship. This program helps students integrate professional ethics, multiculturalism, interpersonal skills, and counseling theory and practice within a Christian perspective.

**Mission Statement**
To prepare competent professionals who are committed to ethical practice and critical participation in a global society.

**Program Objectives**
The MAC program will assist students to:

1. Integrate a Christian faith perspective for personal and professional development as a basis for counseling practice.
2. Demonstrate a working knowledge of the Code of Ethics and Standards of Practice of the American Counseling Association. Students in the school counseling track will also demonstrate a working knowledge of the American School Counselor Association’s Ethical Standards for School Counselors.
3. Develop an awareness of, and sensitivity for, social and cultural influences on human behavior and recognize the impact of individual differences on the counseling process.
4. Create a professional identity through coursework, post-graduate trainings, supervision, and active membership in professional organizations.
5. Establish a foundation for understanding both normal and abnormal behavior of human development across the life span, based on theories of human development and counseling theory and techniques.
6. Describe the major theories of career development in the context of the person’s diverse needs, unique life roles, and life factors.
7. Establish a therapeutic relationship where “best practice” in counseling theories and techniques are utilized as a basis for case conceptualization, intervention, and on-going evaluation of client/student progress.
8. Demonstrate effective group leadership techniques, based upon knowledge of group theory, dynamics, and developmental tasks with diverse clients/students.
9. Demonstrate knowledge of social, cultural, and ethical factors that influence selection, administration, and interpretation of standardized and non-standardized assessments for both individuals and groups.
10. Serve as effective consumers of research, being knowledgeable of research methodology and statistical analysis that inform evidence-based practice for both client/student intervention and program development/evaluation.

**Tracks**
The MAC program offers two tracks: Clinical Mental Health Counseling and School Counseling. Both tracks have a common core curriculum (60 credits). The School Counseling Track requires an additional 9 credits for non-teachers or an additional 6 credits for certified teachers. The Clinical Mental Health Counseling track is designed to help students with preparation for Michigan licensure as a Licensed Professional Counselor (LPC). LPCs may be employed in mental health settings, churches, clinics, other agencies, or a private practice setting. The School Counseling track is designed to assist students with preparation for becoming a K-12 Licensed or Endorsed School Counselor in Michigan. Current certified teachers are eligible to pursue the K-12 school counselor endorsement to their teacher certification in the State of Michigan. Non-teachers are eligible to pursue the school counseling license in the State of Michigan. Licensed or Endorsed School Counselors may be employed in local school districts, career centers, or intermediate school districts to work with K-12 students. The school counseling track is also intended to assist students with preparation for Michigan licensure as an LPC.

**Licensure**
Students desiring to become LPCs must first apply for licensure as a Limited Licensed Professional Counselor (LLPC), complete the necessary 3,000 post-degree hours supervised by an LPC, and pass a licensing exam. Please refer to the MAC Student Handbook for specific Michigan licensure requirements. Students who are considering licensure in other states are encouraged to contact the Board of Counseling or State Education Department of that state to learn about the requirements for licensure. This should be done prior to enrolling in the MAC program.

**Ohio Licensure Concentration**
The SAU Master of Arts in Counseling (MAC) degree can be completed with 60 semester hours, including a 100-hour Practicum and a 600-hour Internship field experiences. The state of Ohio requires a minimum of 60 semester hours of coursework to be eligible for state licensure. SAU has designed an Ohio Clinical Mental Health Counseling concentration that meets the requirements of Professional Counselor (PC) or Professional Clinical Counselor (PCC) licensure in the state of Ohio.

**Program Format**
The MAC program is designed to be completed by a cohort group that begins and ends core coursework together. This group format is intended to facilitate learning and provide support for all members of the group.
The MAC program intentionally recruits students who are representative of a multicultural and diverse society. Applicants from a variety of undergraduate disciplines may apply to this program, although a degree in counseling or psychology may be the best preparation for the program. The MAC program is taught from a Christian perspective.

Admission Requirements

General Admission Requirements (see also the general admissions portion of this catalog):

- A bachelor’s degree from a regionally accredited college or university;
- 3.0 cumulative GPA for the bachelor’s degree within the last four semesters;
- An official transcript from all previous institutions attended;
- At least two recommendations from professional/academic sources using the provided recommendation forms;
- Successful interview with the Director of the MAC Program and/or designees;
- Successful completion of an on-site writing assessment, demonstrating proficient computer and writing skills;
- Misdemeanor and Felony Disclosure Form;
- A criminal background check will be completed on each student early in the program, and again just prior to the Clinical Experience. Criminal findings may result in dismissal from the MAC program.
- Submission of a Statement of Purpose (1-2 pages) detailing the reasons for pursuing this counseling degree, relevant career goals, and the track to which the individual is applying – School Counseling applicants should include relevant experience with school-aged youth (e.g., Scouts, 4-H, youth group); and
- A completed application.

Note: A resume or vita outlining volunteer/professional work-related experiences pertinent to the counseling field is recommended for the admission process. Please see www.arbor.edu for more information.

Guest Students

Applicants who are currently enrolled at another institution may enroll as a guest student for up to six credit hours to transfer to their home institution. Because of class size restrictions, preference will be given to students admitted to the program. Guest student status does not guarantee future admission into the program nor does it guarantee that the credits will apply toward the master’s degree. Please request the SAU guest application form from the program office.

Misdemeanor and Felony Disclosure

Due to state employment and reporting regulations, applicants must answer questions regarding past or pending misdemeanors or felonies as an adult or juvenile to assist graduate education students in complying with state employment and reporting regulations. Falsification of information will be considered fraud and grounds for denial of admission to or for revoking prior admission to the University.

Students should understand that depending on their legal status, their ability to be admitted to practicum or internship experiences, licensed by certain state agencies or employed in certain capacities may be at risk. Spring Arbor reserves the right to deny admission to or dismiss current students who have been convicted of a felony, certain other misdemeanors or who have been required to register with certain databases such as those pertaining to sex offenses or child abuse and neglect.

Background Check

MAC students are required to complete a background check. See the MAC Student Handbook for specific information.

POLICIES

Expectations of a MAC Student

- Demonstrates professional ethics and personal integrity;
- Actively contributes to the learning environment of the class;
- Takes ownership for his/her own educational experience;
- Remains open to self-awareness, personal reflection, personal and professional growth;
- Is receptive to feedback from other students, instructors, and site supervisor;
- Maintains a high level of respect for self and others as demonstrated by appropriate language, tone of voice, and attitude in verbal/written communication;
- Demonstrates appropriate interpersonal interactions with site personnel, instructors, fellow students, clients, supervisor, and colleagues at clinical site;
- Refrains from the use of substances – does not come to class or clinical site under the influence of drugs or alcohol;
- Handles conflict in an appropriate manner;
- Takes responsibility for his/her own thoughts, actions, and words;
- Values the client/student from a holistic perspective – mind, body, spirit;
- Shows effective communication skills – listening, speaking, writing;
- Manages the inherent stress of the program and demonstrates positive self care; and
- Values content of learning more than a grade point average
Course Attendance
Attendance is required and considered an important aspect of student assessment in the course content and in the personal and small group relationships facilitated in the class sessions. The learning that occurs during class interactions cannot be fully realized through make-up assignments. Absence, arriving late, and/or leaving early can adversely affect the final grade. See the MAC Student Handbook for more information.

Professional Standards
A career as a Professional Counselor requires the individual to possess personal and professional qualities that are reflected in personality, behavior, knowledge, and skills. It is our ethical responsibility to assure that our students in the MAC program possess the desired competencies necessary to provide quality services to future clients. Due to the clinical nature of this program, the professional competencies are considered academic standards. The instrument used to assess these competencies is the Professional Competencies Profile (PCP), which will be completed in designated courses and by an instructor or staff member at any time to document concern(s) regarding a student.

Students must meet the acceptable level of professional behavior as outlined in the PCP. In addition, students must display academic integrity, meet ethical standards of the counseling profession, and abide by University expectations. Any unacceptable PCP rating (below 2.0) or violation of the aforementioned standards will be brought to the attention of Director of the MAC Program. Intervention will be dependent on the nature and/or frequency of the infraction and may include (but not limited to) requiring academic remediation, personal counseling, academic probation, postponement of the clinical experience, or dismissal from the MAC program. Refer to the MAC Student Handbook for more information.

Eligibility for Clinical Experience
Consistent with ethical standards for counselor education programs, faculty take seriously the responsibility to place students in clinical settings who have consistently demonstrated the personal and professional qualities necessary to be effective with clients. Each student must make application to begin the clinical component of the counseling program (CNS 658 and CNS 680). Approval to begin the clinical experience is based on a comprehensive review of the student’s academic performance, attendance, evaluations on the PCP, and a background check. Refer to the MAC Student Handbook and the MAC Student Clinical Manual for more information.

Transfer Credits
A maximum of 9 semester hours of graduate credit may be accepted from other regionally accredited institutions. The content of the course must directly relate to counseling. Only credits with a minimal grade of “B” (3.0) or higher will be accepted.

