GENERAL INFORMATION

SPRING ARBOR UNIVERSITY CONCEPT

Spring Arbor University is an evangelical Christian university. The mission of the University, its purpose, its curriculum and the philosophical base for its community is expressed in the Spring Arbor University Concept:

"Spring Arbor University is a community of learners distinguished by our lifelong involvement in the study and application of the liberal arts, total commitment to Jesus Christ as the perspective for learning, and critical participation in the contemporary world."

The balanced integration of faith, living and learning is the continuing educational goal of Spring Arbor University. The faculty and administration are committed to Jesus Christ as the foundation for their teaching, advising and leading. Their personal relationships with Christ provide a basis for evaluating information, forming a worldview and shaping their daily participation in the lives of those around them. The University strives to help its students develop as Christian men and women equipped to meet all aspects of life with confidence.

A BRIEF HISTORY OF SPRING ARBOR UNIVERSITY

Spring Arbor University was founded in 1873 by leaders of the Free Methodist Church. In 1863, Edward Payson Hart began evangelistic meetings in Michigan. Hart was the driving force behind the establishment of Spring Arbor Seminary—an academy for elementary and secondary grades. In 1929, the school became Spring Arbor Seminary and Junior College. As the emphasis shifted toward higher education, primary and intermediate classes were discontinued in 1930. In 1960 when the school achieved accreditation by the North Central Association of Colleges and Schools, the trustees changed the name of the institution to Spring Arbor College. Soon the high school program was dropped as plans were developed to make Spring Arbor a four-year college. Under the leadership of President David McKenna, Spring Arbor College launched its four-year program in 1963, graduating its first class in 1965.

Graduate education began at Spring Arbor College in 1994 with the inauguration of the Master of Arts in Management (MM) degree, which is now the Master of Business Administration (MBA). The University has consistently developed graduate programs in subsequent years.

On April 30, 2001, Spring Arbor College became Spring Arbor University.

AFFILIATIONS

Spring Arbor University is affiliated with the Free Methodist Church, though it is nondenominational in its admissions and hiring policies. More than 30 denominations are represented in the student body and faculty. Faculty members are dedicated Christians, committed to an open atmosphere of investigation, and a life of faith and Christian service.

Among its many associations, Spring Arbor University is a member of the Council for Christian Colleges and Universities (CCCU), the Association of Free Methodist Educational Institutions (AFMEI), the American Association of Colleges and Universities (AAC&U), Campus Compact, the Michigan Association of Independent Colleges and Universities (MAICU), and the Council of Independent Colleges (CIC). With intercollegiate sports teams, Spring Arbor is also part of the National Christian College Athletic Association (NCCAA), the National Association of Intercollegiate Athletics (NAIA) and has long been committed to the gender equity principles of Title IX.
ACCREDITATION
All degrees offered by Spring Arbor University have been granted accreditation by the Higher Learning Commission, 30 North LaSalle Street, Suite 2400, Chicago, IL 60602.

Specific Accreditations
The School of Education at Spring Arbor University has been granted probationary accreditation for the next two years by The Council for the Accreditation of Educator Preparation (CAEP). The fall 2018 review by the CAEP Accreditation Council resulted in Spring Arbor University and 52 other providers from 27 states and Puerto Rico to receive accreditation for their education preparation programs.

- The Michigan Department of Education requires that all educator preparation programs be nationally accredited. Upon successfully completing the chosen program of study in which they choose to be certified, candidates participating in the Spring Arbor University School of Education accredited program will be certified by the Michigan Department of Education.
- In preparation for the review visit in 2020, Spring Arbor University School of Education will be focusing on the stipulation in Standard 5 as follows:
  o The EPP’s quality assurance system will be comprised of multiple measures that monitor candidate progress, completer achievements, and operational effectiveness.
  o The EPP-created assessments will meet the criteria of reliability and validity so that the data from these assessments will be systematically analyzed.
  o Spring Arbor University joins a total of 196 other educator preparation providers nationwide to receive CAEP Accreditation.

The Master of Science in nursing program has been granted accreditation by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036.

The Master of Arts in counseling program in both the Clinical Mental Health and School Counselor tracks has been granted accreditation by the Council for Accreditation of Counseling and Related Educational Programs (CACREP), 1001 North Fairfax St., Ste. 510, Alexandria, VA 22314.

The Master of Social Work (MSW) program is fully accredited by the Council on Social Work Education (CSWE), 1701 Duke Street, Suite 200, Alexandria, VA 22314-3457.

ACADEMIC CALENDAR
Spring Arbor University is on a semester calendar. Each program determines course start and end dates within the semesters, and students may not register for courses that overlap semester start and end dates without significant financial aid and billing implications.

STATEMENT OF FAITH
As an institution affiliated with the Free Methodist Church, Spring Arbor University affirms the Articles of Religion contained in the church’s Book of Discipline. The University acknowledges that the specific doctrinal confession to which it adheres does not define orthodoxy for the whole body of Christ nor is it comprehensive of every Christian truth. Spring Arbor University gladly embraces all who faithfully adhere to the essentials of biblical Christianity as fellow believers and co-laborers in Christ’s cause.

We believe in one God, the Holy Trinity: Father, Son, and Holy Spirit, as revealed in the Christian Scriptures known as the Holy Bible.
We believe that Jesus Christ is God’s incarnate Son who lived a perfect life on earth, proclaiming God’s reign and establishing a community of disciples; who sacrificially died on the cross for the sins of all people; who rose in triumph from death, accomplishing salvation for all who truly believe in him; who is now at the Father’s right hand interceding for us; and who will return to earth in victory, judging all people and establishing his everlasting kingdom.

We believe in the Holy Bible as the inspired and authoritative Word of God. It bears unerring witness to Jesus Christ, the living Word. It is the trustworthy record of God’s revelation, completely truthful in all it affirms, attested by the early church and subsequent councils, faithfully preserved and true in human experience.

We believe that human beings, men and women equally, are created in the image of God and are called to be his faithful stewards on earth. Although all people have become alienated from God and affected in every part because of sin, by God’s grace, all who truly repent of their sin and believe in the Lord Jesus Christ are justified by faith and adopted into the church, the people of God.

We believe that repentance and belief in Christ are evidenced by commitment to a life of obedience to the authority and commandments of the Holy Bible as interpreted through sound exegesis\(^{1a}\) and a traditional biblical hermeneutic\(^{1b}\).

We believe that the value of human beings does not depend on their marital status, but that human families were established by God to perpetuate humankind and to provide a stable community for nurturing children in faith and righteous living. Marriage between one man and one woman is the instruction of the Holy Bible for establishing families, and physical sexual expression is to be confined to that marriage relationship\(^2\).

We believe that God not only counts believers as righteous, but that he makes them righteous, freeing them of sin’s dominion at conversion, purifying their hearts by faith, perfecting them in love by his Spirit, and providing for their growth in grace through God’s participation at every stage of their spiritual life, enabling them through the presence and power of the Holy Spirit to live a victorious life of righteousness, justice, and practical usefulness.

We believe God’s kingdom promises to establish “a new heaven and a new earth, where righteousness dwells” (2 Peter 3:13 TNIV) and where resurrected believers will participate in God’s everlasting Kingdom.

\(^{1a}\)Exegesis: interpretation of text based on careful, objective analysis of the text itself; distinguished from eisegesis, or interpretation based on interjecting one’s own views into the text.

\(^{1b}\)Hermeneutic: refers to a particular approach to interpretation of a text. Traditional biblical hermeneutic emphasizes relying on texts of Scripture to interpret texts of Scripture, seeking internal consistency. The approach also emphasizes objective grammatical and historical accuracy.

\(^2\)The Spring Arbor University policy on Sex, Sexuality and Gender Identity and the Student Community Standard regarding sexual expression can be found in the Student Handbook and Community Covenant.

THE SPRING ARBOR UNIVERSITY GRADUATE
The Graduate Council has defined the ideal Spring Arbor University graduate as one who embodies the Spring Arbor University Concept. Thus, the goal of the Spring Arbor experience is the development of a person who
• understands what it means to be a part of a community of professionals.
  o The student must be able to learn, communicate, and participate with the community of learners.
• has undergone a rigorous educational experience.
  o The student will study topics that are grounded in theory, practice, and research creating a system of lifelong study and application.
• has encountered the Christian faith from a variety of perspectives, including instructors, staff, students, coursework, and instructional materials.
  o The student will see how the Christian faith impacts character and decision-making thus demonstrating a total commitment to Jesus Christ as the perspective for learning.
• is able to participate in a global society.
  o The student must be able to think critically and demonstrate the ability to take a leadership role in society and thoughtful participation in the contemporary world.

CHARACTERISTICS OF GRADUATE CULTURE
Graduate education is different from undergraduate education and has its own distinctive cultural norms. At the graduate level, the learning culture is characterized by several components:

• Depth of Inquiry: a rigorous inquiry and cognitive development, which will produce persons who gain a depth of knowledge about a subject field.
• Research-based Learning: a growing familiarity and conversance with the scholars, relevant research, findings, and research tools underlying the subject field.
• Practical Application: ethical integration of action-oriented research and best practices in the subject field.
• Knowledge Creation: engagement with the subject field in ways that have potential for development of new knowledge, affirmation of existing knowledge, testing of emerging theories, or application and refinement of research-based practice.
• Independent and Self-directed Learning: responsibility for learning, which is demonstrated by the learner’s manifestation of the ability for continuous learning in the subject field.

While some of these characteristics may be reflected in undergraduate education, the combination and degree of application in the learning process is at a higher level in graduate education.

THE GRADUATE COMMUNITY AT SPRING ARBOR UNIVERSITY
Building on a long tradition of scholarly pursuit and academic excellence, Spring Arbor University launched its first graduate program in 1993. Since then the SAU graduate community has come to embrace a diverse offering of graduate programs at multiple sites and online. The Spring Arbor University graduate community seeks to carry out the mission of the University at highest academic levels, broadening conceptual reach and enhancing individual skills in research and practice. That community effort encompasses:

• A graduate community of learners pursuing truth and wisdom, tying SAU graduate students and faculty leaders within scholarly disciplines among fellow professionals in a community of exemplary scholarship;
• A life-long engagement in study and application of liberal arts and sciences, engaging faculty and students in ten different programs across four disciplines in research-based inquiry, development of new knowledge and self-directed learning;
• **A commitment to Jesus Christ as the perspective of learning**, seeking God’s truth and exercising discernment in research and practice, thus strengthening values, building character, and motivating action;

• **Critical participation in the contemporary world**, encountering contemporary modes of expression, developing alternative approaches, engaging in dialogue, and modeling service.

Recognizing Christ as truth and impelled by his commission to carry that truth to the ends of the world, graduate faculty and students at Spring Arbor University engage in:

• Rigorous inquiry seeking depth of knowledge within a discipline;

• Research-based learning, mastering research tools, conversing with other scholars, and reviewing contemporary findings in the field;

• Development of new knowledge, testing emerging theories, and wisely applying knowledge through best practices;

• Distinctive communication within and across disciplines, using various modes, and reaching diverse audiences;

• Continuous learning through independent study in the subject field.

By quest and praxis, the graduate community at Spring Arbor University seeks to enhance individual skills, expand knowledge, and contribute to the fields of study in which members are engaged.

**COMMUNITY EXPECTATIONS**

As with all aspects of Spring Arbor University, graduate programs are dedicated to fostering academic, social, physical and spiritual growth for its students. Spring Arbor University trusts that students either share the Christian perspective of the University or are amenable to such perspectives while a student. As active participants in the community, students enrolled at Spring Arbor University are expected to govern their lives in a way that is pleasing to the Creator, enriching to others and self-rewarding.

**STANDARDS OF CONDUCT**

SAU is dedicated to fostering academic, social and spiritual growth for students. While enrolled as active participants in the SAU community, students are expected to govern their lives in harmony with its regulations, both on and off campus (see the Student Handbook on the student portal and/or [www.arbor.edu](http://www.arbor.edu)).

**SPRING ARBOR UNIVERSITY DEMOGRAPHICS**

Spring Arbor University is a liberal arts university located eight miles west of Jackson (the greater Jackson area has a population of about 160,000), and is affiliated with the Free Methodist Church. More than 40 denominations are represented in its student body. While most students are from Michigan, the University also attracts students from over 20 states and several foreign countries. Spring Arbor University delivers education to approximately 3,500 students on its main campus, at various sites located in Michigan and Ohio, and online. Over 1,700 of those students are registered in SAU graduate programs.
DIVERSITY AT SPRING ARBOR UNIVERSITY
Spring Arbor University is a community of learners committed to reflecting the Kingdom of God in the diversity of our students, faculty, staff, trustees, and other associates. Valuing the dignity of every human being is part of the historic legacy of our founding denomination. The University’s continued focus on creating a diverse learning environment reflects these values and honors our heritage.

The University is committed to being a place where ethnic and racial inclusiveness is a hallmark of the community we create. However, as an imperfect human organization, we must acknowledge and plan for the challenge that such diversity brings. We boldly embrace this challenge, because as Christians, we know it is right. Jesus Christ is the perspective for our teaching and through Him, we are called to move beyond mere tolerance of each other to genuine acceptance and mutually transformative learning. Becoming a diverse community of learners is consistent with our liberal arts tradition. It facilitates a healthy exchange of cultural, economic, social, religious, philosophical, and political views within the classroom and in campus activities.

Further, as an educational institution, we know we will ill-prepare students for personal and professional lives in a global society if we fail to expose them to the rich diversity of peoples and cultures. This exposure cannot solely come from books, but needs to be tested and experienced through interactive and ongoing personal relationships.

Therefore, we will seek ways to invite and welcome diversity into our community. We will be proactive and creative in integrating different cultural perspectives into the curriculum and community life, and we will strive to be always a community of love and respect.

STATEMENT OF NON-DISCRIMINATION
Spring Arbor University does not exclude any persons who are qualified applicants from participation in our graduate programs, activities and benefits by reason of race, color, national origin, gender, age or handicap. Applicants do not need to be professing Christians; however, students should know the program is delivered with a Christian worldview.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)
The Family Educational Rights and Privacy Act (FERPA) of 1974 was developed to protect the privacy of education records, establish the right of students to inspect and review their education records, and provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings.

Students have the right to file complaints with the Family Educational Rights and Privacy Act (FERPA) Office concerning alleged failures by the institution to comply with the Act.

The Privacy Act permits the University to release, without student consent, directory information. Directory information includes the student’s name, address (including email), telephone number, date and place of birth, major field of study, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended.

As of January 3, 2012, the U.S. Department of Education’s FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII)
contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is “principally engaged in the provision of education,” such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

As a student, you have the right to restrict the institution from releasing your directory information. If you choose to restrict such release, you need to activate a Directory Information Hold on the SAU student portal.

University policy explains in detail the procedures to be used by the institution for full compliance with the provisions of the Act. Copies of the policy can be obtained at the Office of Registration and Records. This office also maintains a directory of records that lists all education records maintained on students by this institution. Questions concerning the Family Education Rights and Privacy Act may be directed to the Office of Registration and Records.

ACADEMIC INTEGRITY
Any community of teachers and scholars recognizes that truth and honesty are absolutely essential in academic work. The expectation at Spring Arbor University is that academic integrity principles are rigorously followed in all academic endeavors. This expectation assumes that all work is completed by the person who purports to do the work without unauthorized aids. Instructors will exercise due diligence in planning and supervising the academic program so that the principles of truth and honesty are upheld. Faculty will reserve the right to impose a penalty, including the right to fail any student in a course where the student has been engaged in cheating, plagiarism or other forms of academic dishonesty.

The Spring Arbor University Concept—the heart of this institution—is based on a common commitment to Jesus Christ as the perspective for learning. This means that the Spring Arbor University community seeks to live in close adherence to the example and teaching of Jesus Christ in our personal and scholarly pursuits. With the purpose of encouraging responsible conduct, this policy flows from the Concept and assumes these important community expectations:
• Everyone who is part of the Spring Arbor University community will seek to live a life of highest integrity, both personally and academically.
• Full truthfulness is essential from all those in the Spring Arbor University community.
• Faculty and students will carefully and diligently guard themselves from stealing material or intellectual property, whether physical or electronic in nature.
• Silence about others’ disregard for these standards devalues and violates the principles and spirit of our faith, the Concept, and this policy. With prayerful introspection and loving confrontation, the community should strive to hold one another accountable to the standards of the Christian faith.

Acknowledging the call in the principles above, the Spring Arbor University community is challenged to maintain integrity in all academic pursuits. Therefore, cheating, misrepresentation, or plagiarism (borrowing ideas, images, facts, stylistic phrasing, or quoted material without credit) on assignments, tests, lectures, handouts or any other coursework are not tolerated. SAU’s Academic Integrity policy is available electronically on the website.