Graduation Requirements
- Successful completion of the 60 credit-hour program, including a 100-hour practicum and a 600-hour internship
- A 3.0 minimum cumulative GPA
- Demonstration of professional competencies as assessed on the PCP
- Completion of the Counselor Preparation Comprehension Examination (CPCE)

Endorsement Policy
Graduation from the MAC program does not guarantee recommendation for licensure or employment. Endorsement for licensure and/or employment will be based on academic performance of counseling knowledge and skills, demonstration of professional competencies, and display of personal integrity. Endorsement will be withheld for any student who has acted in a way that suggests that s/he may pose a threat to the well-being of future clients or the counseling profession.

Comprehensive Practice Counselor Exam
Each student is required to take the Comprehensive Practice Counselor Exam (CPCE). A student is required to take this comprehensive exam in order to successfully complete the requirements for the Master of Arts in Counseling program. This test serves as an excellent practice test for the National Counselor Exam. Students receive subject area scores as well as a composite score, indicating which subject areas require additional study.

National Counselor Exam
Upon completion of the MAC program students are encouraged to complete the National Counselor Exam (NCE) as soon as possible. Spring Arbor University is an authorized test site for our students. As such, the NCE is offered (at our main campus only but open to all MAC graduating students) on the Saturday closest to April 15th and the Saturday closest to October 15th. Students have the opportunity to make application for the NCE in December prior to his/her graduation for the April test date and in May for the October test date. Students who choose not to take the NCE through Spring Arbor University must wait until they have graduated to take the exam, and will make application for the same through the State of Michigan. The application form is included in the license application packet through the State of Michigan.
CURRICULUM

The required 60 credit courses for both Clinical Mental Health and School Counseling tracks are:

CNS 603 Introduction to Counseling: The Counselor and Diversity (3)
This course introduces graduate students to the field of counseling. Students will begin to develop a professional identity as a counselor by obtaining an overview of the history of the profession; current roles, functions, and practices of the counselor; basics of entry into the profession; and skills necessary to advocate both for the profession and for diverse clients. Students will also engage in self-exploration to better understand their values as they relate to the counseling profession and diversity issues.

CNS 611 Legal Issues and Ethics in Counseling (3) (online)
The emphasis of this course will be on the major legal and ethical issues in the field of counseling including familiarization with the ethical principles of relevant professional organizations. Case studies will be used to highlight current legal and ethical areas such as confidentiality, dual relationships, testing, and multicultural competence.

CNS 605 Research in Counseling (3)
This course provides an overview of basic statistics and research designs/techniques utilized in the field of counseling. Primary emphasis will be on analyzing and interpreting research. Students will also be expected to develop and submit a research proposal.

CNS 621 Counseling Theory in Multi-Cultural Contexts (3)
This course will detail the rationale, background, and research that underlie selected theories of counseling. Emphasis is placed on the implication of each theory for counseling practice. Students will develop a theoretical basis for their own counseling practice.

CNS 622 Counseling Techniques in Multi-Cultural Settings (3)
This course will focus on developing basic counseling skills and techniques. Special attention will be given to various topics relevant to the counseling setting, including gender, age, culture, and ethnicity. Videotaping of simulated counseling sessions will be used to provide specific feedback to students. Prerequisite: CNS 621

CNS 636 Assessment and Testing (3)
This course will help students to develop skills in using qualitative and quantitative assessment methods. The course will also involve training in administering, scoring, and interpreting standardized tests.

CNS 645 Developmental Issues in Counseling (3) (online)
This course emphasizes counseling implications for assessing and enhancing human development across the life span. Particular focus will be on theories of human development and the predictable stages and tasks at various points in the developmental process.

CNS 672 Clinical Psychopathology (3)
This course emphasizes current models of abnormality, assessment of mental disorders using the DSM-5 classification system, and treatment approaches for various disorders. Prerequisite: Abnormal Psychology.

CNS 664 Career Counseling (3)
This course emphasizes career development theory and its application to counseling, including identifying possible resources related to career choice and exploring the career needs and concerns of clients from differing cultural backgrounds.

CNS 641 Group Process and Counseling (3)
This course focuses on learning group process and skill development in leading group counseling sessions. Practical experience as a group member will also be involved. Prerequisite: CNS 621 and CNS 622.

CNS 614 Crisis Intervention (3)
This course introduces graduate students to the history, theory, and practices of crisis intervention. The course is an overview of the basic skills needed to respond to various crises as a helping professional. The course will train students in mental health and school counseling programs to gain a functional knowledge and basic skills relevant to crisis intervention. Students will learn techniques to use in response to crisis involving child abuse, suicide, homicide, sexual assault, domestic violence, psychiatric issues, substance abuse, and school related issues. The students will also learn how to access and refer individuals to community resources to assist in crisis. The ethical issues for counselors regarding crisis intervention will also be examined.

CNS 615 Addictions (3)
This is a course that will provide students with a basic overview of the process of treatment and addictions. Students taking this course will develop a theoretical knowledge and practical skills regarding the diagnosis and treatment of addictions.

CNS 654 Conceptualization and Treatment in Counseling (3)
Students will bring together the knowledge and skills learned in previous coursework. Emphasis will be placed on conducting diagnostic interviews, developing case conceptualizations, writing intake summaries, and developing treatment plans. Students must demonstrate competencies in the basic
counseling skills. The role of supervision is also discussed. This course prepares student for the clinical experience. Prerequisites: All courses in the core curriculum with the exception of CNS 606, CNS 607, and CNS 623.

CNS 613 Social and Cultural Diversity (3)
This course is designed to engage students in the multi-faceted dimensions of working with diverse clients. Through various teaching methods and experiential activities, this course will establish a foundation for building multicultural counseling competence in counseling students.

CNS 658 Practicum in Counseling (3)
This course emphasizes practical application of counseling principles. Counseling experiences are provided in a clinical setting providing the opportunity for students to apply previously acquired knowledge and skills. A total of 100 hours is required with a minimum of 40 hours direct client contact. A student must file application and receive approval to begin the clinical experience. Prerequisites: All courses in the core curriculum with the exception of CNS 606, CNS 607, and CNS 623. For School track students, CNS 673 and CNS 683 are also required.

CNS 680 Internship (3) and (3)
This is an intensive, 300-hour, field-based experience in which students will apply counseling knowledge and professional competencies in an approved setting. Possible internship sites include schools, colleges, and community agencies. With the exception of students seeking Ohio licensure, internship placements must be completed in the State of Michigan. During the second semester of Internship, each student is required to take the Counselor Preparation Comprehensive Examination (CPCE) as scheduled during this course. This comprehensive exam is needed to complete course requirements and serves as an excellent practice test for the NCE. This is a repeatable course. A student must complete this course two times for a total of 600 hours and 6 credits. Prerequisite: CNS 658.

CNS 668 Consulting in the Helping Professions (2)
Course content emphasizes the process of consultation with a primary focus on methods and strategies commonly used in both agencies and schools.

CNS 606 Advanced Clinical Psychopathology and Abnormal Behavior (3)
This course will provide students with an in depth examination of the various classes of disorders as outlined in the DSM-5. Emphasis will be given to the identification, etiology, and current best practices treatment of these disorders. Case studies will be used to investigate the developmental issues in abnormal behavior across the life span. Consideration will also be given to how this developmental perspective is applied to counseling practice. A thorough knowledge of the DSM-5 is expected.

CNS607 Evaluation of Psychopathology (2)
This course will focus on the administration, scoring and interpretation of personality and psychopathology assessment tools with a primary focus on the MMPI-2. Students will be introduced to the concept of personality and psychopathology assessment for purposes of diagnosis and treatment planning using objective assessment.

CNS 678 Capstone in Christian Counseling (2)
This course will focus on integrating a Christian perspective into one's counseling practice. It consists of two one-day seminars, the first in April of the first year of the program and the second in September of the second year of the program.

SCHOOL COUNSELING TRACK
Students in this track are required to complete the 60-credit counseling core, CNS 673, and CNS 683. These credits will fulfill the elective requirement for completion of the degree. Students without a teaching certificate are required to take CNS 643. This course should be taken in the spring of the first year of the program. A student may petition to waive this course if s/he possesses or has possessed a teaching certificate. If a prerequisite is waived, credit is not earned. This course is a prerequisite for this track only. Refer to the MAC Student Handbook for more information.

A passing score on the Michigan Test for Teacher Certification (MTTC) is also required for licensure or certification as a school guidance counselor. When coursework is completed and a minimum of 300 hours of internship are completed, the student will be required to take the MTTC #51. When the exam is successfully completed, the student must apply to the Michigan Department of Education for the license/certification. The Certification Officer in the School of Education will be available to assist with this process.