RESEARCH
Each graduate program defines the nature and scope of any required thesis, research project or case study. Students are advised to consult the catalog and program handbooks for specific requirements.

ASSESSMENT
Spring Arbor University regularly assesses the effectiveness of all academic programs. Registration for classes constitutes agreement to participate in assessment exercises and permission to collect resulting data.

STUDENT SERVICES
All graduate students who are currently enrolled at Spring Arbor University may use on-campus facilities, including the library, computer labs, academic student connection, career center, physical education complex and dining and snack facilities.

Library Services
Spring Arbor University has online library services to aid students in their learning. Students can access the White Library website at https://library.arbor.edu. Of the library’s collection of more than 200,000 books, over half are e-books that can be easily accessed online. Also provided is access to numerous online research databases. If students would like to check-out print books from the library, the books will be shipped to the student’s home, and a postage-paid mailing label will be provided for return shipment. If the requested material is not available, the Inter-librarian loan department will work to obtain the materials if at all possible.

Graduate students can contact a research librarian at the White Library at saulibrary@arbor.edu or 517-750-6742. SAU librarians are available for a one-on-one consultation with graduate students. Set up a Zoom, Skype, Google Duo/Hangouts, GoToMeeting, or another online format for a session with a librarian. The library can provide database instruction, research help, or citation assistance in these meetings. There is also a 24/7 chat service so that students can talk with a librarian anytime of the day or night. Instructional videos and help materials can be viewed at: https://www.youtube.com/user/thewhitelibrary as well as on the library’s Distance/Online student FAQ page at: https://library.arbor.edu/distanceandonline.
Services for Students with Disabilities
In compliance with federal regulations and in support of efforts to enable students to maximize their academic success, Spring Arbor University provides the Office of Academic Student Connections (ASC) to direct academic services for students with disabilities. Students with disabilities may request reasonable accommodations within the parameters of federal law. Documentation and requests should be made as early in the first term of attendance as possible to prevent delays in accommodation.

Disability Services Contact Information
- Students who primarily attend class at off-campus sites may contact the site-based Student Services Coordinator.
- Students who primarily attend classes online may contact their SAU Student Support at Student.Success@arbor.edu
- Students who primarily attend classes on the SAU Main Campus may also contact SAU Student Support at Student.Success@arbor.edu

Further information regarding policies and guidelines can be found at Academic Student Connections on the SAU website; https://www.arbor.edu/resources/offices/academic-student-connections/students-with-disabilities/.

NOTE: It is the student’s responsibility to secure documentation, contact personnel listed above, come to an agreement about accommodations, and present an SAU prepared VISA (Verified Individualized Services and Accommodations notice) to each instructor. Also, instructors are not under obligation to make accommodations without documentation from the SAU ASC office.

TUITION AND FEES
Cost of tuition and fees for each graduate program can be obtained from the Spring Arbor University Business Office or on the SAU website at https://www.arbor.edu/admissions/graduate-admissions/#Tuition_and_Fees. Fees for special materials may be required for some courses. All fees are nonrefundable. In addition to tuition and fees, each course will require textbooks and other materials. Tuition and fee changes are published annually at the website listed above.

NOTE: Spring Arbor University reserves the right to adjust tuition, books, and fees at any time without prior notice. If any additional fees or costs must be ascribed, they will be explained at the time the fees or costs go into effect.

Payments
Students are expected to pay tuition and fees before class begins. Most programs require payment at least three weeks in advance. A third-party payment plan is available, details of which can be obtained through the Business Office.

Unpaid Student Accounts
Students who are delinquent in the settlement of any of their accounts with the University or who have not made arrangements with an approved payment plan forfeit all University privileges including, but not limited to, room and board, class attendance and access to the SAU network and other resources. Students whose accounts are not paid in full are not permitted to register for a new semester. Diplomas and transcripts will not be issued until all financial obligations have been cleared.
A monthly service charge will be added to any unpaid balance in the student account. Failure to meet financial obligations may result in the referral of the delinquent account to an outside agency for collection of the total amount due plus all collection costs, if applicable.

**Tuition Refunds for Withdrawal**
Tuition refunds for properly authorized withdrawals from the University shall be based upon the following refund schedule:

<table>
<thead>
<tr>
<th>Calendar Days</th>
<th>Refund Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-7*</td>
<td>100% refund</td>
</tr>
<tr>
<td>Through 25% of class</td>
<td>75% refund</td>
</tr>
<tr>
<td>Through 60% of class</td>
<td>50% refund</td>
</tr>
<tr>
<td>After 60% of class</td>
<td>No refund</td>
</tr>
</tbody>
</table>

*Classes with duration of less than 14 days will be refunded on a prorated basis.

Registration changes may result in additional charges based on the applied tuition refund schedule. Students should contact the Business Office and Financial Aid to determine the financial ramifications before making registration changes.

**Withdrawal Refund Appeals**
If a withdrawing student is convinced the withdrawal is the result of circumstances warranting exceptions from published rebate policies and does not believe the request for exception made in writing to the Business Office has been satisfactorily considered, a petition may be submitted to the Office of Records and Registration within 60 days of the withdrawal date. The Office of Records and Registration will consider the withdrawal appeal, and in consultation with a representative from the Business Office and/or the Office of Student Development, will grant or deny the written appeal within 30 days of the date the request is received. That decision will be final.

**FINANCIAL AID**
Financial aid may be available to students if appropriate criteria are met. Loans for full-time or part-time students may be requested from the federal government. Students should work with appropriate staff and the Financial Aid office. Early filing of the Free Application for Federal Student Aid (FAFSA) to meet specific deadlines is encouraged. Satisfactory academic progress must be met in order for students to receive federal financial aid (Title IV).

**Financial Aid Refunds**
If a financial aid refund is due to the student and the student received financial aid from federal student loans, part of the refund must be returned. Proportionate amounts of the total refund will be returned to the government by the University to the respective programs in the following order:

1. Federal Unsubsidized Stafford Loans;
2. Federal Subsidized Stafford Loan;
3. Federal Graduate PLUS Loan;

The remaining refund will be given to the student when all incurred costs at Spring Arbor University have been paid.

**Enrollment Status for Financial Aid**
- Enrollment in at least 6 graduate credit hours during any semester is considered full-time.
- Enrollment in at least 3 graduate credit hours during any semester is considered half-time.
Loans from the federal government are available for students who are enrolled at least half-time and who have been accepted in a degree program. Students should contact the Financial Aid office for assistance.

More information about financial aid can be found on the SAU website at this link: https://www.arbor.edu/admissions/financial-aid/

VETERAN’S BENEFITS
The Office of Registration and Records coordinates veteran benefits, maintains all veteran records, including degree requirements, courses taken and grades. Grades are posted to the student’s record at the end of each academic session. The university catalog gives all degree requirements. Each student’s progress is monitored by the Office of Registration and Records.

Veterans apply for VA Educational Benefits online through the Veteran’s Online Application (VONAPP) website at www.gibill.va.gov. The student may call the VA if they have questions regarding the application at 1-888-442-4551.

A copy of the Certificate of Eligibility will be mailed to the student by the VA and is required before the student can be certified for benefits by the Certification Officer in the Office of Registration and Records. All questions concerning benefit eligibility and payment should be directed to the Veteran’s Administration at 1-888-442-4551.

Students eligible to receive benefits from the Veterans Benefits Administration should make certain that all records are correct before the beginning of each term of attendance. In order for a student receiving benefits to remain in good standing, the following items should be noted:

1. Benefits will be paid for only courses that are graded A, A-, B+, B, B-, C+, C, C-, D+, D, D-, U, or S. In addition, a course cannot be audited and counted toward benefit hours. Any incomplete grade must be converted to a regular grade within six weeks.
2. Courses for which the student registers must be applicable to program and degree requirements. Extra non-required courses taken beyond the program requirements for graduation will not be certified for benefits.
3. The addition of an extra program requiring more than the requirements of the program cannot be certified without the student securing approval for a change of program from the Veterans Administration.
4. A student accumulating more than 12 hours of failing grades (“U”) will lose further benefits.
5. Credit for previous training may be granted based upon academic evaluation of records.
6. Academic Probation: if a student receiving veteran benefits is placed on academic probation, the student is permitted two consecutive semesters on this status. If the student fails to raise the cumulative GPA to good standing status at the close of the second semester, that student will no longer be entitled to veteran benefits.
7. Any student receiving veteran benefits is subject to all academic policies of Spring Arbor University as outlined in this catalog.
MILITARY LEAVE OF ABSENCE POLICY

MILITARY LEAVE OF ABSENCE ELIGIBILITY

Only members of the U.S. military are eligible for leave of absence under this policy. Members of other countries’ militaries are not eligible. Unless notice is precluded by military necessity, students will be eligible for consideration for a military leave of absence after submitting a Military Leave of Absence Request form to the SAU Office of the Registration and Records. If the student is unable to submit this form due to deployment time frames or security issues, an appropriate officer of the Armed Forces or an official of the Department of Defense may also notify the Office of Registration and Records in writing (registration.records@arbor.edu). Orders for military deployment or active duty service should accompany requests for a military leave of absence (scan and attach to email, or fax to 517-750-6534).

MILITARY LEAVE OF ABSENCE REGULATIONS

A military leave of absence allows U.S. military personnel who are students of SAU to be readmitted and resume studies in the same degree program in which they are enrolled at the time of the leave request, meaning they will not be responsible for completing new program requirements that may be implemented during the leave period. If curriculum has changed, suitable substitutions will be allowed. If the interrupted program has been discontinued during the leave of absence period, the institution will allow previous courses to substitute in an active program of study within the same discipline and within reason, according to discipline-related regulations and sound academic judgment.

Students granted a military leave of absence will be given a refund of tuition and fees paid out-of-pocket for any unfinished coursework during the semester in which their studies are interrupted. Any funds paid toward earned credit will not be refunded. If applicable, housing and meal plan refunds will be prorated for time remaining in the semester in which studies are interrupted. These refunds do not mean students will not owe the school any money for the semester, especially if the student took out federal loans to pay for their tuition and fees. Students requesting a military leave of absence from the university who received financial aid should contact the Office of Financial Aid to determine their financial responsibility to the university.

Students returning from military leave of absence will have guaranteed enrollment for the semester in which they return if the student is granted readmission under this policy (see readmission section below).

MILITARY LEAVE OF ABSENCE READMISSION

The cumulative length of the absence and all previous absences from the university for serving in the U.S. military cannot exceed five years, including the time the student spent actually performing military service and any recovery time for injuries sustained during military service.

Veterans seeking admission to a different program are not eligible for readmission under this policy unless the original program of study is no longer offered at the university. If the program is no longer offered, the student must enroll in a replacement program or a program that is in the same
field of study as the original program. Veterans who received a dishonorable or bad conduct discharge are not eligible for readmission under this policy.

Students qualify for leave-of-absence readmission after a period of at least 90 consecutive days serving in voluntary or involuntary active duty in the United States Armed Forces (including service by a member of the National Guard or Reserve on active duty, active duty for training, or full-time National Guard duty under federal authority).

To be readmitted, students must submit 1) an application for readmission through the Office of Admissions, and 2) a Return from Military Leave of Absence form to the Office of Registration and Records no later than the admission application deadline for the upcoming term. Documentation of military separation or discharge must accompany the Return from Military Leave of Absence form via email attachment or fax to 517-750-6534. The registrar’s office will notify the Office of Admissions of the student’s intent to return under this policy.

Students who were not in academic, student conduct, or financial good standing with SAU before the leave of absence may not be readmitted. These situations will be considered on a case-by-case basis by the appropriate institutional administrator.

Satisfactory Academic Progress

Federal regulations require Spring Arbor University to establish specific standards of Satisfactory Academic Progress (SAP) that students must meet to maintain eligibility federal Title IV student financial assistance programs.

SAP Requirements for Graduate Students

All current students, regardless of catalog year:

<table>
<thead>
<tr>
<th>Total Hours Attempted</th>
<th>1-15</th>
<th>16-24</th>
<th>25-36</th>
<th>37-47</th>
<th>48+</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimum Required GPA</td>
<td>3.0</td>
<td>3.0</td>
<td>3.0</td>
<td>3.0</td>
<td>3.0</td>
</tr>
<tr>
<td>Minimum Completion Ratio</td>
<td>50%</td>
<td>67%</td>
<td>67%</td>
<td>67%</td>
<td>67%</td>
</tr>
<tr>
<td>Maximum Total Credits Allowed to complete degree requirements</td>
<td>150% of the program length</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

All courses attempted at SAU and transfer credits that count toward a student’s degree are counted as credits attempted regardless of the grade assigned for the completion ratio and total time-frame calculations. Only courses with final grades issued and considered passing are counted as credits earned. All credits for repeated courses are counted as attempted credits and if passed as earned credits. If a course repeated, the highest grade for the course will be used in the GPA calculation. Incomplete courses are counted as attempted credits, but not as earned credits. Note: transfer grades are not incorporated into the calculation of Spring Arbor University cumulative GPA.

Frequency of Review

SAP will be reviewed at the end of each term. Students not making SAP at the end of a term will be placed on Financial Aid Warning. Students on Financial Aid Warning who are still not meeting SAP requirements at the end of the term for which they were placed on Warning status, will be ineligible for additional financial aid.
Students determined to be ineligible for financial aid will receive a letter notifying them of the loss of eligibility along with an explanation of how they can appeal the loss of eligibility.

**Regaining Eligibility**
Students who have been dismissed from federal financial aid programs due to having failed to make satisfactory academic progress must take courses without the benefit of federal financial aid until such time as they are meeting the standards of SAP. Students being re-admitted to the institution will be reinstated at the same satisfactory progress level that he/she was at the point of leaving Spring Arbor University.

**SAP Appeals**
Students who have lost eligibility may appeal based on the death of a relative, an injury or illness of the student, or other special circumstances. Appeals must be submitted in writing and must state why the student failed to make satisfactory academic progress, and what has changed in the student’s situation that will allow the student to demonstrate satisfactory academic progress at the next evaluation. Appeals must be signed by the student.

Signed appeals should be addressed to the Financial Aid Appeals Committee and faxed to the Financial Aid Office at 517.750.5555 or may be mailed to the Financial Aid Appeals Committee, Financial Aid Office, Spring Arbor University, 106 E. Main Street, Spring Arbor, MI 49283.

**FORMAL COMPLAINT**
The Spring Arbor University website contains a Formal Complaint Form. To find the most current policy and form, enter “Formal Complaint” in the search bar at [www.abor.edu](http://www.abor.edu).

**CATALOG DISCLAIMER**
The Spring Arbor University catalog contains information about the University and policies relating to the academic requirements and records of each student. Current and future students should refer to individual program handbooks for additional information. The University’s policies and procedures may not be varied by any University employee without official governance approval either in writing or by an oral statement.

Curricula and policies listed in this catalog are subject to change through normal University governance procedures. Revisions to the catalog are normally implemented in the next academic year following adoption by the Graduate Council and Academic Senate. However, occasionally curricula or policies may be changed and implemented in the same academic year and for matriculated students. Therefore, although the catalog establishes requirements that the student must fulfill to graduate, it is not a contract between the University and student nor anyone else.

To complete a degree, a student is expected to meet the requirements listed in the catalog which is in effect for the year of the student’s matriculation to the University. Students may also need to meet additional degree requirements that have been published in other official University documents, such as departmental handbooks. Additionally, the University reserves the right to withdraw curricula and specific courses, alter course content, change the academic calendar, and/or impose or increase fees as it deems necessary without prior notification, although reasonable efforts will be made to communicate changes in a timely manner. All changes are effective at such times as the University determines and may apply to future students and those already enrolled in the University.
ADMISSIONS

The following admission documents and requirements are common to all Spring Arbor University graduate programs. Some programs specify a particular format for certain items and/or have additional admission requirements. Program admission requirements are detailed in the program sections of this catalog or in program handbooks which are available through the program offices.

- A completed application is required before consideration for admission.
- Applicants must provide an official transcript from a regionally-accredited college or university which notes the conferral of a bachelor’s degree. A student may be considered for conditional admission if the student provides verification from the institution that all degree requirements for a bachelor’s degree have been met along with an anticipated date of degree conferral. Additionally, applicants must submit all transcripts reflecting any graduate work completed, even if the courses are not being considered for transfer. (Some programs require official transcripts from all previous institutions attended. See specific program details for clarification.)
- Bachelor’s transcripts must reflect a 3.0 GPA for at least the last two years of the bachelor’s degree, and any graduate transcripts must reflect a 3.0 GPA.
- Applicants must provide at least two recommendations from professional/academic individuals.

Graduate programs may have other specific admission requirements which are listed in the program-specific section of this catalog and/or in program handbooks available through program offices.

ADMISSION EXPECTATIONS

All applicants should possess:
- graduate-level communication skills,
- computer competency,
- strong academic skills,
- strong motivation for learning,
- awareness of the time and effort required to successfully complete program requirements,
- a willingness to be part of a group learning process, and
- potential for growth and development in the student’s chosen field.

ADMISSIONS STATUS

Admission status is determined and specified as follows:
- **Full**: all items are complete and admission requirements met.
- **Probationary**: the admissions file is complete but the applicant’s GPA does not meet the standard or there are other concerns (e.g., weak writing sample).
  - There will be limits on the number of courses for which the applicant may enroll as well as closer monitoring of grades.
  - The time limit that the student must come off probationary status will be the end of the first semester.
- **Conditional**: some part of the admission file is missing (e.g., official transcript)
There may be limits on the number of courses for which the applicant may enroll as well as closer monitoring of grades.

The time limit that the student must come off conditional status will be the end of the first course.

- **Denial:** admission requirements are not met.

### ADMISSIONS APPEALS

Students may only appeal denial of admissions. An appeal is initiated via written petition, which provides rationale and, where appropriate, includes supporting documentation. Appeals are presented to the program director, who will convene a review committee. The committee’s decision is final.

### INTERNATIONAL STUDENT ADMISSION

International students are subject to all admission requirements of the graduate program and additional requirements as outlined below:

- Hold a bachelor’s degree or equivalent from a regionally accredited academic institution in the United States. International applicants must submit official copies of their transcripts and certificates from each institution attended. For each school, one official transcript should be sent to Spring Arbor University and one must be submitted to one of the following services for evaluation: AACRAO ([www.aacrao.org](http://www.aacrao.org)) or WES ([www.wes.org](http://www.wes.org)). The service must send the evaluation(s) directly to Spring Arbor University. Degrees earned from institutions outside the United States must be equivalent to or higher than a U.S. baccalaureate
- Provide evidence of proficiency in the English language on the Test of English as a Foreign Language (TOEFL)**
- Provide a financial resources statement
- Submit proof of medical insurance

To maintain student status with immigration, a student must be full-time (a minimum of 6 credit hours per semester).

** Minimum TOEFL scores: Paper-based = 550, Computer-based = 220, Web-based = 80

### BACKGROUND CHECK

Spring Arbor University (SAU) values a reputation for honesty, integrity, and a safe environment for our community of learners and to the greater community in which we serve. To safeguard these standards, SAU may require a background check. Spring Arbor University reserves the right to deny admission to convicted felons in its sole discretion and reserves the right to make decisions based upon factors it deems relevant under the totality of the circumstances. The specific policy guidelines and final review processes are outlined by the individual school, program, office, or department.

### GRADE POINT AVERAGE RESTART

Former Spring Arbor University graduate students with grades at SAU that fall below the minimum program or University grade standards may petition for their GPA to restart upon readmission to a graduate program at SAU. GPA restart petitions will be considered only under the following conditions:

1. Applications for readmission to SAU and petitions to restart GPA are subsequent to a minimum of five consecutive years of absence from the most recent last date of attendance in a graduate program at SAU.
2. The applicant has not taken any graduate courses at any other institution during the time of absence.
3. Applicants have previously attempted no more than 30% of the graduate program for which they are applying.
4. Applicants’ grades have not previously been restarted at SAU.
5. Applicants provide an explanation of their previous academic challenges and what measures they have taken or will take to overcome them.

GPA restart petitions are to be submitted with readmission application materials. The petition will be directed to and reviewed by the program director of the program to which the applicant is applying. All previous student information and records will be considered in the evaluation of the petition. Additionally, the program director may require an interview with the applicant before making a final decision.

If the student is accepted to the program and the program director grants the petition to restart the GPA, the student will be admitted on probation. The student must come off of probation at the culmination of the first semester after readmission with a semester GPA of 3.0 before the Office of Registration and Records will restart the GPA. The restart will begin from the date of reentry into the institution. The student’s transcript will note that the GPA was restarted and the date of restart. Students should be aware that the previous academic record will still appear on the transcript, and the restart applies to the GPA calculations at only SAU. Other institutions and employers may average all academic records together.

Students may need to retake courses or substitute courses for which grades were restarted, depending on the requirements of the program to which the student is admitted.

If the restart petition is not granted, students may appeal in writing to the school dean. The school dean’s decision is final.

Federal financial aid rules and limits apply regardless of the GPA restart. Students should seek guidance from the financial aid office to understand their financial responsibilities despite the GPA restart.

**SPECIAL ADMISSIONS**

Applicants who do not wish to enroll as a degree-seeking student must submit an application to register as one of the following types of students. Specially admitted students must meet minimum admission requirements as listed above to be accepted as an SAU student. Program admissions officers should be contacted for information.

**Guest Student**
A guest student is currently enrolled in a master’s program in another regionally accredited college or university. A guest student may take a maximum of 6 credit hours. Because of class size restrictions, preference will be given to students admitted to the program. Guest student status does not guarantee future admission into a graduate program, nor does it guarantee that the credit hours will apply toward a master’s degree. Applicants should request the SAU guest application form from the program office to which they are applying.

**Non-degree Student**
A non-degree student is one who wishes to take classes but is not seeking a degree. A non-degree student may take a maximum of 6 credit hours and must make application through one of the graduate program offices. Admission for non-degree students is not guaranteed.
REGISTRATION POLICIES

Registering for Courses
Students may register for courses during the authorized registration period, up to one week prior to the class start date, by utilizing the Academic Schedule Planner on the MySAU Portal. After the registration period closes, students will need to receive special permission to register late. Exceptions will be made only under extreme and unavoidable circumstances or if the registration will prevent a course cancellation due to low enrollment. Students should contact their academic advisor, who will work with Office of Registration and Records and instructor to gain late registration authorization.

Course Load/Credit Limits
Students may not enroll in more than 30 credit hours per 12-month period in any Spring Arbor University graduate program or combination of graduate programs without the permission of the program director. Any schedule exceeding 10 credit hours per semester (traditional semester calendars) or 15 credit hours in a six-month period (non-traditional semester calendars) must have permission of the program director. (See specific programs for possible other course load requirements.)

Auditing a Course
Students who wish to audit a class (i.e., attend the class but not receive credit) must obtain approval from the program director. Students must pay the applicable audit fee and any course fees. To have the audit placed on their permanent record, students must meet the regular attendance policy of the course. Registration for audit may not be changed to credit after the drop/add period for that term. If credit is desired subsequent to completing the course, the student must retake the course for credit, paying the applicable tuition and fees.

Auditing students will not be required to complete assignments and/or exams unless the instructor requests that assignments be completed as a necessary part of attending the class or as required by the program. An instructor has no obligation to meet with an auditing student after class or to correct assignments submitted by an auditing student unless the instructor has requested that the student complete the materials.

Dropping a Course
Students who wish to drop a course during the authorized drop period must contact their academic advisor through SAU email requesting the drop. The transcript will not reflect the student’s enrollment in the course. It is important that students check with the program office to learn the applicable deadlines and tuition charges. Students dropping a course after the first week (or the authorized drop period, if different from the standard first week) will be charged tuition for the course as indicated in the Tuition Refunds for Withdrawal policy found earlier in this catalog.

Repeating a Course
There is no limit to the number of repeated courses, but any given course may only be repeated once. When computing GPA, a higher grade replaces the lower grade and the credit hours only count once. All entries remain part of the student’s permanent academic record. Regular tuition charges and fees will be assessed for repeating a course.
Withdrawal from a Course
After the authorized drop period closes, students who wish to withdraw from a course must contact their academic advisor through SAU email requesting the withdrawal. Students may withdraw up to the halfway point of a course and receive a grade of "W," which remains part of the student’s permanent record but does not affect the GPA. Withdrawal after the halfway point will result in a grade of “UW,” which is reflected in the GPA and acts the same as a "U" grade. The withdrawal date is determined as follows:

1. The date the student officially requests in writing a withdrawal to the academic advisor of the program, who then completes a withdrawal form and submits form to the Office of Registration and Records, and;
2. the last day of the student's recorded attendance is determined by the last date work tied to the gradebook in the Learning Management System was submitted by the student, or
3. when student is administratively withdrawn or is withdrawn for non-attendance.

Withdrawal from a Program
Students who need to withdraw from a program must notify their academic advisor and program director in writing. Students should check with the Financial Aid and Business Offices to understand the consequences of withdrawal on state or federal financial aid and their student account.

Course Cancellation
The University reserves the right to cancel a scheduled course for reasons it deems appropriate, including but not limited to staffing, low enrollment, or program changes.

Class Cancellation
In the event of bad weather or other unforeseen circumstances, a scheduled class session may be canceled. There will be an attempt to reschedule the canceled class session and notify students of the change.

Institutional Transfer Credit Policies for Graduate Programs
Students may request for programs to evaluate official transcripts to determine applicable transfer credit. An official transcript from the sending institution must be submitted to the program office along with the initial application and a written request to evaluate credit for transfer.

- Transfer credits must be from a regionally-accredited institution.
- Transfer credits must be graduate level.
- A maximum of 12 semester credit hours may be accepted for transfer. NOTE: quarter hours or contact hours will be converted to semester credit hours upon transfer.
- The transferred course grade(s) must be a “B” or better. NOTE: Transfer grades are not used in the calculation of Spring Arbor University cumulative GPA. Only course credit is transferred.
- Transfer credit hours cannot be more than 10 years old at the time of matriculation for any program. NOTE: Some programs may have stricter policies on allowable transfer credit age limits for a variety of reasons, including but not limited to, current trends, new competencies required for the field, current technology, new theories and methods, etc.
- Programs may have program-specific transfer credit policies that further define what credits will be considered for transfer. These requirements are listed in program sections of this catalog.
• In all cases, program directors have the discretion to determine whether allowed transfer credits will apply to the program requirements as a substitution for a required course or elective credit only.

• The Office of Registration and Records will make a final determination on transfer credits upon inspection of records and evaluation of adherence to institutional policy.

Students who have matriculated to an SAU graduate program and have not yet transferred the maximum 12 credit hours may seek written approval from the program director to attend another institution for additional transfer credit to fulfill SAU program requirements. The Office of Registration and Records must receive notification of the advanced approval from the program and official transcripts from the transferring institution in order to transfer the credit to the student's SAU transcript.

Prior Learning Assessment
In some programs, students with significant graduate-level learning and/or professional training that is not sponsored by a college or university may be granted academic credit by Spring Arbor University through the process of prior learning assessment. Students interested in evaluation of their prior learning should consult their program directors.

There is a prior learning assessment fee for evaluation and processing of experiential learning. This fee is based on the number of credit hours for which a student petitions. The Coordinator of Prior Learning Assessment in the Office of Registration and Records can assist.

Dual Undergraduate/Graduate Enrollment

Undergraduate Dual Enrollment in Graduate Courses
Undergraduate dual enrollment may be granted to undergraduate’s who will have completed 90 credit hours before registration into desired graduate courses. To be eligible, students must have a cumulative GPA of 3.0 or higher in at least 18 credit hours of upper-level course work. There is a limit of 12 credit hours unless the graduate program is specifically designed as an accelerated program. Dual enrollees may register only by petition and only for graduate-level courses approved by the department chair of the student’s undergraduate major/s and the graduate program director, dean, or designee and are subject to review by the Graduate Council.

For students who have not yet earned a bachelor's degree, graduate courses may not be eligible for federal financial aid unless the graduate courses are being used to meet requirements of the bachelor's degree. If the graduate courses are not clearly listed as requirements for undergraduate program completion in the academic catalog, students must petition the registrar's office to consider a substitution as approved by the department chair and graduate program prior to registration for federal financial aid eligibility.

Student who take graduate courses at SAU to complete an undergraduate degree may request for those graduate credits to apply to an SAU graduate program. Requests will be evaluated by graduate program personnel to determine course transferability and applicability to the desired graduate program at SAU. Not all graduate programs permit courses taken as dual enrollment to count toward the graduate degree. Those programs that do allow dual enrollment courses may require students to meet additional criteria before considering dual enrolled course credit.

For fast-track bachelor's to master's programs, see the appropriate section of the catalog for program-specific information.
STUDENT ACADEMIC RESPONSIBILITY
SAU commits to helping students achieve their academic goals by providing numerous resources and tools, including academic advisors, degree audits, schedules, calendars and the academic catalog. Students must assume certain responsibilities that include but are not limited to:

- completing courses in an order that meets prerequisite and core requirements,
- becoming familiar with all academic policies and specific policies of the program to which the student is admitted,
- preparing work that is representative of the student’s own individual efforts,
- submitting work by the specified due dates, and
- communicating with instructors to clarify or assist with assignments or required work.

ATTENDANCE POLICY
Regular attendance and participation is expected in all graduate programs. Refer to specific program guidelines for details.

SAU Online Class Attendance
Class attendance is important for academic success at Spring Arbor University. Whether the student is enrolled in courses on campus or online, participation is an expected part of the academic experience.

Attendance in an online course is based upon electronic records of student presence. A student who logs into the course but does not submit coursework is not actively participating. To be eligible for Financial Aid, students must actively participate in the course. If the course is dropped by the student or if the student is dropped from the course by the institution, recalculation of financial aid eligibility may be necessary.

A student who does not log in or attend the course by the 8th day of the course may be administratively withdrawn by an SAU Online Administrator.

Students have until no later than the 7th calendar day of an online session to voluntarily drop from a course without financial penalty. A course dropped before the 7th calendar day also will not appear on a student’s transcript. After that date, students have until the midpoint in the course to voluntarily withdrawal. A withdrawal results in a “W” on the academic record and may result in a partial refund on tuition. Withdrawing from a course after the designated withdrawal period deadline will result in a “UW” on the academic record and no tuition refund.

A student in attendance of an online course who ceases to actively participate may be withdrawn from the course upon the discretion of an SAU Online Administrator or the instructor of record. Any potential tuition refund will be based on the date of the withdrawal. An administrative withdrawal from a course, after the halfway point, will result in a “UW” on the student’s academic record and no tuition refund.

Academic programs may have requirements beyond those outlined in this policy for which a student will be accountable.

According to Federal regulations, “Attendance” in an online class requires academically-related activity. Academically-related activities include any of the following:
• Physically attending a class where there is an opportunity for direct interaction between the instructor and students;
• Submitting an academic assignment;
• Taking an exam, an interactive tutorial or computer-assisted instruction;
• Attending a study group that is assigned by the school;
• Participating in an online discussion about academic matters; and
• Initiating contact* with a faculty member to ask a question about the academic subject studied in the course.

ACADEMIC ADVISING
In each graduate program, an academic advisor is available to assist students with planning and implementing their academic program. The University provides the Academic Planner for all students to use for planning and registering. The Academic Planner is available through the MySAU Portal (http://mysau.arbor.edu) and is a tool that all students are expected to use. For support in using the Academic Planner, students should refer to instructions and tutorials provided online. When further assistance is needed in dropping and adding courses within the allowed drop and add period, or withdrawing, the students should contact their academic advisor for assistance.

Student Responsibilities in the Advising Process
While Spring Arbor University will provide assistance in planning academic programs, students are ultimately responsible for ensuring they are fulfilling the requirements of their program. Students are expected to become familiar with degree requirements and expectations, as well as take the initiative for requesting academic advising assistance. The academic advisor does not carry the burden of responsibility for ensuring students complete degree requirements.

ACADEMIC STATUS
All graduate students are required to earn a minimum cumulative grade point average (CGPA) of 3.0. The academic policy exists to encourage student success toward that end. Any graduate student is in good standing whenever that student’s cumulative grade point average is 3.0 or better. Academic status can also impact financial aid eligibility.

All grades and GPA’s are reviewed at the end of each grading term by the Academic Status Committee. The committee, with input from graduate academic advisors and program directors, makes the following decisions:

**Good Standing:** the CGPA is 3.0 or better.

**Alert:** the GPA for the grading term is less than 3.0, but the CGPA is 3.0 or higher.

**Probation:** the CGPA falls below 3.0. The student is placed on probation for one semester. The time limit allowed for a student to raise CGPA and be removed from probation is one semester.

**Continued on Probation:** CGPA has increased during the probationary grading term yet remains below a 3.0. At the discretion of the committee, the student may be continued on probation for one additional semester.

**Probation Removed:** Good standing is restored and probation is removed.
**Academic Policies**

**Dismissal**: A student who is admitted to a program on probation and fails to achieve a 3.0 GPA for that first semester is dismissed. A student who fails to increase the GPA for a semester after being placed on probation or fails to increase CGPA to 3.0 or better after being permitted to continue on probation is dismissed.