CNS 643 Introduction to Classroom Dynamics (3)
This course is designed as a prerequisite for non-teachers to the school counseling track. Students study classroom dynamics such as teacher responsibilities, effective teaching strategies, classroom management practices, learning theories, and unit planning. Legislative and reform movement influences on K-12 education are explored, as are the influences of educational theorists and movements. Students observe in K-12 classroom/school settings for a minimum of 12 hours. Due to the strong educational focus of this course it is a prerequisite for the school counseling track only. Students with a teaching certificate may petition to waive this course.
CNS 673 Development and Administration of School Counseling Programs (3)
This course investigates the systematic development and administration of K-12 comprehensive guidance programs. Knowledge and skill competencies emphasized will include the understanding and application of program development, implementation, and evaluation. The role and responsibility of the school counselor is explored within the context of the Michigan Comprehensive Guidance and Counseling Program and the ASCA National Model. Ethical and legal responsibilities within these frameworks will also be examined. Prerequisites: CNS 603, 611, 621 622, and 643.

CNS 683 Mental Health Within the Schools (3)
Students in this course will investigate methodologies used by the school counselor in dealing effectively with elementary and secondary school students whose physical, social, mental, or emotional needs preclude academic achievement. Knowledge and skill competencies emphasized will include early detection, intervention, and referral strategies appropriate for dealing with special populations within the school setting. Relational dynamics among parent, teacher, and agency resources are examined to encourage placement of proactive measures within the system. Prerequisites: CNS 603, 611, 621, 622, 672, 641 and 673.

School Counseling Clinical Experience
Students are required to complete their practicum and internship in a traditional K-12 school setting during normal school hours of the traditional school year. Students may spend a maximum of 100 secondary hours at an alternative high school setting. Because students will be receiving a K-12 license, students must complete hours in two of three school sites (elementary school, middle school, and high school). Refer to the MAC Student Handbook and the Master of Arts in Counseling Student Clinical Manual: School Counseling for more information. CNS 673 and CNS 683 are prerequisites for admission to school track clinical experience.

MASTER OF ARTS IN FAMILY STUDIES

PROGRAM DESCRIPTION

The Master of Arts in Family Studies (MAFS) is an interdisciplinary degree, requiring successful completion of 36 credit hours. The program combines academic instruction with applied program development, to prepare students for careers involving non-therapeutic intervention strategies with families and individuals. The MAFS is designed to be completed by a cohort group that begins and ends coursework together. This group format is intended to facilitate learning and provide support for all members of the group.

Theoretical and conceptual family life foundations are studied in an environment that embraces Christ as the center of learning and emphasizes the strengths and potential of all families. Taught from a Christian perspective, the curriculum covers such topics as family studies methodologies, human development, human sexuality, research methods, cultural issues, ethics, parenting, group dynamics, and public policy. Each student will research, develop and implement a non-therapeutic family intervention program as a culmination of their studies in the MAFS program.

The Master of Arts in Family Studies program has Approved Program status through the National Council on Family Relations. Students who successfully complete all program requirements are eligible to receive the designation of Certified Family Life Educator (application required).

ADMISSIONS

Requirements for Admissions

- A bachelor’s degree from a regionally accredited college or university;
- A 3.0 GPA for at least the last two years of the bachelor’s degree;
- An official transcript from all previous institutions attended;
- At least two recommendations from professional individuals;
- Demonstrated competency in a writing sample;
- Completion of an online computer skills/knowledge assessment;
- A letter of purpose in pursuing the degree;
- A photo ID; and
- A completed application.

While a degree in family life education, sociology, or psychology may be helpful as preparation for this degree, applicants from other disciplines are encouraged to apply. Acceptance into MAFS does not guarantee graduation. Because extensive writing is required in the program, proficient writing skills and computer competency are required for successful completion of the program.

Please see www.arbor.edu for more information.
Non-Degree Seeking Students
Applicants desiring to take classes, but who are not seeking a degree may apply for a maximum of six credits. Granted permission, this allows applicants to experience graduate-level course work and may transfer credit to another program. Because of class size restrictions, preference will be given to students admitted to the program. Non-degree status does not guarantee future admission into the program nor does it guarantee that the credits will apply toward the MA degree. Please request an application form from the program office.

Guest Students
Applicants who are currently enrolled at another institution may enroll as a guest student for up to six credit hours to transfer to their home institution. Because of class size restrictions, preference will be given to students admitted to the program. Guest student status does not guarantee future admission into the program nor does it guarantee that the credits will apply toward the master’s degree. Please request the SAU guest application form from the program office.

Class Calendar
The regional center develops a calendar of class nights for each cohort. The program is in session year-round with the academic calendar divided into two six-month semesters. Students are responsible for checking the beginning dates of individual classes or cohort. Students may complete the degree in approximately two years, if each course is taken as offered.

Policies
Course Attendance
Attendance is a prerequisite for success in course work and the personal and small group relationships that occur in the class sessions. Attendance is expected at all classes. Missing class, arriving late and/or leaving early can adversely affect the student’s final grade. See the MAFS Student Handbook for more information.

Electives
All courses in the MAFS program are considered “core courses.” No electives are required to complete the MAFS program.

Curriculum
Required for graduation: 36 semester credit hours

Required Courses

FST 526 Changing Families (2)
Bronfenbrenner’s ecological theory will provide the theoretical framework that guides student inquiry as to how families have changed throughout time and the role technology has played in that change. Students will discover the socioeconomic forces that influenced families throughout the history of the U.S. A model will be presented to guide readings and discussions regarding specific areas of family life that have been, and continue to be, influenced by similar socioeconomic forces. Student exploration will also include consideration of how technology has impacted families, communities, and culture. Students will be encouraged to focus on how families have embraced, adapted to, used, transformed, and applied technology for their survival and sustenance. The Framework for Life Span Family Life Education will guide student inquiry.

FST 602 Human Development Across the Life Span (3)
Students will explore a multifaceted approach to human growth and development that spans the lifetime from conception to death. The focus of readings and discussions will be on factors and processes influencing normal development, however students will also discuss how families adjust to developmental delays, disabilities, and loss at any stage of the life cycle. Multiple theories of development will be considered, along with an exploration of current research and classic literature on the human lifespan. The goal of this course is to deepen students’ understanding of human development and to equip students to apply new knowledge in program development and family life education efforts.

FST 612/613 Family Studies Methodologies I and II (2, 2)
Students will learn the nature of family studies, its history as a field of formal study, and the future of family studies and family life education. The learning needs of students of various ages will be discussed, but adult students will be the primary focus of the course. Students will become familiar with Bloom’s taxonomy. Students will also consider the effects of learning style and Gardner’s theory of multiple intelligences in the delivery of family life education interventions.

FST 624 Human Sexuality (2)
Students will consider topics of sexuality that include sexuality throughout the life span, communicating about sexuality, responsible sexual behavior, and varying societal beliefs about sexuality.
FST 633 Family Resource Management (2)
Students will learn the systems concepts of space, time, and energy. They will discover how these process elements are utilized in family decision-making and management of family resources.

FST 637 Group Dynamics (2)
Students will learn elements of group process in such situations as focus groups, formal educational settings, nonformal educational settings, and discussion groups. Implications for professional practice for the family life educator will be emphasized.

FST 643 Cultural Issues in Family Life (3)
Affective and instrumental functions of families across the life span in different cultures will be examined. Topics include: the importance of routines, rituals, and traditions to families of different cultures; family forms in different cultures; and the influence of the ecology on families in different cultures.

FST 645 Parenting in Context (2)
Students will explore the interactional and multidimensional contexts that impinge on the mothering and fathering roles. Students will explore how the characteristics of parents affect child development and outcomes, how the characteristics of the child influence parents, and how the contextual issues such as marriage, work, community/neighborhood, and socioeconomics impact both parenting and child outcomes.

FST 647 Christian Perspectives in Family Studies (1)
This course will review literature about Christian perspectives on family studies and enable the student to effectively develop authentic and sensitive methods for integrating faith issues with instruction and intervention with family issues.

FST 654 Research Methods (3)
Methods of problem definition, research design and analysis of issues in families will form the basis of study.

FST 652 Marriage, Divorce, and Remarriage (2)
Intimacy, love, and romance will be some of the issues discussed as they relate to the development of intimate relationships. Dissolution of intimate relationships and the reestablishment of intimate relationships will be considered. Educational interventions in intimate relationships for the family life educator will be emphasized.

FST 663 Mental Illness and Families (3)
This course provides the theory and research on dynamics of mental illness and its impact on families. Focus is on preparing family life professionals to help families with individuals with mental illness to understand how the illness affects the family.

FST 664 Ethics in Family Life Education (2)
Ethics and laws affecting the professional family life educator will be examined. Focus will be on developing a professional identity, including establishing and maintaining a consulting service.

FST 668 Public Policy and the Family Professional (2)
Students will explore the role of the family professional in understanding, evaluating, and influencing public policy from a family perspective. Specifically, they will learn the rationale for family policy work, learn to analyze current policy using a family perspective, and explore strategies for being involved in family policy making.

FST 680 Family Studies Program Project (3)
Students will develop and present a family life education program that includes a thorough literature review. The program project will require a minimum of 300 hours of development and presentation time. A program notebook of professional quality will be the final product. Students work on this project throughout the entire program.

MISSION STATEMENT

To provide quality nursing education within a Christian liberal arts university that prepares the professional nurse to contribute service and leadership to diverse communities.

PROGRAM PURPOSE

The Master of Science in Nursing (MSN) program prepares students to further their professional career as an educator, administrator, or advanced nurse practitioner in adult/gerontology primary care. The graduate curriculum incorporates nursing specific knowledge with skills and knowledge from other disciplines in a manner that promotes excellence in service, a passion for nursing as a profession, and compassionate care. As a Christian liberal arts university, nursing is recognized as a calling.

NURSING PROGRAM GOALS

- Foster an environment that supports adult learners from diverse academic and practice backgrounds
- Expand the nursing program through planned growth
- Promote academic and professional excellence
- Assure innovative teaching/learning practices
- Promote competent, compassionate nursing care based on a Christian worldview
- Facilitate value-based behaviors
- Prepare students for critical participation in the health care arena

PROGRAM OUTCOMES

Upon successful completion of the program, students will demonstrate the following outcomes:

1. Christian perspective – Epitomize transformative Christian leadership, teaching, and care with a variety of constituents in diverse settings.
2. Metacognitive reasoning – Demonstrate metacognitive and reflective thought that promotes critical participation in the contemporary world.
3. Theory-based practice – Integrate relevant theories into outcome based practical applications.
4. Research – Engage in research activities that build and strengthen the health and well-being of individuals and communities.
**PROGRAM DESCRIPTION**

The MSN programs provide comprehensive academic instruction in an interactive online community. In addition to the online community of learners approach, students come together with faculty and fellow nurses in a 3-credit hour residency each academic year on the main campus in Spring Arbor, Michigan. The residency is designed to provide personalized learning opportunities that prepare students for successful online interaction and clinical or practicum experiences.

The MSN program requires 27 credit hours of core graduate nursing education that comprise the first 3 semesters. The MSN program offers three areas of specialization:

Master of Science in Nursing: Concentration in Education (MSN/Ed) – A 38-credit hour, two-year degree program that includes a 3-credit hour educational practicum in both traditional and distance teaching methodologies, as well as a 2-credit hour capstone project. The concentration prepares graduates for nurse educator roles in a school of nursing, in-service education, community health, and other nursing education roles. Courses focus on core nursing concepts, teaching and learning theories and principles, and practical application of curriculum design, assessment, and instruction using a variety of delivery approaches.

Master of Science in Nursing and Master of Business Administration (MSN/MBA) – A 60-credit, three year program that leads to a dual degree and includes a 3-credit hour MBA research project. The concentration prepares graduates for roles in nursing administration and other health care management roles.

Master of Science in Nursing, Adult-Gerontology Primary Care Nurse Practitioner (MSN/NP) – A 54-credit, two and a half year program designed for working nurses that includes 8-credit hours of clinical practice (2-credits = 125 clinical hours for a total of 500 clinical hours) in a preceptored format with a capstone project. The program prepares graduates to take the American Nurses Credentialing Center Nurses certification examinations as an Adult Geriatric Nurse Practitioner in Primary Care. (Note: Graduation does not guarantee certification).

**ADMISSION REQUIREMENTS**

Applicants are expected to complete all Spring Arbor University General Admission Requirements (see general admission portion of graduate catalog). The MSN specific program requirements are:

1. A BSN degree from a regionally accredited institution and nursing program (CCNE or NLN)
2. Official transcripts from all institutions of higher education attended
3. A 3.0 GPA calculated from the most recent 60 academic credits
4. An unrestricted, unencumbered RN license from the state or country in which the nurse practices (Note: License must remain current throughout program)
5. Two letters of recommendation (one from nursing professional; one either character or academic related)
6. Provide a 2-3 page Goal Statement
7. A conference call interview may be required at the discretion of the Admission Committee.

International students must meet the above criteria in addition to the following:

9. Official transcripts of all coursework completed outside the United States must be submitted to Spring Arbor University and an evaluation service for validation and equivalency of courses and/or degree. The evaluation services are offered through NACES http://naces.org/members.htm. Transcripts may be submitted to either 1) Foreign Educational Credential Services (FECS), www.aacrao.org, or 2) World Education Services (WES), www.wes.org. An official transcript of courses completed must be submitted to SAU in addition to the report completed by the recognized evaluation service.

10. SEVIS clearance
11. Tuition and fees must be paid in US currency

Program Specific Requirements

Courses or documented knowledge in the following areas:

- Research – Nursing related e.g. NUR 452 (SAU course)
- Statistics – 300 level or above

(Note: Proficiency exams or courses must be completed by the end of semester one)

Student Expectations

- Graduate nursing students are expected to:
- Adhere to all Spring Arbor University lifestyle distinctives while engaged in academic or clinical activities
- Demonstrate professional nursing behavior as prescribed by the American Nurses Association (ANA) Nursing: Scope & Standards of Practice; and ANA Code of Ethics
- Promote a learning environment for self and others that is conducive to
accomplishment of the Essentials of Master’s Education for Advanced Practice Nursing (AACN) and the Nursing Program Outcomes

- Actively engage in promoting a positive online community learning environment
- Demonstrate accountability and responsibility in the academic and practice arenas
- Meet the acceptable level of professional behavior as outlined in the Professional Competency Profile (PCP)
- Value and respect the contributions of others
- Take responsibility for being an autonomous, self-directed learner
- Communicate with colleagues and faculty in an effective manner that supports positive learning outcomes
- Display a caring, compassionate approach to all within the learning and practice environment

Practicum or Clinical Experience
Prior to the start of any clinical practice, or as required by an institutional setting, there must be proof of compliance with all agency or institutional requirements. It is the responsibility of the graduate registered nursing student to maintain currency of records. Requirements may include but are not limited to:

- Current unrestricted, unencumbered RN license in the state or country of practice
- Proof of professional nursing liability insurance coverage throughout the enrollment period (min. $1million/$3million)
- Criminal Background Check at the Federal or International level*
- CPR/BCLS certification as required, proof of TB testing, any required immunizations, vaccinations, HIPPA training, others as required

*The Joint Commission on Accreditation of Health Care Organizations (JCAHO) institutes regulations in order for hospitals, home health agencies, clinics, etc. to gain or maintain accreditation status. One of these regulations requires that “all persons who are involved in patient care activities, i.e., employees, volunteers, and students must have criminal background checks as well as other health care related checks”. Criminal background checks must be initiated by the student and completed prior to beginning any clinically related practicums. See general Graduate Catalog policy.

The student is responsible for all financial obligations and transportation related to the associated agency or institutional requirements; and must maintain current records in the Nursing Department. Noncompliance with any agency requirements may result in program delay or academic withdrawal.

Approval for commencing the practicum or clinical experience is based on a comprehensive review of academic performance, successful completion of all pre-requisite and core course requirements, positive performance on the Professional Competency Profile, and program approval by the Academic Advisor in conjunction with the Nursing Department. Refer to the Master of Science in Nursing Student Handbook for concentration specific guidelines.

CURRICULUM
All students in the MSN program complete the core course requirements over the first three semesters. The cohort curriculum design promotes engagement with students from various practice backgrounds along with integration of the three area concentrations in an interactive learning environment. The cohort design facilitates learning and provides support in an online learning environment. Core courses are taken sequentially.

Core Courses

Semester One
- NUR 601 - Context for Advanced Professional Nursing (residency) (3)
- NUR 510 - Moral & Ethical Decision Making (3)
- NUR 522 - Theoretical Perspectives for Advanced Practice (3)

Semester Two
- NUR 532 - Role Development & Leadership (3)
- NUR 551 – Applied Research Methods (3)
- NUR 612 - Advanced Pathophysiology (3)

Semester Three
- NUR 602- Advanced History & Physical Exam (residency) (3)
- NUR 618- Advanced Pharmacology (3)
- NUR 683- Health Policy & Politics (3)

Concentration Courses

Master of Science in Nursing/Master of Business Administration
The MSN/MBA students enter the School of Business the second semester of their second year.

Master of Science in Nursing: Concentration in Education

Semester Four
- NUR 625 – Educational Theory & Curriculum Design (3)
- NUR 635 – Instructional Strategies (3)
- NUR 650 - Education Practicum for Adult Learners (3)
- NUR 690 - Capstone Project (2)
Master of Science in Nursing/Adult-Gerontology Nurse Practitioner in Primary Care

Semester Three
NUR 680 Clinical Practicum (2)*

Semester Four
NUR 632 Health Promotion & Disease Prevention (3)
NUR 685 Advanced Practice in Primary Care I (3)
NUR 686 Advanced Practice in Primary Care II (3)
NUR 680 Clinical Practicum (2)

Semester Five
NUR 603 Diagnostic Reasoning & Advanced Assessment (residency) (3)
NUR 642 Chronic Disease & Complex Problems in Older Adults (3)
NUR 693 Vulnerable Populations (3)
NUR 680 Clinical Practicum (2)

Semester Six
NUR 680 Clinical Practicum (2)
NUR 681 Capstone Project (1)

*NUR 680 Clinical Practicum (2 credits = 110-125 hours, max. 8 cr.) A minimum of 500 preceptored clinical practice hours are required for graduation and certification eligibility. Students may re-register as needed to complete clinical hours. Maximum of 8-credit hours granted.