**DISMISSAL POLICY**

**Program Dismissal**
Dismissal from a program is possible in two ways: academic or disciplinary. The factors involved may include but not limited to the following:

For academic reasons:
- admitted on probation and fails to achieve a 3.0 GPA for the first semester,
- fails to increase the GPA for first semester after being placed on probation,
- fails to increase CGPA to 3.0 or better after being permitted to continue on probation,
- any degree program policy which dictates dismissal when policy is not followed.

For disciplinary reasons:
- violating standards of academic integrity,
- violating community, behavioral, program, professional expectations,
- unsatisfactory performance in practicum, internship, or clinical courses
- criminal misconduct,
- failure to comply with established SAU or program timelines and/or requirements,
- unethical practices and/or unprofessional conduct,
- actions that obstruct the training process and/or threaten client welfare.

**Academic Dismissal Process**
To protect the student’s due process rights and SAU’s interests in upholding academic and professional standards, the following steps will be taken as part of the dismissal review process.

Step 1: All grades, GPA's and academic statuses are reviewed at the end of each semester and communicated to the graduate academic program advisors for review. Advisors and/or program director or chairs comment on the report and return it to the Registrar’s office.

Step 2: Reports are compiled and presented to the Academic Status Committee for review. Academic Status Committee has final decision on the student’s academic status.

Step 3: The Academic Status Committee via the Registrar’s office will inform the student in writing of the dismissal decision and of the circumstances which affect the student’s continuance in the program. Notification is sent via student’s SAU email and a hard copy to the student’s mailing address on file. Student’s academic status is updated and the student is dropped from all future enrolled courses.

**Disciplinary Dismissal Process**
SAU has the right to review any circumstances that may impede the student’s ability to continue in the program at any point while a student is enrolled in a graduate program. At the discretion of the program director or chair, the student may be placed on suspension while the matter is being investigated. A student who is placed on suspension may not participate in program-related activities.
To protect the student’s due process rights and SAU’s interests in upholding academic and professional standards, the following steps will be taken as part of the disciplinary dismissal review process.

Step 1: The program director or chair will inform the student in writing of the allegations or circumstances that may affect the student’s continuance in the program. These allegations may emanate from personnel both within and outside the SAU community. (Note: if the allegation involves an academic integrity issue, current SAU policy will be followed.)

Step 2: At the discretion of the program director or chair, the student may be asked to seek an informal resolution of the allegation with the accusing party. The student will inform the program director or chair of the outcome within seven days after the program director or chair’s request. If resolution is not achieved in this informal process, then the matter will be brought before a disciplinary committee, consisting of the following individuals:

- program director or chair;
- faculty member (chosen by the program director or chair); and
- program staff member (chosen by the student) OR current SAU student (chosen by the student)

Step 3: The program director or chair will notify the student of the scheduled meeting of the disciplinary committee. The student will be invited to submit a written response to the allegations no later than seven days prior to the scheduled meeting.

Step 4: Following receipt of the student’s response, the disciplinary committee will convene (face-to-face, teleconference, or other means) to discuss the matter and render a decision, which may result in:

- dismissal of the charges.
- allowing the student to continue in the program, pending compliance with specified conditions; or
- dismissal from the program.

Step 5: Within seven days of the committee’s decision, the program director or chair will notify the student of the decision in writing. A student may appeal this decision by following the appeal process below.

**Dismissal Appeal Process**

The student must initiate the appeal process within seven (7) business days after date on the written notification of dismissal. The appeal must be in writing and submitted to program chair/director, who will review the appeal and discuss the appeal with the appropriate committee, as needed. The program chair/director may request additional information from the student or the appropriate committee. The program chair/director will make a decision and notify the student in writing within fourteen (14) business days after receipt of the student’s appeal. At all times, the burden of proof is on the student. The program chair/director’s decision on reinstatement is final.

Appeal Process Delays: There may be exceptional situations in which an appeal may take longer than 14 business days for the department to investigate and make a final determination. If this is the case the department will notify the student at the 14 business day point as to the
status of the appeal, including an expected date for a determination to be made. Because this is a private university administrative hearing, legal counsel or representation is inappropriate.

**Readmission after Dismissal**

Students who have been dismissed may apply for readmission after one year has elapsed from the time of dismissal. Evidence to support the request for readmission must be submitted in writing to the program director or chair. The burden of proof remains with the student. Students reapplying under dismissal circumstances should verify their financial aid eligibility with the financial aid office. In addition, all University and departmental requirements for readmission must be met.

**GRADUATION REQUIREMENTS**

- Students must complete all curriculum and program requirements.
- Students in all graduate programs must have a 3.00 cumulative GPA (“B” average) to graduate from any of Spring Arbor University’s graduate programs.
- Some graduate programs have residency or other specific graduation requirements that students will need to complete before the degree can be conferred. (See program sections of this catalog or program handbook for details).

**COMMENCEMENT INFORMATION**

**Graduation Application**

Participation in Commencement requires a graduation application to be submitted approximately three months prior to the anticipated ceremony in which the student is eligible to participate (See Commencement Participation Eligibility). The graduation application does not guarantee eligibility to participate in Commencement. When applications are received, a graduation fee is assessed. If an application for graduation has been made and requirements are not finished as stated, students must reapply to graduate and an additional fee will be charged. Students who cannot complete their requirements by the anticipated date should send written notification to their respective program offices.

**Commencement Participation Eligibility**

Students are eligible to participate in the Commencement ceremony immediately following the completion of all degree and graduation requirements.

**Early Participation in Commencement**

Students who are enrolled in their final semester of coursework at SAU may be permitted early participation in a Commencement ceremony prior to their scheduled Commencement on the following conditions:

- The student has requested early participation from the advisor in writing within 6 weeks prior to the Commencement ceremony.
- The student has submitted the graduation application by the application deadline.
- The student has maintained a 3.0 from the point of matriculation into the program.
- The student meets all program-specific Commencement participation eligibility criteria and is cleared by the advisor. (If the advisor does not clear the student for participation, the student may petition the Office of Registration and Records for further consideration.)
• The student is cleared by the Office of Registration and Records.

Degrees will not be conferred for students who are granted early Commencement participation until all degree and graduation requirements are completed, and those students will not receive a diploma until after the degree is conferred.

**Degree Conferral**
The Office of Registration and Records notes the conferral of degrees on the transcript on the first of the month following the completion of all degree and graduation requirements, including final grades and any other required paperwork necessary to determine requirement completion. Students are considered graduated when the degree is conferred and not before, even if the student participated in Commencement ceremony.

**Diplomas**
Diplomas will be mailed to graduates within six weeks after the degree is conferred. Diplomas will not be released to graduates with outstanding financial obligations to the University.

**SAU TRANSCRIPTS**
Transcript requests must be made online at [www.arbor.edu](http://www.arbor.edu). Final transcripts denoting the degree conferred will be available within two weeks after the degree is conferred. Final transcripts will not be released to students with outstanding financial obligations to the University.

**TIME LIMITS FOR COMPLETING A DEGREE**
Graduate students at Spring Arbor University must complete all degree requirements within six years from the date of enrollment in the first class after the student is admitted to the program. A student may petition the program director for an extension, but there are no guarantees that the student will be permitted the extension.

**OVERLAPPING COURSES**
Students may apply credit hours successfully completed in one SAU master’s degree towards program requirements in another SAU master’s degree up to a maximum of 25% of the credit hours of the second master's program (generally 9 credit hours).

**GRADING SYSTEM**
Coursework will be assigned a letter grade that carries scholastic points. Plus and minus grades are intended to reflect more accurately the student’s actual performance in the classroom. Each letter grade is defined according to the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points</th>
<th>Grade Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
<td>Indicates excellent achievement.</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td></td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td></td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
<td>Indicates good work.</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
<td></td>
</tr>
</tbody>
</table>
### Academic Policies

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>C+</td>
<td>2.33</td>
<td>Indicates fair or average attainment.</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
<td>Indicates fair or average attainment.</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
<td>Indicates fair or average attainment.</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
<td>Indicates poor, barely passing work.</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
<td>Indicates poor, barely passing work.</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
<td>Indicates poor, barely passing work.</td>
</tr>
<tr>
<td>U</td>
<td>0.00</td>
<td>Indicates unsatisfactory work. No credit is given. The grade is calculated into the Grade Point Average (GPA).</td>
</tr>
<tr>
<td>AU</td>
<td>Not computed</td>
<td>No credit is received when a course is audited. A student may drop a course for credit and add for audit through the eighth week of the semester or the half-way point of any course that is not the length of the traditional semester. A course may not be changed from audit to credit.</td>
</tr>
<tr>
<td>H</td>
<td>Not computed</td>
<td>Indicates the course was taken as an honors course. Paired with a letter grade “A”-“U” above.</td>
</tr>
<tr>
<td>I</td>
<td>Not computed</td>
<td>Indicates incomplete work in a regularly scheduled course at the time the final grade was due. Incomplete grades are given only as a result of incomplete work due to illness or other emergency which presents obstacles for students to attend class, submit work or take exams. This grade is not intended for students to make up unsatisfactory work or incomplete/missing work due to student negligence. A change of grade form must be submitted by the instructor to resolve the “I” grade. The deadline to change an incomplete grade is six weeks after the end of the term in which the “I” grade is given. Instructors may submit in writing to the registrar’s office before the six-week deadline expires a request for a grade extension. If no grade is received by the six-week deadline or by the approved extended date, the “I” grade will be changed to a “U.”</td>
</tr>
<tr>
<td>IP</td>
<td>Not computed</td>
<td>Indicates work in progress. The “IP” may remain after grades are posted only for an independent study, internship, practicum, tutorial, exploratory experience or other special course as approved by the registrar. The IP grade must be removed within six months of the close of the term. Instructors may request extension in writing to the registrar’s office. If no grade is received or no extension is granted by the registrar’s office, the “IP” will automatically be changed to a “U.”</td>
</tr>
<tr>
<td>S</td>
<td>Not computed</td>
<td>Indicates satisfactory work equivalent to a grade of “C” or above. Credit will be given, but the GPA is not affected.</td>
</tr>
</tbody>
</table>
Academic Policies

W  Not computed  Indicates authorized withdrawal from classes. A student may withdraw from a course at any time during the semester. Withdrawals through the official withdrawal date (normally through the eighth week of a traditional semester or the half-way point of any course that is not the length of the traditional semester) will receive a grade of “W” on the transcript. A “W” does not affect the GPA. Withdrawals after this point will receive a grade of “UW.”

UW  0.00  Given after the last day to withdraw from a course as described in the “W” description above. A grade of “UW” on the transcript acts the same as a grade of “U” in GPA calculations.

Grades below “B” may be considered failing grades and the student may be required to retake the course for graduation requirements (see program-specific details).

Courses with a grade lower than “C” will not be counted toward graduation requirements.

Grade Appeals
Students wishing to appeal a final grade must do so within 30 days after the grade has been posted. At all times, the burden of proof is on the student. The following procedures must be followed.

Step 1: The student should confer with the instructor, stating his/her objections to the assigned grade and providing any relevant evidence. If both parties reach an agreement, the instructor has the right (but not the obligation) to change the submitted grade.

Step 2: If the student makes at least two unsuccessful attempts to contact the instructor and provides documentation of those efforts, or if contact is made but an agreement is not reached, the student may appeal to the program director in writing or by e-mail. The program director may consult with the school dean before making a determination on the student's appeal request.

Step 3: If the matter remains unresolved, the student may contact the Academic Affairs Office for the appropriate forms. Upon receipt of properly completed forms by the student, the Academic Affairs Office will convene a committee to review all materials and make a recommendation to the Academic Affairs Office. The final (and non-appealable) decision rests with Academic Affairs.

If the appeal is upheld, the originally submitted grade will be changed to “S” (satisfactory), which will remove that course from GPA calculations.

The appeal process can take up to three months. Because this is a private university administrative hearing, legal counsel or representation is inappropriate.

ACADEMIC POLICY APPEALS
If a student believes that the University has not followed published policies regarding academic decisions, the student may appeal the decision. The student must initiate the process within 30
days of the decision. At all times, the burden of proof is on the student. The following procedures must be followed.

Step 1: The student should confer with the individual who made the decision for a full explanation of the policy and how it was not followed.

Step 2: If the matter remains unresolved, the student may appeal to the program director in writing or by e-mail. The program director may consult with the school dean.

Step 3: If the matter remains unresolved, the student may contact the Academic Affairs Office for the appropriate forms. Upon receipt of properly completed forms by the student, the Academic Affairs Office will consider the appeal and render a final (and non-appealable) decision.

The appeal process can take up to three months. Because this is a private university administrative hearing, legal counsel or representation is inappropriate.

Master of Arts in Management and Organizational Leadership (MML)

MML PROGRAM DESCRIPTION
The Master of Arts in Management and Organizational Leadership (MML) program will prepare graduates for professional management and organizational leadership within for-profit and not-for-profit organizations, enhance opportunities to expand management related employment options toward the middle management level, and provide a values-based option for students seeking a specialized business master's degree in management and organizational leadership. The program is designed to help students understand and live out the SAU Concept through active participation in management and leadership within organizational environments. The curriculum emphasizes current and emerging organizational leadership and management theories and best practices.

MML MISSION AND GOALS
• To foster an environment that supports adult learners from diverse academic and professional backgrounds.
• To provide an ethical framework for management and leadership development within a competitive, global context.
• To develop the knowledge, skills, and abilities of students to manage human capital, manage the task environment, and lead effectively in organizations.
• To prepare students for critical participation as effective team players, managers, and leaders within organizational environments.

MML PROGRAM OUTCOMES
The program outcomes are categorized into six specific areas: critical thinking, decision making, effective communication, ethical perspective, leadership development, and problem solving.

MML POLICIES
In addition to the policies listed in the General Information and Academic Policies sections of this catalog, MML program has the following policies.

Transfer Credit
The MML program does not accept any transfer credit toward the 36 required credit hours for the degree program.

Master of Business Administration (MBA)

MBA PROGRAM DESCRIPTION
The Master of Business Administration (MBA) degree prepares students for successful participation in business and other organizations competing in domestic and international markets. Through the MBA curriculum, students gain knowledge of functional areas of business within a framework of service and stewardship and develop skills in critical thinking, ethical reasoning, analytical problem solving, effective communication, and decision making.

MBA MISSION
To develop successful professionals through the study and application of theories, concepts, principles, and methods of business administration informed by an ethical worldview.

MBA PROGRAM OUTCOMES
The MBA program is designed to help students understand and live out the SAU Concept through active participation in business and organizations. Students will integrate the Christian perspective and the discipline of business administration with an emphasis on stewardship and service. Students will gain mastery in business area knowledge, recognize the impact of culture and diversity on global business, and demonstrate skills in effective communication, professional collaboration, teamwork, critical thinking, ethical reasoning, and problem solving. Program outcomes are categorized into eight specific areas: knowledge, skills, scholarship, application, innovation, personal development, ethical perspective, and global awareness.

MBA POLICIES
In addition to the policies listed in the General Information and Academic Policies sections of this catalog, MBA program has the following policies.

Transfer Credit
The MBA program does not accept any transfer credit toward the 36 required credit hours for the degree program.

Multiple Concentrations
Before students complete the final Foundation course, they may petition to declare additional concentrations beyond the required 12 credit hour concentration in the MBA program. Petitions will be considered and granted or denied by MBA program personnel. In general, petitions for additional concentrations will be granted if the additional concentration includes at least one non-overlapping course to any combination of other concentrations. No course substitutions will be allowed for additional concentrations.

Grade Requirements
MSN-MBA students will follow the MSN minimum grade requirements in all MBA courses. See the MSN section in this catalog for details.
MBA CONCENTRATION COURSES – DELIVERED ENTIRELY ONLINE

**Healthcare Administration Concentration**
Develops management knowledge and skills necessary for healthcare professionals and builds business acumen required for effective health care leadership. The concentration courses focus on the complexities and trends in the healthcare industry by focusing on contemporary issues in healthcare administration, policy, economics, quality, and strategy in healthcare management.

**Human Resource Development Concentration**
Develops knowledge and skills necessary to leverage organizational human resources to improve individual performance and enhance organizational effectiveness. The concentration courses focus on helping student strengthen skills in problem-solving, strategic thinking, and critical analysis necessary for identifying and solving human-related issues within an organization. Prepares students to promote employee and organizational growth through individual and organizational learning.

**Management Concentration**
Develops skills necessary for effective traditional management in organizations. The concentration is designed for individuals interested in strengthening traditional business administration and management knowledge and skills.