The Nursing Department reserves the right to change curriculum requirements based on professional or accreditation recommendations.

Progression of Studies
All students must meet the following criteria to complete the nursing program.

- Maintain a 3.0 cumulative GPA.
- A minimum letter grade of B- is required as a passing grade for all NUR courses. A grade of C+ or below is considered unsatisfactory for NUR courses and does not count towards the MSN degree. If a student receives a grade of C+ or lower in a nursing course, it must be repeated. Students in the MSN/MBA program should consult the MBA handbook regarding MBA courses.
- Courses may be repeated one time. However, an accumulation of two letter grades less than B- in the same course results in dismissal from the program.
- Because clinical experience is an essential component of nursing education, a student must complete all clinical requirements in a satisfactory manner to receive a passing grade for the program.

- If a student receives a letter grade of less than B- in a clinical course, it may be repeated once. However an accumulation of two course grades less than B- in clinical nursing courses, or a combination of one classroom course and one clinical course will result in dismissal from the program.
- Any student who temporarily leaves the nursing program must meet requirements of the catalog at the time of re-admission.

Throughout the MSN program, required courses have been identified by the faculty as evaluative points in program progression. The following *core courses must be completed with a grade of B- or higher in order to progress to the next course in the program:

All Residency courses - NUR 601, 602 and 603.
NUR 522 Theoretical Perspectives (end of semester one)
NUR 551 Applied Statistical Research

Within the MSN/ED concentration:
NUR625 Andragogical Curriculum Design and Assessment (semester three)
NUR 650 Educational Practicum for Adult Learners (semester three)
NUR 690 Thesis/Practicum Project (semester four)

Within the MSN/NP concentration:
NUR 612 Advanced Pathophysiology (semester two)
NUR 618 Advanced Pharmacology (semester three)
NUR 680 Clinical
NUR 681 Capstone Project

Due to the academic and professional behaviors required of advanced professional nurses, the expectation is for all students to receive a level two or higher score in all areas of the Professional Competencies Profile. A score less than a level two in any category may result in a student being placed on probation, require remediation, or prevent them from entering the MSN/ED or MSN/NP concentration area. The second time a student receives a score less than a level two or there is a serious violation of the nursing standards or Code of Ethics, a student may be dismissed from the program. A student may request a review by the Director of Nursing or designee and has the right to appeal the decision.
CURRICULUM COURSE DESCRIPTIONS

CORE Courses
The first course, August and February is a campus residency for MSN students.

NUR 601 Context for Advanced Professional Nursing (campus residency/orientation) (3 cr.)
This course introduces students to the online environment and expectations. It also provides an overview of the core masters courses, writing, accountability, and communication skills. Students initiate collaboration between colleagues, faculty, and staff.

NUR 510 Moral and Ethical Decision Making (3 cr.)
This course provides a meta-cognitive foundational approach to advanced nursing practice in the contemporary world. It explores worldview presuppositions, with an emphasis on a Christian perspective and development of a consistent, conscious framework for making ethical choices.

NUR 522 Theoretical Perspectives for Advanced Practice (3 cr.)
This course promotes examination, analysis, and synthesis of a variety of conceptual frameworks, models, and theories that provide a foundation for research and applied practice in nursing. Philosophical ideation, beliefs, scope, and assumptions of select theories and models will be explored.

NUR 532 Role Development and Leadership (3 cr.)
The focus is on understanding the professional role of the advanced professional nurse. The processes associated with role development, socialization, and effective collaboration with diverse interdisciplinary partnerships will be examined. Practical leadership roles will be identified and interpreted in a nursing practice context.

NUR 551 Applied Research Methods (3 cr.)
This course focuses on the significance of research to the development of a profession and the practical application of statistics to evidence based outcomes. Emphasis will be placed on data collection, analysis, and interpretation of clinical research in designing an evidence based project, preparing the student to use translational science in clinical decision making to improve patient outcomes. Specific aspects of the research process, quantitative and qualitative research, and systematic reviews will be studied.

NUR 612 Advanced Pathophysiology (3 cr.)
This course provides advanced knowledge and clinical application of normal and pathophysiologic mechanisms related to altered health status and disease processes.

NUR 602 Advanced History and Physical Exam (3 cr.)
The course focuses on advanced health/physical assessment of the client where the client is defined as the individual and includes the individual's context within the family and/or community. The course also emphasizes comprehensive history, physical/psychological assessment, pathophysiology, and health promotion needs assessment.

NUR 618 Advanced Pharmacology (3 cr.)
This course will provide the masters prepared nurse with the knowledge and skills necessary to assess and integrate pharmacologic agents, alternatives to pharmacological interventions, and therapeutic modalities in the advanced practice of nursing.

NUR 683 Health Policy and Politics (3 cr.)
The focus is on knowledge of professional responsibility to support policy issues associated with humane health care that promotes dignity, respect, and justice. Practical skills such as working with legislators, program and service evaluation, advocating for the health care needs of vulnerable populations will be addressed.

MSN/Education Concentration Curriculum

NUR 625 Educational Theory and Curriculum Design (3 cr.)
This course utilizes learning theories to design a teaching/learning project. Strategic planning steps such as needs assessment, behavioral objectives, instructional design, and delivery for non-traditional learners will be explored.

NUR 635 Instructional Strategies (3 cr.)
Students will delve into the selection and application of instructional strategies for traditional and online learning environments. A variety of approaches for learning experiences in higher education, professional/staff development, and community programs for individuals or groups will be used.

NUR 650 Education Practicum for Adult Learners (3 cr.)
The practicum provides individually supervised field experience in online and traditional settings that integrates adult learning theory with practical teaching situations.

NUR 690 Capstone Project (2 cr.)
Individually designed teaching/learning capstone project. Students may elect to complete a thesis and register for additional credit as needed to complete.
MSN/Adult-Gerontology Nurse Practitioner in Primary Care Curriculum

NUR 632 Health Promotion and Disease Prevention (3 cr.)
This course is designed to prepare the student to apply evidence-based principles of wellness, disease prevention, and health risk in individuals, families, communities, and aggregate/clinical populations. Diversity is examined relative to social and communication patterns, roles, and value/beliefs underlying health-illness behaviors.

NUR 685 Advanced Practice in Primary Care I (3 cr.)
This course will present critical concepts the advanced practice nurse can use in delivering evidence-based nursing for the adult population. Using a holistic approach students will apply theory to practice.

NUR 686 Advanced Practice in Primary Care II (3 cr.)
This course prepares students with the skills to function as an advanced practice nurse in addressing chronic and complex alterations in health experienced by the older adult. Gerontology concepts will be applied in meeting the biological, psychosocial, mental, and spiritual needs of the older adult. Students will combine history taking, physical examination techniques, and diagnostic interpretation with problem-solving and clinical strategies.

NUR 603 Diagnostic Reasoning and Advanced Assessment
(campus residency) (3 cr.)
This laboratory based course uses critical thinking and clinical reasoning skills to perform comprehensive and holistic health assessments in preparation for the advanced practice nurse role. There will be opportunity for students to practice application of theories and skills necessary to perform a comprehensive health history and examination with expansion on screening and diagnostic reasoning.

NUR 642 Chronic Disease and Complex Problems in Older Adults
(3 cr.)
The focus of this course is on management of chronic disease and complex care needs of older adults. Emphasis will be on case management and interdisciplinary collaboration to arrange and evaluate care for the most health-compromised clients.

NUR 693 Vulnerable Populations (3 cr.)
The focus of this course is on integrating the learning from previous courses to design treatment and evaluate outcomes for the most vulnerable groups, particularly the systems of care that manage services for frail elderly, the chronically ill, and other similarly compromised patients.

NUR 680 Clinical Practicum (8 cr. = Minimum of 500 hours)
The clinical practicum is arranged with a local preceptor (either a certified NP or physician) with the approval of the program faculty. Students have regular contact with SAU clinical faculty, who also provide oversight of the preceptor led experience.

NUR 681 Capstone Project (1 cr.)
Students will examine the evidence base for resolving a current health problem, design and implement a project that applies the evidence-based treatment/solution, and evaluate the change that occurs in the target group. This project is not designed as a thesis but an application of concepts and learning throughout the graduate program.

MSN/MBA Dual Degree
See the Masters in Business Administration section of this catalog for course descriptions.

SCHOOL OF HUMAN SERVICES

MASTER OF SOCIAL WORK

MASTER OF SCIENCE IN NURSING
Welcome to the Master of Social Work (MSW) program. We are pleased to offer this new opportunity to pursue graduate studies in the context of Christian higher education. Social Work is a dynamic profession that takes on the challenge of promoting human and community protection and well-being. The professional practice opportunities include child welfare, individual psychotherapy, family and small group therapy, community organization, and public policy at the local, national, and international level.

We welcome your questions as you consider whether you are being called to serve people as an advanced practice social worker.

Bonnie Holiday, Social Work Department Chair

ACCREDITATION

The MSW program is currently in candidacy with the Council on Social Work Education (CSWE) for full accreditation for the Master of Social Work program which is expected to be granted in October 2015.