**Organizational Consulting Concentration**
Develops a strong foundation in assessing, researching, and finding possible solutions to personnel, group/team/work unit issues, and organizational problems. The concentration is designed to help students develop requisite skills necessary for understanding, predicting, and influencing individual and group behavior in organizations as the foundation for leading effective organizational development and change initiatives. Organizational consultants apply behavioral science and organizational leadership principles in the work context to positively influence individuals, groups, and organizations.

**Executive Leadership Concentration**
Prepares business professionals to predict and influence individual and group behavior through executive and strategic leadership. The concentration is designed for organizational professionals already proficient in administrative management. Broadens knowledge and skills through executive and strategic leadership, executive and strategic planning, and advanced management focus.

Nonprofit Leadership and Administration Institutional Endorsement (NPL)

Those looking to lead within the nonprofit sector will find the 12-credit Nonprofit Leadership and Administration Institutional Endorsement valuable as it provides the skills needed to carry out the missions of nonprofit organizations, both secular and faith-based.

The institutional endorsement, offered exclusively online, is designed for all current senior level undergraduate students and all current graduate students with an interest in developing skills necessary for nonprofit administration. These courses will develop skill sets relevant to meeting the demands placed on nonprofit organization leaders such as budgeting, fundraising, market assessing, program evaluation and legal operating procedures. The student will also become familiar with working with governing boards, lobbying for legislation and moral leadership.

MASTER OF ARTS IN STRATEGIC COMMUNICATION AND LEadership (MSCL)

MSCL PROGRAM DESCRIPTION
The Master of Arts in strategic communication and leadership (MSCL) is a 36-credit hour program which brings both theoretical and Christian perspectives to bear on practical problems and provides a foundational understanding of communication through interdisciplinary foundation courses.

This program pairs students with mentors who are influencers in communication. Mentors share valuable insights, professional development tips and personalized support throughout the program. Working with a mentor, students develop the skills important to communication professionals. Students also individualize their program and develop a sustainable professional portfolio and growth plan.

MSCL MISSION AND GOALS
- To provide quality online graduate education in communication in a format that minimizes disruption to family or current employment.
- To provide a learning environment that fosters critical thought, scholarship and praxis such that the learners who complete the program become transforming communicators and communication specialists within their spheres of influence.
- To establish a forum grounded in biblical foundations for reflection, thought, research and publication on Christian worldview issues related to communication, thereby influencing the leadership of organizations throughout the world.

MSCL PROGRAM OUTCOMES
The MSCL program will assist students to
- integrate the Christian faith with the field of communication through critical thinking, research, writing and learning from the normative base of a Christian worldview,
- experience education in the virtual communication environment,
- explore multidisciplinary approaches for enhancing culture and human development from a values-based perspective grounded in communication skills, knowledge and practice,
- develop and exchange concepts for understanding and improving communication and communication-related activities within organizations and industries around the world, and
- experience innovative learning situations, which will enable students to acquire the knowledge, dispositions and abilities required of leaders in any organizational setting.

MSCL PROGRAM COMPETENCIES
- How to create messages that are well-crafted and audience-tuned.
- How technologies create new ways to serve people.
- How to assess your own leadership strengths and weaknesses.
• How to build effective teams and expand personal and institutional networks.
• How to conduct, analyze and apply communication-related research.
• How to articulate a Christian perspective regarding communication practice and principles.

**MSCL Admissions Requirements**
In addition to the general admission requirements listed at the beginning of the graduate catalog, the following requirements are mandatory for acceptance into MSCL. Applicants must submit
• two recommendations from professional and/or academic individuals,
• one recommendation from a member of the clergy or a spiritual mentor in your faith community,
• a recent writing sample (a published magazine, newspaper, or journal article, an undergraduate or graduate research paper, or a work-related proposal),
• a personal goals statement of two pages or less in which you briefly describe your personal or professional goals as they relate to graduate studies in communication at a Christian university.

The 22-hour certificate program is suitable for those who wish to document their professional growth or expertise for advancement in their profession or who simply desire to better understand communication issues. Students in the certificate program are not eligible for federal financial aid.

**MSCL POLICIES**
In addition to the policies listed in the General Information and Academic Policies sections of this catalog, MSCL program has the following policies.

**Registration**
Students are responsible for registering online and ordering textbooks online. A course plan is developed in conjunction with an academic advisor.

**Independent Study**
Subject to approval by their academic advisor and the sponsoring faculty member, students may take up to two independent study courses.

**Assessment**
As part of an ongoing assessment program, students will complete evaluations for each course and provide representative work and a self-assessment to an online portfolio.

**Spiritual Development**
The University is committed to supporting spiritual development for all students, including graduate students in both traditional and online programs. Department faculty have experience and training in pastoral care and spiritual direction. Students may request prayer, and faculty may be available for spiritual formation mentoring.

**MSCL PROFESSIONAL ePORTFOLIO**
Throughout the online master's in strategic communication program, students build a professional ePortfolio. This digital portfolio serves as a place to collect, reflect upon and collate
creative assets based on their individual learning experiences at Spring Arbor University Online. Upon graduation, the ePortfolio becomes a powerful and shareable resource for career advancement.

SCHOOL OF EDUCATION

General Information

SCHOOL OF EDUCATION PURPOSE
Graduate programs in education exist to carry out the educational mission of Spring Arbor University, promoting scholarship, integrity, the Christian ethic, enrichment of the liberal arts experience, and a life of meaningful service in educational endeavors for the participants. The programs are intended to promote collaboration among education professionals and their communities and to meet the needs of candidates who are interested in professional growth and advancement in Early Childhood, Elementary, Secondary, Special Education, Reading or Teaching English as a Second Language.

SCHOOL OF EDUCATION PHILOSOPHY
Graduate education programs stress integrity, ethical decision making, respect for self and others, disciplined judgment, critical thinking, and professional skills. The SOE seeks to develop educators who demonstrate a high level of academic ability and display the effective interpersonal, collaborative, motivational, instructional and leadership skills required for the successful education professional. Our programs balance practical applications with theory and research. Students can develop the attitudes and skills necessary to improve their performance in current positions or as they move into new career positions.

SCHOOL OF EDUCATION PROGRAM OUTCOMES
Graduate program and course goals are based on the conceptual framework of the effective teaching model of the School of Education of Spring Arbor University. The School of Education’s Effective Teaching Model contains six integrated elements centered on the integration of faith and learning. The elements are designed to enhance four overarching professional goals, as illustrated in the logo below.

The domains of the knowledge base used for this model are as follows:
Content Knowledge
SOE graduate students acquire advanced content knowledge in educational practice through a Master of Arts in early childhood (MAEC), Master of Arts in reading (MAR), Master of Arts in teaching English to speakers of other languages (MATESOL), or Master of Special Education in learning disabilities OR autism spectrum disorder (MSE). Students in all SOE graduate programs examine and strengthen the basis for their personal and professional worldview and think critically to respond to critical issues in education, including ethical dilemmas and conflicting worldviews.

Collaboration with Stakeholders
The primary focus of this domain is engaging with families and other stakeholders in the instructional process. Students are expected to interact effectively with colleagues, families, students, administrators, counselors, support personnel and other constituencies to benefit themselves and advance their own professional development. For educational professionals, collaboration extends to professional organizations and legislative actions as well.

Management and Organization
SOE graduate students develop effective management and organization skills, including an understanding of individual and group motivation and behavior to establish communities of learners, positive social interactions, active engagement in learning, and self-motivation in the learner.

Diversity
Graduate educators understand how their students differ in their approaches to learning and create instructional opportunities that are adapted to diverse populations of learners. The concept of diversity in a global society is a special focus of graduate education at SAU. Graduate students understand that culture, language, race, ethnicity, gender, religion, cognitive and physical abilities and socioeconomic status all have an impact on learning and development in important ways. SOE students learn about issues of equity and developing an inclusive environment.

Pedagogy
Graduate educators demonstrate methods of instruction that apply various theories of learning and human growth and development to the educational context and incorporate appropriate use of instructional technologies in the classroom. Graduate students create meaningful instruction based on knowledge of the subject matter, prior knowledge and experiences of the students, values of the community, and curriculum goals of the school district.

Assessment
Today’s educators face a difficult tension. They must constantly reconsider the wisdom of traditional practice while also considering new approaches. SOE graduate students synthesize elements of traditional and new assessment techniques into coherent effective assessment strategies that advance the continuous intellectual, social, and physical development of the learner. Assessment includes student assessment and self-assessment. An emphasis on uses of assessment data in K-12 schools assists educators in evaluating instruction and incorporating new pedagogies to address identified needs.
MICHIGAN DEPARTMENT OF EDUCATION REQUIREMENTS

Michigan Department of Education Early Childhood Endorsements
These endorsements are in compliance with Michigan Administrative Rules for Early Childhood. For more information, please go to the Michigan Department of Education website at this link:

Michigan Department of Education Special Education Endorsements

Michigan Department of Education Reading Requirement
In compliance with PA 32, the Michigan Department of Education requires an advanced reading course as a requirement for the Professional Certificate. For those holding a Michigan elementary certificate, EDU 624 meets this requirement. For those holding a Michigan secondary certificate, EDU 625 meets this requirement.
https://www.michigan.gov/mde/0,4615,7-140-5683_14795_83465-456822--,00.html

ENDORSEMENTS
Endorsements can only be added to valid Michigan teaching certificates. Students holding certificates from other states must work with their certifying institution. Please see program specific information for endorsements offered at Spring Arbor University.

SCHOOL OF EDUCATION ADMISSIONS REQUIREMENTS

In addition to the general admission requirements listed for all graduate students in the Admissions portion of this catalog, the following requirements are mandatory for acceptance into all School of Education graduate programs. Applicants must submit the following information.
- Contact information for two references
- Teacher certification information
- Misdemeanor/felony conviction disclosure

Note: Grades earned after the bachelor's degree may be considered in admission decisions.

Additional admissions requirements for specific SOE programs are detailed in the sections for each program.

SCHOOL OF EDUCATION POLICIES
In addition to the policies listed in the General Information and Academic Policies sections of this catalog, the SOE has special policies for SOE students as listed below and final decision is at the discretion of the program director and School of Education dean.
Academic Advising
Students in a degree-seeking program may consult with a graduate program academic advisor, the certification officer or graduate education faculty and staff for advising assistance. However, it is the student's responsibility to track their degree requirements toward graduation.

Minimum Competency in Computer Technology
Graduate education course design assumes that students can effectively use word processing programs, spreadsheets, presentation software (including PowerPoint), Internet browsers and search engines, and library databases. Remediation in these basic skill areas will not be provided during these courses. Students with concerns about their technology skills are encouraged to seek help before taking classes at Spring Arbor University. To assist students with concerns about technology skills, the University offers the free two-week EDU060 course for training in online learning offered prior to each semester and/or an introductory undergraduate computer course (CPS 150 Introduction to Computers). Other outside resources (such as online tutorials) can be utilized to assist students with technology skills and questions.

Online Orientation Preparation and Waiver
EDU 060 Orientation to Online Learning (no fee, no credit) is recommended for students to complete prior to enrollment in online graduate education courses. Students with prior experience in online learning may choose to waive this course. EDU 060 is offered two weeks prior to the start of each program. Students desiring more information about online learning and practice with the elements of Spring Arbor University's online learning management system should register for this course (can be repeated if students desire additional support).

Transfer Credit
In addition to the University transfer credit policies for all graduate programs, along with official transcripts, applicants must provide course syllabi and/or official catalog course descriptions for each course for which they are requesting transfer credit.

Misdemeanor and Felony Disclosure
Due to state employment and reporting regulations, applicants must answer questions regarding past or pending misdemeanors or felonies as an adult or juvenile. Falsification of information will be considered fraud and my result in denial of admission or revocation of prior admission to the University and/or SOE. Furthermore, falsification of information could result in denial by the Michigan Department of Education (MDE) for future certification and/or revocation by the MDE of current certification. Individuals with questions regarding this information should contact the certification officer in the School of Education.

Classroom Access
Many of the courses in the SOE graduate programs assume that students are currently classroom teachers and have access to K-12 students, classrooms and schools. Graduate students should be affiliated with a school in some manner (teacher, counselor, administrator, parapro, etc.) to truly maximize their experience in the program. Many courses include working with P-12 students or teachers to fulfill course assignments, i.e., case studies, demonstrating lessons, surveying teachers, interviewing peers, conferencing with students, etc., and because of the strong clinical component, graduate students not currently placed in a classroom or are not working in a school setting may find it challenging to fulfill certain course requirements. Please note: faculty may not be able to assist with school placements, find alternative assignments, or make modifications to the coursework for students without a school placement.
Graduation Requirements
In addition to graduation requirements for all graduate students in any SAU program found in the Graduation Requirements section of this catalog, the SOE places these additional requirements for students graduating from an SOE graduate program:

- No more than two courses with a grade of "C" may be counted toward graduation requirements.
- Successful completion of all other requirements for graduation specified in this catalog, the School of Education, and University policy.

DISCLAIMER: Due to configurations of courses, changes in course hour requirements, or certification requirements, it is possible for a student to accumulate more than the required credit hours for an SOE graduate degree. The listed credit hours are the minimum for completion of a specific degree.

Workshop Registration/Withdrawal Policy
If a student is planning to obtain graduate credit for any workshops offered by the University, the student must register and pay the appropriate tuition rate at the first class session. Once students register and pay for the workshop, the University will not honor withdrawals, drops, or tuition refunds under any circumstances. Workshops will only be offered until December 2019 at which time this policy will end.

Non-Degree Seeking Applicants
Non-degree seeking applicants must submit the following:

- Official transcripts verifying an earned bachelor’s degree from a regionally accredited college or university
- Misdemeanor/felony conviction disclosure
- Michigan Certification information or a copy of teaching certificate (if issued by a state other than Michigan)
- A completed Application for Admission for Post-baccalaureate & Graduate Studies

Guest Students
Applicants who are currently enrolled at another university may enroll as a guest student for up to 6 credit hours. Guest students may enroll in one course at a time. A 3.0 ("B" grade) or better in the first course permits registration in the second course as a guest student.

MASTER OF ARTS IN COUNSELING (MAC), SCHOOL COUNSELING TRACK
This K-12 program is available through the School of Behavioral Sciences in conjunction with the School of Education and is designed for students who desire a master’s degree with a concentration in school guidance counseling in order to obtain a School Counseling License (SCL) from the State of Michigan. (See the MAC section of this catalog for more information.)
Master of Arts in Early Childhood (MAEC)

MAEC PROGRAM DESCRIPTION
The Master of Arts degree in early childhood (MAEC) prepares students to work with young children ages birth to eight years old. As a specialty program, the MAEC builds information and strategies into the curriculum that specifically address the concerns related to young children who are struggling readers and those with difficulty in self-regulation and challenging classroom behavior. The goal of the MAEC program is to equip teachers of students in preschool through third grade to challenge young learners and to develop skills and strategies to become successful professional educators with a focus on young learners.

**Early Childhood (ZS) Endorsement**
Upon completion of the program, students who desire to add the early childhood endorsement (ZS) must take and pass the Michigan Test for Teacher Certification (MTTC) for Early Childhood (Test ZS #106).

Master of Arts in Reading (MAR)

MAR PROGRAM DESCRIPTION
Standards initiatives at the state and national level have increased the need for literacy leaders in P-12 education. Because reading affects every aspect of student achievement, this degree is highly desirable in P-12 education and for teachers who wish to increase their effectiveness as educators. This degree provides educators with the knowledge and skills to plan, lead, and support P-12 literacy initiatives. This program prepares teachers to assume roles in education that enhance both the reading specialist profession and student achievement in reading. This MAR program is designed for certified teachers who wish to obtain a master’s degree and add a BR (Reading Specialist) endorsement. Students complete the program will be prepared with the knowledge and skill set prior to taking the MTTC (#92) for the reading specialist endorsement.

Reading (BR) Endorsement
Teachers who complete the MA in reading program and pass the MTTC test for the reading specialist endorsement (#92) as required by the Michigan Department of Education can add the BR endorsement to their teaching certificate. The endorsement test should be taken after all coursework in the MAR is complete.

MAR ADMISSIONS REQUIREMENTS
In addition to admission requirements for all graduate programs and SOE graduate programs, MAR applicants must submit the following information: a) a writing sample, and b) professional and a personal recommendation.

Master of Special Education (MSE)

In Autism Spectrum Disorders
In Learning Disabilities

MSE PROGRAM DESCRIPTION
The master's degree in Special Education is designed for certified teachers who work with students challenged by disabilities or for non-certified individuals who work in a profession where a deep knowledge of individuals with disabilities is required. This program prepares educators to take a leadership role in the field of special education. The MSE includes the choice of a concentration in 1) learning disabilities (LD) or 2) autism spectrum disorder (ASD). Both concentrations lead to an endorsement on an existing Michigan teaching certificate when the course requirements are successfully met and the appropriate Michigan Test for Teacher Certification is passed.

MSE PROGRAM OUTCOMES
- To enhance the professional knowledge and skills of special educators.
- To enable the participants to apply analytic and research skills to the solution of current problems faced by special educators.
- To provide special educators with the opportunity to examine and/or strengthen their basis for dealing with questions of ethics and values.
- To provide special educators with the opportunity to acquire, refresh, or expand their knowledge of the role of research in education.
- To provide special educators with the opportunity to acquire the leadership, classroom management, technological, and instructional skills necessary to meet the increasing demands of exceptional students.
- To equip special educators in methods of assessment and instruction to provide appropriate interventions for students struggling in reading, math, and other subject areas.
- To prepare special educators to understand language and behavioral challenges and develop effective strategies and interventions.

Master of Arts in Teaching English to Speakers of Other Languages (MA TESOL)

MA TESOL PROGRAMS DESCRIPTIONS

Master of Arts in TESOL: K-12 Track
This program prepares currently certified educators in K-12 settings to better serve and teach English to native speakers of other languages. The program meets the requirements for the English as a Second Language (ESL) endorsement on a Michigan Teacher Certificate. This program is offered completely online.

The MA TESOL (K-5, K-8 or 6-12 education) is a 30-credit hour program. Michigan teachers seeking the ESL endorsement through this program will also need to pass the Michigan Test for Teacher Certification (MTTC) test for ESL (NS). To obtain the ESL Endorsement teachers must also have 30 credit hours in Elementary Education, Science, Social Studies or Math. Foundation courses in the MA TESOL program qualify Michigan teachers to sit for the MTTC for the ESL endorsement on a Michigan teacher's certificate and can be applied toward the 30-credit MA in TESOL in K-12 education track.

ESL (NS) endorsement applies to your level of certification whether K-5, K-8 or 6-12. Twenty-four credit hours for the ESL (NS) endorsement are required.

Master of Arts in TESOL K-5, K-8, 6-12 Endorsement
A copy of Michigan teacher certification is required. To complete the ESL Endorsement program, candidates in Michigan will have to pass the MTTC test for ESL (NS) after taking the 24 required credit hours in the endorsement track. Applicants must also have 30 credit hours in Elementary Education, Math, Science, Social Studies or Language Arts. Candidates must provide evidence of the study of a foreign language for two semesters at the undergraduate level. Students who are certified to teach in a state other than Michigan will need to work with that state’s requirements for ESL certification. Please see www.arbor.edu for more information.

Master of Arts in TESOL: Adolescent and Adult Education (AAE) Track
This program prepares candidates with a baccalaureate degree in any major to teach English in non-K-12 settings, either in the USA or abroad. The MA in TESOL AAE track is suited for students without K-12 teacher certification but with B.A. or B.S. degrees from accredited institutions with a major in a wide variety of fields of study, including science, technology, arts, etc. Students in this track may be interested in teaching English in universities or community colleges in the U.S. or abroad, in middle schools and high schools in some countries, or in after-school English language programs for elementary children in non-English speaking countries. Graduates may also teach in ministry-based settings primarily with adult students in the U.S. or abroad. This program is offered completely online.
MA TESOL PROGRAM OUTCOMES

- To apply knowledge and understanding of how cultural groups and students' cultural identities affect language learning and school achievement.
- To use language development knowledge to create a supportive classroom-learning environments that includes opportunities for interaction and negotiation of meaning in English.
- To provide educators with the opportunity to develop a sound basis for dealing with questions of ethics and values.
- To use standards-based practices and strategies related to planning, implementing, and managing content instruction, including the use of critical thinking skills for English learners.
- To provide educators with the opportunity to develop the leadership skills necessary for developing collaboration among the constituencies in the local community and with state and national education professionals.
- To equip educators to meet the needs of an increasingly diverse student population.
- To prepare educators for new professional service and leadership roles.

MA TESOL Admissions Requirements

In addition to the general admission requirements for graduate programs, the MA TESOL specific program admission requirements are as follows:

- Official transcripts verifying a bachelor’s degree from an accredited institution in the United States, England, Canada, or from an institution where the language of instruction was 100% in English;
- A minimum GPA of 3.0 on a 4.0 scale;
- Writing sample essay;
- Candidates who are native English speakers seeking the ESL endorsement on their Michigan Teaching Certificate must provide evidence of the study of a foreign language (two semesters at the undergraduate level).

SCHOOL OF NURSING AND HEALTH SCIENCES
Master of Science in Nursing (MSN)

MSN PROGRAM DESCRIPTION
The Master of Science in Nursing (MSN) program provides comprehensive academic instruction in an interactive online community. A comprehensive online orientation to graduate education and the MSN program is provided prior to the first course. During Advanced Health Assessment (NUR 602) students come to campus for hands-on practice, a demonstration of parts of the exam, and to check off the full history and physical exam. The program offers four areas of specialization: MSN nurse educator, MSN/MBA dual degree, MSN adult-gerontology primary care nurse practitioner, and MSN family nurse practitioner.

MSN MISSION STATEMENT
To provide quality nursing education within a Christian liberal arts university that prepares the professional nurse to contribute service and leadership to diverse communities.

MSN PROGRAM PURPOSE
The Master of Science in Nursing (MSN) program prepares students to further their professional career as an educator, administrator, or nurse practitioner. The graduate curriculum incorporates nursing specific knowledge with skills and knowledge from other disciplines in a manner that promotes excellence in service, a passion for nursing as a profession, and compassionate care. As a Christian liberal arts university, nursing is recognized as a calling.

School of Nursing Education Model
This model serves as a guide for program goals and outcomes.

MSN PROGRAM GOALS
The overall goal of the MSN program is to graduate students who use their faith to interpret and excel in professional skills, critical reasoning, ability to apply theory, to practice from an
School of Nursing and Health Sciences

Evidence base and contribute service and leadership in diverse communities. The specific goals of the MSN program are

- to integrate faith and learning in the classroom and nursing practice,
- to advance professional skills and develop the ability to create new roles in nursing practice based on advanced education and supervised experience,
- to apply critical reasoning as demonstrated by intellectually disciplined conceptualization, application, analyzing, synthesizing and evaluation by informed reflection, observation and communication,
- to integrate relevant theories into outcome-based practice applications, and
- to apply evidence-based practice, designed to improve health and well-being.

MSN Program Outcomes
Upon successful completion of the program, students will demonstrate the following outcomes.

- Demonstrate a sophisticated understanding of advanced clinical reasoning and incorporated concerns for family, significant others, and communities into the design and delivery of care using a variety of theories, frameworks, and related sciences to improve practice and the care environment. (MSN-Ess I)
- Foster professional role development through leadership and collaborative efforts for improved health outcomes and advanced nursing practice. (MSN-Ess II)
- Challenge current practices, procedures, and policies through the design and implementation of evidence-based practice strategies to advance nursing practice roles and improve health outcomes across the continuum of care. (MSN-Ess IV)
- Integrate and lead quality improvement initiatives to enact change in organizational effectiveness and improve health outcomes across the continuum of care. (MSN-Ess III)
- Prioritize outcome improvements and goals and standards that impact safe and effective care for improved healthcare delivery across the continuum. (MSN-Ess III)
- Evaluate and implement information and patient care technologies to promote positive health outcomes and quality care initiatives. (MSN-Ess V)
- Influence the delivery of care to diverse populations through the application of professional skills that demonstrate leadership, comprehensive and systematic assessment, and decision-making. (MSN-Ess IX)
- Develop practices that integrate the Christian worldview and nursing science concepts with application of leadership principles in assignment and practicum experiences to safeguard autonomy, advocate for social justice, and develop health-promoting policies that empower self and others. (MSN-Ess VI, IX)
- Develop competency in professional communication skills to participate and lead collaborative initiatives to manage and coordinate care across healthcare systems and in the broader community. (MSN-Ess VII)
- Analyze and implement clinical prevention and population health concepts using evidence-based health education, communication strategies, and interventions to improve health outcomes and advance nursing practice for diverse populations. (MSN-Ess VIII)

MSN Student Expectations
Graduate nursing students are expected to

- adhere to all Spring Arbor University lifestyle distinctives while engaged in academic or clinical activities;
• demonstrate professional nursing behavior as prescribed by the American Nurses Association (ANA) Nursing: Scope and Standards of Practice; and ANA Code of Ethics;
• promote a learning environment for self and others that is conducive to accomplishment of the Essentials of Master’s Education for Advanced Practice Nursing (AACN) and the nursing program outcomes;
• actively engage in promoting a positive online community learning environment;
• demonstrate accountability and responsibility in the academic and practice arenas,
• value and respect the contributions of others;
• take responsibility for being an autonomous, self-directed learner;
• communicate with colleagues and faculty in an effective, professional manner that supports positive learning outcomes, and;
• display a caring, compassionate approach to all within the learning and practice environment.

MSN SPECIALTY TRACKS
The MSN program requires 27 credit hours (nine 3-credit hour courses) of foundation graduate nursing education for all students in addition to one of the four following concentrations.

Master of Science in Nursing, Nurse Educator
This concentration requires courses in education in addition to the foundation courses. This concentration prepares graduates for advancing nursing practice and for nurse educator roles in patient education, staff nurse education, and pre-licensure nursing education in academic settings. Graduates gain an effective foundation to prepare for the NLN certification exam upon completion of this program (CNE).

Master of Science in Nursing and Master of Business Administration
This concentration requires students to complete foundation nursing courses with subsequent admission to the SAU School of Business. The MBA track offers several areas of concentration to complete the dual degree.

Master of Science in Nursing, Adult-Gerontology Primary Care Nurse Practitioner
This concentration requires courses with emphasis on adult health promotion, disease processes and primary care in addition to the foundation courses plus 8 credit hours of supervised clinical practice (500 **clinical practice clock hours). This concentration prepares graduates for the APRN role in primary care with the adult and late teenage population. Graduates are prepared to take a national certification exam for A-GNP.

Master of Science in Nursing, Family Nurse Practitioner
This concentration requires courses with emphasis on health promotion, disease processes and primary care across the lifespan in addition to the foundation courses plus 10 credit hours of supervised clinical practice (625 **clinical practice hours). This concentration prepares graduates for the APRN role in primary care with families across the lifespan. Graduates are prepared to take a national certification exam for FNP.

** Clinical practice hours are defined as the actual time spent caring for/working with a patient at the bedside (typically one patient seen per hour).
**RN-MSN PROGRAM**
This SAU program is a fast-track option for highly qualified nurses with a diploma or an Associate Degree in nursing from an accredited program who want to move straight into a master’s degree program. Two bridge courses (NUR 510 and NUR 522) fulfill requirements for both the BSN portion of the program and those courses in the graduate program. In order to progress on in the MSN program, students must have a GPA of 3.0 at the completion of NUR 522. To view the course descriptions for the BSN portion of the program, see the Spring Arbor University Undergraduate Catalog.

Similar to MSN applicants, RN-MSN applicants apply to one of the four specialty tracks listed above and are prepared as advance practice nurses.

**MSN ADMISSIONS REQUIREMENTS**
In addition to the general admission requirements for graduate programs, the MSN specific program admission requirements are as follows:
- A BSN (or RN for RN-MSN applicants) degree from a regionally accredited institution and nursing program (CCNE or NLN);
- Official transcripts from all institutions of higher education attended;
- A 3.0 GPA calculated from the most recent 60 academic credit hours;
- An unrestricted, unencumbered RN license from the state or country in which the nurse practices (Note: License must remain current throughout program);
- Two letters of recommendation (one from nursing professional; one either character or academic related);
- A satisfactory score on a 2-3-page personal goal statement.

Note: A conference call interview may be required at the discretion of the Admission Committee.

**MSN PROGRAM POLICIES**
In addition to the policies listed in the General Information and Academic Policies sections of this catalog, MSN program has the following policies.

**Program Format**
Students matriculate through the MSN program in a cohort, which promotes interaction with professionals from diverse backgrounds and offers a sense of community as students grow to know each other. Didactic courses are typically taken one at a time in a particular sequence designed to improve learning and preparation for courses and/or clinical experience to follow.

**Progression of Studies**
The MSN program has identified prerequisite courses that must be passed satisfactorily or with a passing grade of at least “B-” to continue in the program.

- Students must complete NUR 510, NUR 522, NUR 532, NUR 551, NUR 612 and NUR 618 with a passing grade before registering for NUR 602.
- To begin a NUR 680 clinical practicum or NUR 660, students must complete NUR 612, NUR 618 and NUR 602 with a passing grade.
School of Nursing and Health Sciences

- Students must complete NUR 551 with a passing grade before registering for NUR 681 or NUR 660.
- Any student who temporarily leaves the nursing program must meet requirements of the catalog in effect at the time of readmission.

Due to the academic and professional behaviors required of advanced professional nurses, the expectation is for all students to comply with American Nurses Association (ANA) Scope of Practice and Code of Ethics. A student may be dismissed from the program for a serious violation of these standards. An appeals process is outlined in the university catalog and in the MSN Student Handbook.

Program Prerequisite Requirements
Courses or documented knowledge must be completed prior to beginning NUR 551 in the following areas:
- Research – Nursing related, e.g. NUR 452 (SAU course)
- Statistics – 200 level or above

Note: For acceptable proficiency exams or courses, check with the program director or chair.

Practicum or Clinical Experience
Prior to the start of any clinical practice or as required by an institutional setting, there must be proof of compliance with all agency or institutional requirements. It is the responsibility of the registered nurse graduate student to maintain currency of records. Requirements may include but are not limited to the following:
- Current unrestricted, unencumbered RN license in the state or country of practice;
- Proof of professional nursing liability insurance coverage throughout the enrollment period (minimum of $1 million - $3 million);
- Criminal Background Check at the Federal or International level*;
- CPR/BCLS certification as required, proof of TB testing, any required immunizations, vaccinations, HIPPA training, others as required.

*The Joint Commission on Accreditation of Healthcare Organizations (JCAHO) institutes regulations in order for hospitals, home health agencies, clinics, etc. to gain or maintain accreditation status. One of these regulations requires that “all persons who are involved in patient care activities, i.e., employees, volunteers, and students must have criminal background checks as well as other health care related checks”. Criminal background checks must be initiated by the student and completed prior to beginning any clinically-related practicums.

The student is responsible for all financial obligations and transportation related to the associated agency or institutional requirements and must maintain current records in the nursing department. Noncompliance with any agency requirements may result in program delay or academic withdrawal.

Approval for commencing with practicum or clinical experience is based on a comprehensive review of academic performance, successful completion of all prerequisite and foundation course requirements, and program approval by the academic advisor in conjunction with the nursing department.
**MSN Grade Requirements**

In addition to institutional requirements, MSN students must meet the following criteria to complete the nursing program. (Students in the MSN/MBA program should consult the MBA portion of this catalog regarding graduation requirements, for grading requirements follow MSN).

- A minimum letter grade of “B-” is required as a passing grade for all NUR courses. A grade of “C+” or below is considered unsatisfactory for NUR courses and does not count toward the MSN degree.
- If a student receives a grade of “C+” or lower in a nursing course, it may be repeated one time. Students may only repeat one course and remain in the program.
- Clinical practicum courses are graded as Satisfactory (S) or Unsatisfactory (U). The clinical practicum may also be repeated once if a student receives an unsatisfactory grade and has no other unsatisfactory grades in previous courses within the program.
- Though a student’s GPA will be improved with a subsequent passing grade of a repeated course, the original grade below the minimum passing requirement stands with regard to program progression should the student earn another unsatisfactory grade in the program. A second unsatisfactory grade, whether in a clinical or didactic course, will result in dismissal from the program.

SCHOOL OF SOCIAL SCIENCES
Master of Arts in Counseling (MAC)

MAC PROGRAM DESCRIPTION
The Master of Arts in Counseling (MAC) is accredited by Council for Accreditation of Counseling and Related Educational Programs (CACREP). MAC provides a comprehensive academic instruction and clinical experience for students interested in helping others in a counseling setting. This program helps students integrate professional ethics, multiculturalism, interpersonal skills, and counseling theory and practice within a Christian perspective.

The MAC program offers two tracks. The clinical mental health (CMHC) is a 60-credit hour degree program, and the school track is a 66-69 credit program, both of which include a 100-hour practicum and a 600-hour internship. Both programs are CACREP accredited. Students interested in gaining a broader range of experiences may elect to pursue a dual track and, consequently, to complete an internship in both a school and a clinical mental health setting. Both internships must be 600 hours in length to meet CACREP accreditation standards. This will lengthen the student's program by up to a year and will add an additional six (6) credits to the total number of credit hours.