MISSION AND GOALS

Program Mission Statement

The mission of the MSW program in the Department of Social Work at Spring Arbor University is to produce professional social workers who apply the competencies of the social work profession and advanced practice knowledge and skills to promote human and community protection and well-being. Teaching and learning in the MSW is guided by the professional code of ethics, the integration of faith and learning, knowledge based on research, an understanding of humans from a global, environmental and cultural perspective, and a dedication to social and economic justice, protection, empowerment, human and universal rights, and enhancement of individual and social development.

The goals of the MSW Program are:

1. To prepare MSW graduates to practice at the highest professional level of practice informed by theoretical perspectives and knowledge based on research.
2. To engage in teaching and learning guided by the social work competencies, the code of ethics and the integration of Christian values in their application to social work practice.
3. To provide graduate students with the foundation and advanced social work knowledge, skills, and values that will teach critical thinking needed for advanced social work practice.
4. To prepare graduates to promote human and community protection and well-being through respect for diversity, human and universal rights, and social and economic justice for populations at risk.

PROGRAM DESCRIPTION AND CONCENTRATIONS

The MSW is a 60 credit hour program that is offered in a two year full-time format. The first year is a foundation program and the second year is a concentration in micro or clinical social work practice. Applicants with an accredited Baccalaureate degree in social work can apply for advanced placement into the concentration year. The foundation year and the micro concentration year are being offered at several off-campus sites in the cohort model of weekly evening classes. There are concurrent field practicum placements for both years in appropriate agencies.
Licensure
Graduates with the MSW degree are eligible to apply for licensure in the State of Michigan as a Licensed Master Social Worker (LMSW), Micro (Clinical). Detailed information regarding the application process, the two-years of supervision, and the licensing exams are available through the Department of Licensing and Regulation. Virtually all states have some form of licensing or regulation of social work practice and information can be obtained from the appropriate state agencies.

Admission Process

Admission Criteria
The Spring Arbor University (SAU) Master of Social Work (MSW) admission criteria are divided into four sections: academic preparation, completion of the prerequisites, personal qualities, and professional readiness.

Academic preparation
Each applicant will submit official transcripts from all previously attended colleges and universities in which baccalaureate coursework was taken. In order to be considered for admission to the two-year 60-credit program or the advanced standing 30-credit program, applicants must have earned a bachelor’s degree from a college or university that is accredited by a recognized regional or national accrediting association in the United States or proof of equivalent education at an international institution of higher learning. In addition, they need to have earned a Grade Point Average (GPA) of at least 3.0 (on a 4 point scale) during the last 60 completed credit hours. Applicants with a GPA less than 3.0 may be considered for probationary acceptance on an individual basis.

Official Transcript and Evaluation of Coursework
Official documents of all coursework completed outside the United States and Canada (except at schools with an American-based curriculum) must be submitted to a recognized evaluation service for validation and equivalency of courses and/or degree. We recommend World Education Services (WES) at www.wes.org. Using the WES ICAP option will allow WES to mail Spring Arbor the evaluation as well as an official copy of each transcript. If transcript(s) have already been authenticated and evaluated by another evaluation service within the U.S., please contact our Admissions Office to determine if that service is acceptable.

Completion of the prerequisites
The transcripts submitted by students are used to evaluate their completion of the following courses:

- Introduction to Psychology
- Introduction to Sociology
- Statistics
- Political Science (State and Local or National Government)
- Economics (Introductory, Micro, or Macro Economics)
- Human Biology

Personal qualities
When the criteria for academic preparation are met, the student's personal statement submitted with the application is evaluated for writing skills, personal characteristics and professional readiness for graduate study and advanced social work practice.

References
Using the Social Work MSW program’s form, applicants are required to submit three strong professional references who can attest to the applicant’s ability in the following: intellectual competence, potential for academic success, the ability to work with people around sensitive issues including people from a range of diverse backgrounds, possession of critical thinking and communication skills, a demonstrated sense of ethics and values, and potential success as a professional social worker. If possible, two references should have direct knowledge of the applicant's academic work, and for applicants with a Bachelor of Social Work (BSW) degree it is strongly recommended that the field instructor be one of the references. References from family members or fellow students will not be accepted.

Personal Statement
Applicants are required to submit a personal statement (6-10 pages, double spaced, APA format) and include attention to each of the following:

- Motivation for pursuing MSW education, including relevant background experiences and professional goals.
- Discussion of learning and growth that has taken place through professional work and volunteer experiences.
- Expectations regarding attending a Christian university for the MSW program, and approach to faith integration in scholarship and service. Although no admissions requirements exist regarding faith orientation, Christian and other religious perspectives will be presented and discussed in classes.
- Discussion of a social problem of interest to you, including your perceptions of the causes of and potential solutions to the problem.
- Discussion of an ethical challenge you have encountered in professional, field, or volunteer work, and how you resolved it.
- Recognition that Social work is a challenging and stressful profession, and a discussion of how you set and maintain appropriate boundaries and handle stress in your life.
Professional readiness

Fitness for Professional Practice
Applicants will submit a self-statement that there is no pre-existing past or pending criminal record or mental impairment which would preclude licensure as a professional social worker. (Form provided)

Computer Skills and Access
Applicants will possess skill, or be willing to develop skill prior to the start of the first class, in the use of computers for word processing, research, communication tasks, and the SAU Blackboard system. In addition, they will have ready access to a computer with a camera and high speed internet access for online assignments. All computers will meet the minimum standards set by the SAU Office of Academic Technology (OAT). There is a computer readiness check available through the OAT connection.

Language Proficiency
For students whose native language is not English, an official copy of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) must be submitted. A minimum TOEFL test score of 550 (paper based), 213 (computer based) or 80 (Internet based) or a minimum IELTS test score of 6.5 is required for admission in order to ensure a student's ability to participate successfully in the SAU MSW program.

Criteria for Evaluating Applications
Applicants’ academic records, applications, personal statements, statements of fitness for professional practice, and references are evaluated on the basis of the following criteria:

- **Emotional stability** - Social work is not a field for individuals who desire to solve their own emotional needs or problems by working in a helping role. Individuals entering advanced social work practice need to maintain emotional stability and be able to cope with the emotional stress that is common in this demanding profession.

- **Self-confidence and assertiveness** - These characteristics are necessary in working with client systems, colleagues, professionals from other disciplines, and supervisors, especially in order to work actively as a case and cause advocate for the rights of clients.

- **Ability to accept constructive criticism** - As lifelong learners, individuals need to accept that there is room for improvement in their personal and professional behavior. Once individuals accept this need for improvement, they can constructively use the insights regarding their behavior provided by colleagues, supervisors, administrators, or governing boards and work towards change.

- **Interest in and motivation for the social work profession** - Social workers entering graduate study in their profession need to be motivated both as students and as professionals. This motivation and interest in the field should come from a strong desire to serve others in society, especially the poor in urban, rural, and other communities.

- **Intellectual ability** - Problem-solving and critical analysis skills are fundamental for effective social work practice. Complex individual, group, family, organization, and community problems require advanced practitioners to think clearly and logically in a systematic manner if problems are to be alleviated or resolved.

- **Communication skills** - Both oral and written communication skills are vital in the social work profession. Fluency in a foreign language is a definite asset in the profession.

- **Ability to form and maintain positive relationships** - Social work is a people-oriented profession, and relationship building is foundational to effective practice. There needs to be the capacity to empathize and establish effective interpersonal relationships with diverse client populations.

- **Ability to work with diverse groups** - Social workers need to be aware of their own prejudices and actively work to address these attitudes and actions using the feedback provided by client systems, colleagues, and supervisors. Advanced practitioners need to be able to work with diverse client populations in a non-judgmental manner, accepting individuals’ rights to differing perspectives.

- **Leadership qualities** - The ability to work effectively in a leadership role is necessary for advanced practitioners. Social workers assume positions of leadership with client systems as well as roles in agencies as supervisors, administrators, and consultants.

- **Social work values and ethics consistent with profession’s code of ethics** - Social workers can be influential upon client systems. Therefore, it is essential that advanced practitioners be of good moral character. Social workers should be aware of their own values and have respect for others’ values, which may be different. Their own values should have some consistency with the Judeo-Christian heritage and with the values reflected in the profession’s Code of Ethics.

If, after the review process described above, additional questions remain, then the Admissions Committee may request a personal interview that will be conducted in person or via Skype or conference call with one or more members of the committee or other faculty. The results of the interview will be considered as part of the overall admissions decision.
Additional Policies

Notification of Admission Decisions
The Social Work admissions committee is responsible for making the final decision regarding all applicants for admission to the SAU MSW program. The committee will be chaired by a member of the SAU Social Work faculty and will include at least two other members. The committee will adhere to all of the Spring Arbor University and the SAU Social Work Department policies regarding non-discrimination in all decisions.

Applicants will receive notification of the decision of the admissions committee once all admission requirements are met. The Committee recommends one of the following: full acceptance, probationary acceptance or non-acceptance.