MAC MISSION STATEMENT
The mission of the Master of Arts in Counseling program is to prepare graduate-level, professional counselors who are committed to excellence in community service. The counseling program provides a liberal arts education based on a Christian perspective that promotes respect for the diversity of each person as uniquely created by God. A balanced development of the individual's spiritual, mental, physical, and social/emotional needs is encouraged based on the example of Jesus Christ, the master counselor.

MAC FAITH INTEGRATION STATEMENT
With Jesus Christ as the foundation and focus of learning and practice, the Master of Arts in Counseling program encourages the development of its students toward ethical, competent, and professional practice with the individuals, families, and communities they serve. The learning regimen and educational objectives of this program are crafted with the intent of preparing the student to fully engage with the varied opportunities which exist in the field of counseling, and supported by a clear and compelling Christian witness. The over-arching vision of this program incorporates a clear understanding of the identity of Jesus Christ and a desire to follow biblical mandate to imitate His life and share His witness. The foundational motivation supporting the program design and delivery comes from the admonition to honor Jesus Christ in the process.

The program strives to produce a learning environment in which students are able to gain the counseling knowledge, experience, and competence required for professional status and practice, and are supervised and supported by faculty and staff who share and demonstrate Spring Arbor University’s Christian perspective.

MAC PROGRAM OUTCOMES
The Master of Arts in Counseling program will prepare students who can:
1. Demonstrate foundational knowledge of how a Christian faith perspective can be integrated into their personal and professional development as counselors (Faith);
2. Demonstrate foundational knowledge of the history, philosophy, appropriate ethical standards, and current and future trends in the counseling profession, and who use this knowledge to develop a professional counseling identity (Professional Orientation and Identity);

3. Recognize, understand, and respond to multicultural issues in the context of theories of multicultural counseling, attitudes, beliefs, and acculturative experiences, relationships, social justice issues, and pluralistic trends in a multicultural society (Social and Cultural Diversity);

4. Demonstrate foundational knowledge of theories of human development, including normal and abnormal development across the life span, and who can use this knowledge to design, implement, and evaluate developmentally appropriate counseling interventions and programs (Human Growth and Development);

5. Demonstrate an understanding of the major career development theories, models, and careers assessment instruments and techniques, and who can use this knowledge to effectively assist clients in career planning and decision making in both academic and clinical environments (Career Development);

6. Apply their knowledge and understanding of counseling theories, counseling techniques, a consultation framework, crisis intervention methods, and wellness and prevention approaches to work effectively with clients in a variety of modalities i.e., individual, group, family (Helping Relationships);

7. Demonstrate effective group leadership techniques, based upon knowledge of group theory, dynamics, and developmental tasks with diverse clients in the clinical mental health setting or students in school setting (Group Work);

8. Demonstrate knowledge and skill in selecting, administering, interpreting, and reporting results of standardized and non-standardized assessments for individuals and groups while recognizing issues of diversity (Assessment);

9. Read, critique, and utilize professional research literature to inform evidence-based practices with client (clinical mental health setting) or student (school setting) interventions, and for program development, evaluation, and modification (Research and Program Evaluation); and

10. meet additional curricular objectives specific to their specialization area in the areas of prevention, intervention and treatment, diversity and advocacy issues, assessment, research and evaluation, and program development and management (Specific Program Area Students).

MAC PROGRAM ADMISSIONS
The Master of Arts in Counseling Department at Spring Arbor University is strongly committed to diversity. We genuinely encourage applicants from members of historically underrepresented groups of all God's peoples - and all who will assist us with achieving and maintaining our mission of a diverse and inclusive academic community. Applicants from a variety of undergraduate disciplines may apply to this program, although a degree in counseling, psychology, or related field may be the best preparation for the program. While the MAC program is not a biblical or Christian counseling program, curriculum is taught from a Christian perspective.
MAC ADMISSION REQUIREMENTS
In addition to the general admission requirements listed at the beginning of the graduate catalog, the following requirements are mandatory for acceptance into MAC program. Applicants must have:

- A successful interview with the Chair of the MAC program and/or designees, which includes the completion of a personality inventory;
- Successful completion of an on-site writing assessment, demonstrating proficient computer, reading, and writing skills;
- A completed Misdemeanor and Felony Disclosure Form;
- A criminal background check will be completed on each student early in the program, and again just prior to the Clinical Experience. Criminal findings may result in dismissal from the MAC program; and
- Submitted a Statement of Purpose Essay (1-2 pages) detailing reasons for pursuing this counseling degree, relevant career goals, and the track to which the individual is applying. School counseling track applicants should include relevant experience with school-aged youth, i.e., scouts, 4-H, youth group, and/or other.

NOTE: A resume or vita outlining volunteer/professional work-related experiences pertinent to the counseling field is recommended for the admission process.

MAC PROGRAM POLICIES
In addition to the policies listed in the General Information and Academic Policies sections of this catalog, MAC program has the following policies.

Program Format
The MAC program is designed to be completed by a cohort group that begins and ends foundation coursework together. This group format is intended to facilitate learning and provide support for all members of the group.

Expectations of MAC Student
- Demonstrates professional ethics and personal integrity;
- Actively contributes to the learning environment of the class and takes ownership for his or her own educational experience;
- Remains open to self-awareness, personal reflection, and personal and professional growth;
- Receives feedback from other students, instructors, and site supervisor;
- Maintains a high level of respect for self and others, including using appropriate language in all verbal and written communication, tone of voice, and attitude;
- Demonstrates appropriate interpersonal interactions with site personnel, instructors, fellow students, clients, supervisor, and colleagues at clinical site;
- Refrains from the use of substances – not coming to class or clinical site under the influence of drugs or alcohol;
- Handles conflict in an appropriate manner;
- Takes responsibility for one’s own attitudes, thoughts, actions, and words;
- Values the client from a holistic perspective – mind, body, soul, and spirit;
- Shows effective communication skills – listening, speaking, writing;
- Manages the inherent stress of the program and demonstrates positive self-care;
- Values content of learning more than a grade point average;
- Demonstrates responsibility in completion of all course requirements.
**Course Attendance**
Attendance is required and considered an important aspect of student assessment in the course content and in the personal and small group relationships facilitated in the class sessions. Absence, arriving late, and/or leaving early can adversely affect the final grade. See the MAC Student Handbook for more information.

**Professional Standards**
A career as a Professional Counselor requires the individual to possess personal and professional qualities that are reflected in his or her personality, behavior, knowledge, and skills. It is our ethical responsibility to assure that our students in the MAC program possess the desired competencies necessary to provide quality services to future clients. Due to the clinical nature of this program, the professional competencies are considered academic standards. The instrument used to assess these competencies is the Professional Competencies Profile (PCP), which will be completed in designated courses and by an instructor or staff member at any time, to document concern(s) regarding a student.

Students must meet the acceptable level of professional behavior as outlined in the PCP. In addition, students must display academic integrity, meet ethical standards of the counseling profession, and abide by University expectations. Any unacceptable PCP rating (below 2.0) or violation of the aforementioned standards will be brought to the attention of Chair of the MAC Program. Intervention will be dependent on the nature and/or frequency of the infraction and may include (but not limited to) requiring academic remediation, personal counseling, academic probation, postponement of the clinical experience, or dismissal from the MAC program. Refer to the MAC Student Handbook for more information.

**Eligibility for Clinical Experience**
Consistent with ethical standards for counselor education programs, faculty take seriously the responsibility to place in clinical settings students who have consistently demonstrated the personal and professional qualities necessary to be effective with clients. Each student must make application to begin the clinical component of the counseling program (CNS 658 and CNS 680). Approval to begin the clinical experience is based on a comprehensive review of the student’s academic performance, attendance, the PCP evaluations, and a background check. Refer to the MAC Student Handbook and the MAC Student Clinical Manual for more information.

**Misdemeanor and Felony Disclosure**
Due to state employment and reporting regulations, applicants must answer questions regarding past or pending misdemeanors or felonies as an adult or juvenile. This will assist graduate education students in complying with state employment and reporting regulations. Falsification of information will be considered fraud and grounds for denial of admission to or for revoking prior admission to the University. Students should understand that their legal status may place at risk their ability to be admitted to practicum or internship experiences, or to be licensed by certain state agencies or employed in certain capacities. Spring Arbor reserves the right to deny admission to or dismiss current students who have been convicted of a felony and/or certain other misdemeanors, or who have been required to register with certain databases such as those pertaining to sex offenses or child abuse and neglect.
Background Check
MAC students are required to complete a background check. See the MAC Student Handbook for specific information.

Transfer Credit Hours
In addition to the institutional transfer policies for graduate students stated earlier in this catalog, the following transfer credit policies apply to the MAC program:
1. Credit hours earned in CACREP accredited programs will be considered for transfer.
2. Hours from a non-CACREP accredited program will not be accepted unless:
   a. the program is in the process of seeking CACREP accreditation, and
   b. a review of the course syllabus is conducted and the CACREP standards are evident in the course. It is the responsibility of the student to provide any required syllabi.
3. Transfer credits must be no more than 6 years old at the time of admission.
4. Specific MAC courses do not qualify for replacement with transfer courses. See MAC Handbook for specific course titles.

Guest Student
Applicants seeking guest student status (while enrolled at another institution, but wishing to take up to 6 credit hours to transfer back) should see the Graduate Program Admissions section of this catalog.

MAC SPECIAL GRADUATION REQUIREMENTS
In addition to the graduation requirements for all graduate students, MAC students must meet the following requirements to graduate with a Master of Arts in Counseling degree.
- Successful completion of a 100-hour practicum and a 600-hour internship.
- Demonstration of professional competencies as assessed on the Professional Competency Profile (PCP).
- Completion of the Counselor Preparation Comprehensive Examination (CPCE) with minimally expected scores.
- Completion of five counseling sessions as a client.

MAC Endorsement or License RECOMMENDATION POLICY
Graduation from the MAC program does not guarantee recommendation for endorsement or licensure. Any recommendation will be based on academic performance of counseling knowledge and skills, demonstration of professional competencies, and display of personal integrity. Recommendation for licensing or endorsement will be withheld for any student who has acted in a way that suggests that he or she may pose a threat to the well-being of future clients and/or the counseling profession.

CONCENTRATION TRACKS
Clinical Mental Health Counseling Track
This track is designed to help students with preparation for Michigan licensure as a Licensed Professional Counselor (LPC). LPCs may be employed in mental health settings, churches, clinics, other agencies, and/or a private practice setting.
**Licensure**  
Graduates desiring to become LPCs must first apply for licensure as a Limited Licensed Professional Counselor (LLPC). Then, graduates must complete the necessary 3,000 post-degree clock hours supervised by an LPC and pass a licensing exam. These steps must occur in not less than two (2) years and not more than ten (10) years from the issue of the LLPC. Please refer to the MAC Student Handbook for specific Michigan licensure requirements.

Students who are considering licensure in other states are encouraged to contact the Board of Counseling or State Education Department of those states to learn about the requirements for licensure. Students should do this prior to enrolling in the MAC program.

**Ohio Licensure**  
Because the MAC program is CACREP accredited, the MAC program students are eligible for licensure in Ohio.

**School Counseling Track**  
The school counseling track is designed to assist students with preparation for becoming a K-12 licensed or endorsed school counselor in Michigan. The school counseling track is also intended to assist students with preparation for Michigan licensure as an LPC. (Refer to the MAC Student Handbook for more information.)

The school counseling track requires students to complete the 60-credit hour counseling foundation curriculum along with an additional 6 credit hours for certified teachers (CNS 643 and CNS 673) or an additional 9 credit hours for non-teachers (CNS 643, CNS 673 and CNS 683). CNS 673 and CNS 683 are prerequisites for admission to school track clinical experience. CNS 643 is a prerequisite only for the non-teacher school track and should be taken the second term of the first year of the program, although students may petition to waive this course if they have had significant experience working in a school setting.

Current certified teachers are eligible to pursue the K-12 school counselor endorsement for their teacher certification in the state of Michigan. Non-teachers are eligible to pursue the school counseling license in the state of Michigan. Licensed or endorsed school counselors may be employed in local school districts, career centers, and/or intermediate school districts to work with K-12 students.

**School Counseling Clinical Experience**  
Students are required to complete their practicum and internship in a traditional K-12 school setting during normal school hours of the traditional school year. Students may spend a maximum of 100 secondary clock hours at an alternative high school setting. Because students will be receiving a K-12 license or endorsement, students must complete clock hours in two of three school sites (elementary school, middle school, and high school). Refer to the MAC Student Handbook and the Master of Arts in Counseling Student Clinical Manual: School Counseling for more information.

**Michigan Test for Teacher Certification**  
A passing score on the Michigan Test for Teacher Certification (MTTC - School Counselor 051) is required for licensure or endorsement as a school counselor. Students are encouraged to take the exam when coursework is completed and a minimum of 300 clock hours of internship are accrued. Upon graduation and after the exam is successfully completed, the student must apply to the Michigan Department of Education for the license or endorsement. The Certification Officer in the School of Education will be available to assist with this process.
COUNSELOR PREPARATION COMPREHENSIVE EXAM
To successfully complete the requirements for the Master of Arts in Counseling program, each student is required to take the Counselor Preparation Comprehensive Exam (CPCE) and to pass it with minimally expected scores. This test serves as an excellent practice test for the National Counselor Exam (NCE). Students receive subject area scores as well as a composite score, indicating which subject areas require additional study. Students must obtain minimally expected scores on some of the subareas. If minimal scores are not obtained, the student will be required to either retake the exam or to complete an assignment to demonstrate mastery.

NATIONAL COUNSELOR EXAM
Upon completion of the MAC program, students are encouraged to complete the National Counselor Exam (NCE) as soon as possible. Spring Arbor University is an authorized test site for our students. The NCE is offered at our main campus only, (but open to all MAC graduating students) on the Saturday closest to April 15th and the Saturday closest to October 15th. In December prior to their graduation, students have the opportunity to make application for the NCE for the April test date and in May for the October test date. Students who choose not to take the NCE through Spring Arbor University must wait until they have graduated to take the exam, and will make application for the NCE through the State of Michigan. The application form is included in the State of Michigan license application packet. Students who are seeking Ohio licensure are encouraged to schedule the NCE through the State of Ohio.

Master of Social Work (MSW)

MSW PROGRAM DESCRIPTION
The Master of Social Work program (MSW) is a 60-credit hour program that is offered in a two-year, full-time format. The first year is a foundation program, and the second year is a concentration in clinical social work practice. Applicants with an accredited baccalaureate degree in social work can apply for advanced placement into the concentration year. The foundation year and the micro concentration year are being offered at several SAU Global sites in the cohort model of weekly evening classes. There are concurrent field internship placements for both years in appropriate agencies.

MSW ACCREDITATION
The MSW program is fully accredited by the Council on Social Work Education (CSWE), 1701 Duke Street, Suite 200, Alexandria, VA 22314-3457.

MSW MISSION STATEMENT
The mission of the MSW program in the Department of Social Work at Spring Arbor University is to produce professional social workers who apply the competencies of the social work profession and advanced practice knowledge and skills to promote human and community protection and well-being. Teaching and learning in the MSW is guided by the professional code of ethics, the integration of faith and learning, knowledge based on research, an understanding of humans from a global, environmental and cultural perspective, and a dedication to social and economic justice, protection, empowerment, human and universal rights, and enhancement of individual and social development.

MSW PROGRAM OUTCOMES
• To prepare MSW graduates to practice at the highest professional level of practice informed by theoretical perspectives and knowledge based on research.
• To engage in teaching and learning guided by the social work competencies, the code of ethics and the integration of Christian values in their application to social work practice.
• To provide graduate students with the foundation and advanced social work knowledge, values, skills, and cognitive and affective processes that will teach critical thinking needed for advanced social work practice.
• To prepare graduates to promote human and community protection and well-being through respect for diversity, human and universal rights, and social and economic justice for populations at risk.

LICENSURE
Graduates with the MSW degree are eligible to apply for licensure in the state of Michigan as a Licensed Master Social Worker (LMSW), Micro (Clinical). Detailed information regarding the application process, the two-years of supervision, and the licensing exams are available through the Department of Licensing and Regulation. They are also able to apply for licensure in Ohio and other states. Virtually all states have some form of licensing or regulation of social work practice and information can be obtained from the appropriate state agencies.
MSW ADMISSION CRITERIA
The Spring Arbor University (SAU) Master of Social Work (MSW) admission criteria are divided into four sections: academic preparation, completion of the prerequisites, personal qualities, and professional readiness.