Policy regarding previously mastered social work content:
In accordance with Council on Social Work Education (CSWE) policy, the SAU Social Work Program policy is that students with a CSWE accredited BSW degree will not be required to repeat any content that has been mastered in their BSW programs. Transcripts will be evaluated in light of this requirement.

Policy Regarding the Awarding of Advanced Standing

Advanced Standing Program Admission Criteria
To avoid duplication and redundancy for BSW graduates, the Program offers a one year (30 credit) Advanced Standing Program. In order to be considered for admission to the advanced standing program students must have been granted a baccalaureate degree in social work from an undergraduate social work program that was accredited, at the time the degree was granted, by the Council on Social Work Education, those programs recognized through its International Social Work Degree Recognition and Evaluation Service, or those programs covered under a memorandum of understanding with international social work accreditors.

To be eligible for advanced standing, the applicant must have a BSW that has been granted within five years of enrollment in the SAU MSW program. This five-year limit may be extended to eight years if the student has post BSW social work practice experience (such experience to be approved by the Admissions Committee). For each two years of acceptable practice experience, applicants may be granted credit of one year toward the extension of the time limit. For example, an applicant with a BSW received seven years prior to the time of enrollment in the MSW program may be granted advanced standing admission if he/she has completed four years of acceptable social work practice experience.

Transfer Credit
The Social Work Graduate Program Director may approve up to a maximum of nine graduate credits by transfer from another institution for inclusion into the MSW standard degree requirements. No credit will be given toward required MSW courses unless the following conditions apply:

- The courses were taken in a graduate institution whose MSW program is accredited by the Council on Social Work Education.
- A course description and syllabus is available and the Program Director determines the course to be an appropriate substitution for a specific course in the graduate program.

When the Program Director has advised the student concerning which courses are approved for transfer credit, the student prepares a letter of petition specifying how the courses will be applied to the degree plan. A petition for transfer of credit must fulfill the following conditions:

- The school from which the credits are transferred must be accredited by a regional accreditation agency.
- The work must have been done while the student was enrolled in good standing as a graduate student.
- The transferred course grade(s) must be a “B” (3.0) or better.
- None of the transfer coursework can consist of extension or workshop courses.
- An official transcript from the institution must be submitted to the program office with the initial application
- Transfer credits must be no more than six years old at the time of admission, but the program may allow exceptions, depending on the course.
- The Program Director has the discretion and the right to determine what is accepted and whether the course will substitute for a required course or elective credit.

After admission to a Spring Arbor University graduate program, students wishing to complete coursework at another college or university, with the expectation of that coursework being applied toward a Spring Arbor University degree, must seek written advance approval from the Program Director. All such coursework must be earned at a CSWE accredited institution.

This policy is clearly spelled out in the SAU Catalog and also in the MSW Handbook which are made available to prospective students. Recruiters and admissions personnel are informed of this policy and convey it to prospective students.
Policy regarding credit for life experience or previous work experience

In accordance with CSWE policy, it is the policy of the SAU Social Work Department to not grant social work course credit for life experience or previous work experience. Previous work experiences and relevant volunteer activities may be taken into consideration in a student’s application for admission to the MSW Program; however, no course credit will be awarded or accepted as fulfillment of any part of the MSW curriculum.

This policy is clearly stated in all descriptions of the MSW program whether in academic catalogs, recruitment materials, or other admissions related materials, in print, on line, or any other electronic form. Recruiters and admission personnel are informed of this policy and convey it to prospective students.

Minimum GPA
Applicants must have earned at least an overall GPA of 3.0 on a 4-point scale. An applicant with a GPA of less than 3.0 may be evaluated on an individual basis for provisional admission. Recommendations, personal statement, and personal interview must demonstrate readiness to begin at the advanced level of graduate education and advanced social work practice.

CURRICULUM
MSW Foundation Year

Foundation Courses (30 credit hours)

Term # 1 (15 credit hours)
SWK 510 Social Welfare Policy and Services (3)
SWK 512 Human Behavior in the Social Environment I (3)
SWK 513 Human Behavior in the Social Environment II (3)
SWK 518 Social and Cultural Diversity (2)
SWK 551 Foundation Field Practicum I (3)
SWK 581 Foundation Field Practicum Seminar I (1)

Term # 2 (15 credit hours)
SWK 520 Social Work Practice I – Individuals and Families (3)
SWK 521 Social Work Practice II – Groups, Communities, & Organizations (3)
SWK 525 Research in Social Work Practice (3)
SWK 528 Ethics and Christianity (2)
SWK 552 Foundation Field Practicum II (3)
SWK 582 Foundation Field Practicum Seminar II (1)

MSW Concentration Year

Micro Concentration Track Courses: Clinical Practice with Individuals, Families and Groups (30 credit hours)

Term # 1 (15 credit hours)
SWK 611 Psychopathology in Advanced Social Work Practice (3)
SWK 613 Advanced Multi-dimensional Assessment (3)
SWK 615 Advanced Micro Social Work Practice I (3)
SWK 617 Advanced Applied Social Policy (1)
SWK 651 Advanced Micro Field Practicum I (4)
SWK 681 Advanced Micro Field Practicum Seminar I (1)

Term # 2 (15 credit hours)
SWK 625 Advanced Micro Social Work Practice II (3)
SWK 623 Advanced Micro Social Work Theory (3)
SWK 621 Advanced Practice: Physical and Mental Health (3)
SWK 627 Advanced Applied Social Research (1)
SWK 652 Advanced Micro Field Practicum II (4)
SWK 682 Advanced Micro Field Practicum Seminar II (1)

COURSE DESCRIPTIONS

Foundation Year Semester One

SWK 510 Social Welfare Policy and Services (3)
This course is an introduction to the field of social work and the specific areas in which social workers practice. Knowledge will be gained of various practice settings, the history of social work and social welfare, social welfare policies, and the purposes and values that guide social work practice, and the social issues and vulnerable populations with which social work is concerned. Students begin to identify as a professional social worker through personal reflection and class activities.

SWK 512 Human Behavior in the Social Environment I (3)
This course gives the advanced level social work student the opportunity to increase their knowledge of human behavior across the life span. Students will develop competency in applying theories of biological, social, cultural psychological, and spiritual development, and what promotes or deters people from achieving health and well-being, to social work practice. They will develop competency to utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation. They will advance their understanding and learn to apply knowledge of person in environment and the impact of systems on individuals, families, groups, organizations, and communities. HBSE I is the first of two courses covering the entire life span.
HBSE I covers Pregnancy and Birth, Infancy and Childhood. HBSE II covers Adolescence, Young Adulthood, Middle Adulthood, and Later Adulthood.

SWK 513 Human Behavior in the Social Environment II (3)
This course gives the advanced level social work student the opportunity to increase their knowledge of human behavior across the life span. Students will develop competency in applying theories of biological, social, cultural, psychological, and spiritual development, and what promotes or deters people from achieving health and well-being, to social work practice. They will develop competency to utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation. They will advance their understanding and learn to apply knowledge of person in environment and the impact of systems on individuals, families, groups, organizations, and communities. HBSE I is the first of two courses covering the entire life span. HBSE I covers Pregnancy and Birth, Infancy and Childhood. HBSE II covers Adolescence, Young Adulthood, Middle Adulthood, and Later Adulthood.

SWK 518 Social and Cultural Diversity (2)
In this course students will gain competency in working with individuals, groups, families, communities, and organizations from diverse cultures. With the Spring Arbor University Concept providing the model for learning, students will gain competency in applying social work values to their work with vulnerable individuals, families, groups, communities, and organizations. In addition theoretical concepts of oppression and discrimination will be used to understand social work practice.

SWK 551 Foundation Field Practicum I (3)
Students will participate in a 200-hour advanced foundation level field practicum, split between two semesters, concurrently with course work to allow the direct application of theory to practice. Students will advance their knowledge of the profession and refine their skills in working with individuals, families, groups, communities, and organizations under the educational direction of social work professionals and university faculty. A minimum of 400 hours for SWK 551 and SWK 552 combined is required. Must be taken with SWK 581

SWK 581 Foundation Field Practicum Integrative Seminar I (1)
This seminar is designed to integrate the concepts, knowledge, and values learned in course work with agency experience. This will provide opportunities for students to share their unique learning experiences from the agency placement and to demonstrate their competencies through a series of integration assignments. Students achieve a beginning level of competency in applying theories and concepts learned in the classroom to the practical world of the practice setting. Must be taken with SWK 551

Foundation Year Semester Two

SWK 520 Social Work Practice I: Individuals and Families (3)
Students in Social Work Practice I will develop competency in applying theories of human behavior and the social environment to work with individuals and families. Assessment, goal-setting, intervention, termination, and practice evaluation are the focus of this course. Special attention is given to intervention with diverse and vulnerable populations. Case materials and role-playing will be used. Students will have the opportunity to apply the social work problem solving process to work with individuals and families.

SWK 521 Social Work Practice II: Groups, Communities, & Organizations (3)
Students in Social Work Practice II will build on learning from SWK 520 and develop advanced competency in applying theories of human behavior and the social environment to work with groups, communities, and organizations. Assessment, goal-setting, intervention, termination, and practice evaluation as it applies to work with groups, communities, and organizations are the focus of this course. Special attention is given to intervention with diverse and vulnerable populations with an emphasis on understanding how to engage in practices and advocate for human rights and social and economic justice. Theories of group work and the impact on vulnerable populations are covered. How to apply systems theory and the problem solving process to advance understanding of groups are emphasized in this course. This is the second half of SWK 520. The two are intended to be taken in sequence.

SWK 525 Research in Social Work Practice (3)
Students will use opportunities presented in their internship to build competency in using research to inform their practice. Using evidence based interventions, evaluating their own practice, and using research findings to improve practice, policy development, and social service delivery to individuals, families, groups, communities, and organizations is the focus of SWK 525 - Research in Social Work Practice. Social work values and theories will provide the lens used as students design a research study.

SWK 528 Ethics and Christianity (2)
The Spring Arbor University Concept and the National Association of Social Workers Code of Ethics provide the foundation for the study of ethics in social work practice. Students will gain competence in recognizing and managing their personal values in a way that allows professional values to guide their practice. They will gain the skills to tolerate ambiguity in resolving ethical conflicts and apply strategies of ethical reasoning to arrive at principled decisions and will explore personal spiritual formation topics.

SWK 552 Foundation Field Practicum II (3)
Students will participate in a 200-hour advanced foundation level field
Concentration of the practice setting. Must be taken with SWK 552 applying theories and concepts learned in the classroom to the practical world integration assignments. Students achieve a beginning level of competency in placement and to demonstrate their competencies through a series of for students to share their unique learning experiences from the agency learned in course work with agency experience. This will provide opportunities This seminar is designed to integrate the concepts, knowledge, and values SWK 551 and SWK 552 combined is required. Must be taken with SWK 582

**SWK 582 Foundation Field Practicum Integrative Seminar II (1)** This seminar is designed to integrate the concepts, knowledge, and values learned in course work with agency experience. This will provide opportunities for students to share their unique learning experiences from the agency placement and to demonstrate their competencies through a series of integration assignments. Students achieve a beginning level of competency in applying theories and concepts learned in the classroom to the practical world of the practice setting. Must be taken with SWK 552

**Concentration Year (Advanced Placement) Micro Semester One**

**SWK 611 Psychopathology in Advanced Social Work Practice (3)** This course provides an understanding of various kinds of disorders that social work clients in mental health and other settings may experience. It helps students to define the clinical entities, to explore their etiology and natural course, and to learn how to link diagnosis, assessment, and intervention. Emphasis is placed on concepts of labeling and stigmatization, and how to employ an empowerment approach with clients who suffer from these disorders. The complexity of the intersection between mental/emotional and physical selves is explored.

**SWK 613 Advanced Multi-Dimensional Assessment (Micro) (3)** This course is designed to provide students with differential assessment knowledge and skills suitable for use with advanced practice theories in settings where mental health and child and family services are offered. Using a multi-dimensional framework that works from a strengths-oriented systems framework, the course will provide skills related to the various aspects of assessment. In preparing students to work with persons needing interpersonal services, this course addresses a variety of issues related to assessment including diversity, the impact of discrimination/oppression, economic deprivation, and the role of values and ethics.

**SWK 615 Advanced Social Work Practice I (3)** Building on the foundation established in the foundation social work practice courses, this course introduces advanced theoretical frameworks for clinical practice from which students build conceptual practice frameworks. The course helps students choose and learn the components of a practice approach in the context of social assessment, agency auspices, and the student’s developing theoretical framework.

**SWK 617 Advanced Applied Social Policy (1)** In this seminar style course the student will apply the foundation knowledge of social policy to one or more social policy issues that are encountered in the field placement agency. Must be taken with SWK 651.

**SWK 651 Advanced Field Practicum I (4)** This course is the first part of the advanced practice supervised field experience. The purpose of the experience is to enable the student to apply advanced social work knowledge, values, and skills in a micro field setting in their concentration. A minimum of 500 hours for SWK 651 and SWK 652 combined is required. Must be taken with SWK 681.

**SWK 655 Advanced Field Practicum Integrative Seminar I (1)** This seminar is designed to integrate the concepts, knowledge, and values learned in course work with agency experience. This will provide opportunities for students to share their unique learning experiences from the agency placement and to demonstrate their competencies through a series of integration assignments. Students achieve an advanced level of competency in applying theories and concepts learned in the classroom to the practical world of the practice setting. Must be taken with SWK 651

**Concentration Year (Advanced Placement) Micro Semester Two**

**SWK 623 Advanced Micro Social Work Theory (3)** This class introduces students to a range of theories and models of social work practice within an ecological systems framework. The empirical bases of each theory and model are examined, along with applications to advanced social work practice with various size systems. Attention is given to how theories and models incorporate working with populations at risk.

**SWK 621 Advance Practice: Physical and Mental Health (3)** This course considers the physiological, psychological, and social components of various illnesses/conditions encountered in physical and mental health
care settings. Themes include: the effect of these components on social functioning or rehabilitative processes, the common psychological reactions of people to treatment, the inter-disciplinary team’s respective roles and value orientations, and the impact of these on the patient and his/her family. Health care policy and issues of loss and death will be explored. Special attention is given to interventions specific to health-care settings versus those of traditional agencies, and to methods appropriate to interdisciplinary practice and the impact of health care on specific population groups.

**SWK 627 Advanced Applied Social Research (1)**
In this seminar style course the student will apply the knowledge of research to one or more research questions that arise out of the context of the field placement agency. It is designed to support students in conducting evidence based practice in an agency setting by evaluating practice and planning for change. Case material will be drawn from real world practice situations students encounter in their field placements. Must be taken with SWK 652 and 682.

**SWK 652 Advanced Micro Field Practicum II (4)**
This course is the second part of the advanced practice supervised field experience giving the student an opportunity to apply advanced social work knowledge, values, and skills in a micro field setting in their concentration. A minimum of 500 hours for SWK 651 and SWK652 combined is required. Must be taken with SWK 682.

**SWK 682 Advanced Micro Field Practicum Integrative Seminar II (1)**
This seminar is designed to integrate the concepts, knowledge, and values learned in course work with agency experience. This will provide opportunities for students to share their unique learning experiences from the agency placement and to demonstrate their competencies through a series of integration assignments. Students achieve an advanced level of competency in applying theories and concepts learned in the classroom to the practical world of the practice setting. Must be taken with SWK 552

Nonprofit Leadership & Administration Endorsement

Those looking to lead within the nonprofit sector will find the 12-credit Nonprofit Leadership and Administration endorsement valuable as it provides the skills needed to carry out the missions of nonprofit organizations, both secular and faith-based.

The endorsement, offered exclusively online, is designed for all current senior level undergraduate students and all current graduate students with an interest in developing skills necessary for nonprofit administration. These courses will develop skill sets relevant to meeting the demands placed on nonprofit organization leaders such as budgeting, fundraising, market assessing, program evaluation and legal operating procedures. The student will also become familiar with working with governing boards, lobbying for legislation and moral leadership.

Courses

ORM 541 Nonprofit Governance (3)
This course examines the various approaches to governance. Each approach emphasizes different dimensions of the roles and responsibilities of the nonprofit boards and each arises out of a different relationship between board members and staff. They also reflect differences in the size, purpose, and history of the organization. This course considers the issue of which model is the right one and how an organization effects change in governance.

ORM 543 Human Resources for Nonprofit Organizations (3)
This course offers an overview of the functions of human resources activities as they relate to the broad objectives of the organization. Emphasis is upon the fundamentals of job design, employment techniques, performance appraisals, pay compensation practices, benefit options, employee relations, and termination practices.

ORM 545 Grant Writing for Nonprofit Organizations (3)
This course is designed to teach the basics of grant writing. It provides a comprehensive overview of effective grant development techniques, finding funding sources, program planning and funding sustainability. The emphasis is on writing a grant proposal and examining the relationships between sections of a proposal through a variety of interactive exercises.

ORM 548 Budget Development and Accounting for Nonprofit Organizations (3)
This course will examine procedures for projecting revenues and the process for developing operating budgets. The extent that tax policies affect private contributions to nonprofits is discussed. Line item and alternative budget formats, including zero-based and performance budgeting, will be considered. It is recommended that the student have familiarization with electronic spreadsheets.
The Spring Arbor University catalog contains information about the University and policies relating to the academic requirements and records of each student. Current and future students should refer to individual program handbooks for additional information. The University's policies and procedures may not be varied, either in writing or by an oral statement. The right to withdraw curricula and specific courses, alter course content, change the academic calendar, and/or to impose or increase fees is reserved to the University. All changes are effective at such times as the University determines, and may apply to future students and those already enrolled in the University.

Although the catalog establishes requirements that the student must fulfill to graduate, this catalog is not a contract between the University, student, or anyone else.

Spring Arbor University is a Christian-based educational institution that does consider religion a criterion for various purposes in the administration and maintenance of its environment. Spring Arbor University does not exclude otherwise qualified applicants from participation in programs, activities, and/or benefits on the basis of race, color, national origin, gender, age, or handicap.