Academic Preparation
Each applicant will submit official transcripts from all previously attended colleges and universities in which baccalaureate coursework was taken. In order to be considered for admission to the two-year, 60-credit hour program or the advanced standing 30-credit hour program, applicants must have earned a bachelor’s degree from a college or university that is accredited by a recognized regional or national accrediting association in the U.S. or equivalent education at an international institution of higher learning. In addition, applicants need to have earned a GPA of at least a 3.0 on a 4-point scale during the last 60 completed credit hours. An applicant with a GPA of less than 3.0 may be evaluated on an individual basis for provisional admission. Recommendations, personal statement, and personal interview must demonstrate readiness to begin at the advanced level of graduate education and advanced social work practice.

Completion of the Prerequisites
The transcripts submitted by applicants that hold a bachelor’s degree in a discipline other than social work are used to evaluate their completion of 18 academic semester credit hours distributed in the social sciences, the biological sciences, the humanities and a course in statistics. Applicants who do not meet this requirement may be admitted provided this requirement be met by the deadline specified by the Department of Social Work.

Personal Qualities
When the criteria for academic preparation are met, the student’s personal statement submitted with the application is evaluated for writing skills, personal characteristics and professional readiness for graduate study and advanced social work practice.

Professional Readiness
Fitness for Professional Practice
Applicants will sign and submit a conviction disclosure form that there is no pre-existing past or pending criminal record or mental impairment, which would preclude licensure as a professional social worker.

Computer Skills and Access
Applicants will possess skill or be willing to develop skill prior to the start of the first class in the use of computers for word processing, research, communication tasks, and the SAU Blackboard system. In addition, they will have ready access to a computer with a camera and high-speed Internet access for online assignments. All computers will meet the minimum standards set by the SAU Office of Academic Technology (OAT). There is a computer readiness check available through the OAT connection.

Language Proficiency
For students whose native language is not English, an official copy of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) must be submitted. A minimum TOEFL test score of 550 (paper based), 213 (computer based) or 80 (Internet based) or a minimum IELTS test score of 6.5 is required for admission in order to ensure a student’s ability to participate successfully in the SAU MSW program.
CRITERIA FOR EVALUATING MSW APPLICATIONS
Applicants’ academic records, applications, personal statements, statements of fitness for professional practice, and recommendations are evaluated on the basis of the following criteria.

Emotional Stability
Social work is not a field for individuals who desire to solve their own emotional needs or problems by working in a helping role. Individuals entering advanced social work practice need to maintain emotional stability and be able to cope with the emotional stress that is common in this demanding profession.

Confidence and Assertiveness
These characteristics are necessary in working with client systems, colleagues, professionals from other disciplines and supervisors, especially in order to work actively as a case and cause advocate for the rights of clients.

Ability to Accept Constructive Criticism
As lifelong learners, individuals need to accept that there is room for improvement in their personal and professional behavior. Once individuals accept this need for improvement, they can constructively use the insights regarding their behavior provided by colleagues, supervisors, administrators, or governing boards and work towards change.

Interest in and Motivation for the Social Work Profession
Social workers entering graduate study in their profession need to be motivated both as students and as professionals. This motivation and interest in the field should come from a strong desire to serve others in society, especially the poor in urban, rural, and other communities.

Intellectual Ability
Problem-solving and critical analysis skills are fundamental for effective social work practice. Complex individual, group, family, organization and community problems require advanced practitioners to think clearly and logically in a systematic manner if problems are to be alleviated or resolved.

Communication Skills
Both oral and written communication skills are vital in the social work profession. Fluency in a foreign language is a definite asset in the profession.

Ability to Form and Maintain Positive Relationships
Social work is a people-oriented profession, and relationship building is foundational to effective practice. There needs to be the capacity to empathize and establish effective interpersonal relationships with diverse client populations.

Ability to Work with Diverse Groups
Social workers need to be aware of their own prejudices and actively work to address these attitudes and actions using the feedback provided by client systems, colleagues, and supervisors. Advanced practitioners need to be able to work with diverse client populations in a non-judgmental manner, accepting individuals’ rights to differing perspectives.
Leadership Qualities
The ability to work effectively in a leadership role is necessary for advanced practitioners. Social workers assume positions of leadership with client systems as well as roles in agencies as supervisors, administrators, and consultants.

Social Work Values and Ethics Consistent with Profession’s Code of Ethics
Social workers can be influential upon client systems. Therefore, it is essential that advanced practitioners be of good moral character. Social workers should be aware of their own values and have respect for others’ values, which may be different. Their own values should have some consistency with the Judeo-Christian heritage and with the values reflected in the profession’s Code of Ethics.

If, after the review process described above additional questions remain, the admissions committee may request a personal interview that will be conducted in person or via Skype or conference call with one or more members of the committee or other faculty. The results of the interview will be considered as part of the overall admissions decision.

MSW ADMISSION REQUIREMENTS
In addition to admission requirements for all graduate programs, MSW applicants must submit the following information: a) recommendations, and b) personal statement.

Recommendations
Using the Social Work MSW program’s form, applicants are required to submit three strong, professional references who can attest to the applicant’s 1) intellectual competence, 2) potential for academic success, 3) ability to work with people around sensitive issues, including people from a range of diverse backgrounds, 4) possession of critical thinking and communication skills, 5) demonstrated sense of ethics and values, and 6) potential success as a professional social worker. If possible, two references should have direct knowledge of the applicant’s academic work. For applicants with a Bachelor of Social Work (BSW) degree, it is strongly recommended that one of the references is the field instructor. References from family members or fellow students will not be accepted.

Personal Statement
Applicants are required to submit a personal statement (double-spaced, APA format) and include attention to each of the following items:
- Motivation for pursuing the MSW degree;
- Relevant background experiences;
- Statement of professional goals;
- Demonstrated learning and growth that has taken place through professional work and volunteer experiences;
- Expectations regarding attending a Christian university for the MSW program, and the approach to the integration of faith, scholarship and service (NOTE: Although no admissions requirements exist regarding faith orientation, Christian and other religious perspectives will be presented and discussed in classes.);
- Research of a social problem of interest to the applicant, including perceived causes and proposed solutions. Must include at least one reliable reference;
• Discussion of an ethical challenge the applicant faced in professional, field or volunteer work and how it was resolved;
• Recognition of the challenges and stress related to the social work profession;
• Discussion of specific changes that will be made to accommodate the rigor of an accelerated MSW program;
• Discussion of how applicant will set and maintain appropriate boundaries to deal with the stresses/challenges identified.

**International Students**

International students are subject to all admission requirements of the graduate program and additional requirements as listed in the General Information portion of this catalog. Official documents of all coursework completed outside the U.S. and Canada (except at schools with a U.S.-based curriculum) must be submitted to a recognized evaluation service for validation and equivalency of courses and/or degree. If transcript(s) have already been authenticated and evaluated by an evaluation service, please contact our Office of Registration and Records to determine if that service is acceptable.

**ADVANCED STANDING PROGRAM ADMISSION REQUIREMENTS**

To avoid duplication and redundancy for BSW graduates, the program offers a one-year (30 credit hours), advanced standing program. In order to be considered for admission to the advanced standing program, students must have been granted a baccalaureate degree in social work from an undergraduate social work program that was 1) accredited by the Council on Social Work Education, 2) recognized through its International Social Work Degree Recognition and Evaluation Service, or 3) covered under a memorandum of understanding with international social work accreditors at the time the degree was granted.

To be eligible for advanced standing, the applicant must have a BSW that has been granted within six years of enrollment in the SAU MSW program. This six-year limit may be extended to eight years if the student has subsequent BSW social work practice experience (such experience to be approved by the admissions committee). For each two years of acceptable practice experience, applicants may be granted credit of one year toward the extension of the time limit. For example, an applicant with a BSW received seven years prior to the time of enrollment in the MSW program may be granted advanced standing admission if the applicant has completed four years of acceptable social work practice experience.

**NOTIFICATION OF MSW ADMISSION DECISIONS**

The social work admissions committee is responsible for making the final decision regarding all applicants for admission to the SAU MSW program. The committee will be chaired by a member of the SAU Social Work faculty and will include at least two other members. The committee will adhere to all of the Spring Arbor University and the SAU social work department policies regarding non-discrimination in all decisions.

Applicants will receive notification of the decision of the admissions committee once all admission requirements are met. The Committee recommends one of the following: full acceptance, probationary acceptance, conditional acceptance or non-acceptance.
MSW POLICIES
In addition to the policies listed in the General Information and Academic Policies sections of this catalog, MSW program has the following policies.

Transfer Credit
In addition to the institutional transfer policies for graduate programs, the MSW program will consider transfer credit only under the following conditions:

- The courses were taken in a graduate institution whose MSW program is accredited by the Council on Social Work Education.
- A course description and syllabus is provided for the MSW director and registrar to determine the course to be an appropriate substitution for a specific course in the graduate program.
- The work must have been done while the student was enrolled in good standing as a graduate student.
- Extension or workshop courses will not be considered for transfer.
- Coursework taken at another institution after a student has matriculated to the MSW program at SAU will be considered for approval only if the institution is a CSWE accredited institution.

Minimum Grade Requirement
A student who receives a grade of “C” or below in any MSW course must repeat the course even if the cumulative GPA is 3.0 or above. See General Information, Academic Policies, Repeating a Course earlier in this catalog for more information of repeating a graduate course. For more information about special grading policies of the program, please refer to the MSW program handbook available from the social work department.

Life or Previous Work Experience MSW Credit
In accordance with CSWE policy, it is the policy of the SAU social work department not to grant social work course credit for life experience or previous work experience. Previous work experiences and relevant volunteer activities may be taken into consideration in a student’s application for admission to the MSW Program; however, no course credit will be awarded or accepted as fulfillment of any part of the MSW curriculum. This policy is clearly stated in all descriptions of the MSW program whether in academic catalogs, recruitment materials, or other admissions related materials, in print, online, or any other electronic form. Recruiters and admission personnel are informed of this policy and convey it to prospective students.

Previously Mastered Social Work Content
In accordance with Council on Social Work Education (CSWE) policy, the SAU social work program policy is that students with a CSWE accredited BSW degree will not be required to repeat any content that has been mastered in their BSW programs. Transcripts will be evaluated in light of this requirement.

**COURSE DESCRIPTIONS**

**Counseling (CNS)**

**CNS 060 Graduate Online Orientation**
Some of the topics covered include an introduction and overview of online learning, expectations, and tools that online students encounter. This course explores SAU online’s learning management system (LMS), principles of online learning, including student expectations, characteristics related to successful online learning, and an overview of SAUonline courses – their structure, typical learning activities, and interactions.

**CNS 603 Introduction to Counseling: The Counselor and Diversity (3)**
This course introduces graduate students to the field of counseling. Students will begin to develop a professional identity as a counselor by obtaining an overview of the history of the profession; current roles, functions, and practices of the counselor; basics of entry into the profession; and skills necessary to advocate both for the profession and for diverse clients. Students will also engage in self-exploration to better understand their values as they relate to the counseling profession and diversity issues.

**CNS 605 Research in Counseling (3)**
This course provides an overview of basic statistics as they relate to understanding and interpreting quantitative and qualitative research articles. In addition, students will be introduced to research designs utilized in the field of counseling research. Primary emphasis will be on analyzing and interpreting research. Students will also be expected to write a comprehensive research proposal on a topic of interest related to the counseling field.

**CNS 606 Advanced Clinical Psychopathology and Abnormal Behavior (3)**
This course will provide students with an in depth examination of the various classes of disorders as outlined in the DSM-5. Emphasis will be given to the identification, etiology, and current best practices treatment of these disorders. Case studies will be used to investigate the developmental issues in abnormal behavior across the life span. Consideration will also be given to how this developmental perspective is applied to counseling practice. A thorough knowledge of the DSM-5 is expected.

*Prerequisite: CNS 672*

**CNS 607 Evaluation of Psychopathology (2)**
This course provides in-depth understanding of the concept of personality and the use of psychopathology assessment for purposes of diagnosis and treatment planning. This course will focus on the administration, scoring, and interpretation of personality and psychopathology assessment tools with a primary focus on the MMPI-2 and Conner's 3 assessments.

*Prerequisite: CNS 672*

**CNS 611 Legal Issues and Ethics in Counseling (3) - Online**
The emphasis of this course will be on the major legal and ethical issues in the field of counseling including familiarization with the ethical principles of relevant professional organizations. Case studies will be used to highlight current legal and ethical areas such as confidentiality, dual relationships, testing, and multicultural competence.

**CNS 613 Social and Cultural Diversity (3) - Blended**
In this course, students will explore multicultural issues in counseling to gain an understanding of the cultural context of relationships, issues, and trends in a multicultural society. This course is designed to engage counseling students in understanding the multi-faceted dimensions of working with diverse clients. Through various teaching methods and experiential activities, this course will establish a foundation for building multicultural counseling competence in counseling.
CNS 614 Crisis Intervention (3)
This course introduces graduate students to the history, theory, and practices of crisis intervention. This course is an overview of the basic skills needed to respond to various crises as a helping professional. The course will educate and train students in both mental health and school counseling programs to gain a functional knowledge and basic skills relevant to crisis intervention. Students will learn techniques to use in response to crises involving: danger to self and others; developmental issues; loss; community disasters; PTSD; veteran’s issues; child, sexual, and elder abuse; substance abuse; and serious illness. Students will also learn how to access and refer individuals to community resources to assist in crises. Ethical and multicultural considerations for counselors regarding crisis intervention will also be examined.

CNS 615 Addictions (3)
This course provides students with a basic overview of addictions, including theories of addiction and treatment modalities. Students taking this course will develop theoretical knowledge and practical skills regarding the diagnosis and treatment of addictions. The course covers substance addictions as well as process (or behavioral) addictions.

CNS 621 Counseling Theory in Multi-Cultural Contexts (3)
This course will detail the rationale, background, and research that underlie selected theories of counseling. Emphasis is placed on the implication of each theory for counseling practice. Students will develop a theoretical basis for their own counseling practice.

CNS 622 Counseling Techniques in Multi-Cultural Settings (3)
This course will focus on developing basic counseling skills and techniques. Special attention will be given to various topics relevant to the counseling setting, including gender, age, culture, and ethnicity. Videotaping of simulated counseling sessions will be used to provide specific feedback to students. 

CNS 623 Assessment and Testing (3) - Online
This course will help students to develop skills in using qualitative and quantitative assessment methods. The course will also involve training in administering, scoring, and interpreting standardized tests.

CNS 641 Group Process and Counseling (3)
This course focuses on learning group process and skill development in leading group counseling sessions. Practical experience as a group member will also be involved.

CNS 643 Introduction to Classroom Dynamics (3)
This course is designed as a prerequisite for non-teachers to the school counseling track. Students study classroom dynamics such as teacher responsibilities, effective teaching strategies, classroom management practices, learning theories, and unit planning. Legislative and reform movements influence on K-12 education are explored, as are the influence of educational theorists and movements. Students observe in K-12 classroom/school settings for a minimum of 12 hours. Due to the strong educational focus of this course it is a prerequisite for the school counseling track only. Students with a teaching certificate may petition to waive this course.

CNS 645 Developmental Issues in Counseling (3)
This course examines implications for counseling across the lifespan. Particular focus will be placed on theories of human development. Specific attention will be given to the predictable stages and tasks at the various points in the developmental process, ranging from conception and prenatal to oldest-old adulthood. Cultural and diversity issues as they relate to implications for counseling throughout the lifespan will be examined.

CNS 654 Conceptualization and Treatment in Counseling (3)
The purpose of this course is to prepare students for their clinical experiences by bringing together the knowledge and skills learned in previous coursework. Emphasis will be placed on conducting diagnostic
interviews, developing case conceptualizations, writing intake summaries, and developing treatment plans. The students will begin to understand the role of supervision in practicum/internship, as well as, supervision for licensure. This course will also begin to explore appropriate integration strategies of spiritual and clinical orientations. Students must demonstrate competencies in the basic counseling skills. **Prerequisites: all courses in the foundation curriculum with the exception of CNS 606, and 607.**

**CNS 658 Practicum in Counseling (3)**
This course emphasizes practical application of counseling principles. Counseling experiences are provided in a clinical setting providing the opportunity for students to apply previously acquired knowledge and skills. A total of 100 hours is required with a minimum of 40 hours direct client contact. A student must file application and receive approval to begin the clinical experience. Registration for this course is only completed after the clinical site is secured and approved. **Prerequisites: all courses in the foundation curriculum with the exception of CNS 606, and 607. For School track students, CNS 673 and CNS 683 are also required**

**CNS 664 Career Counseling (3) (Online)**
This course emphasizes career development theory and its application to counseling, including identifying possible resources related to career choice and exploring the career needs and concerns of clients from different cultural backgrounds.

**CNS 668 Consulting in the Helping Professions (2) (Online)**
To provide an introduction to the consultation process as it is applied to the individual, group, or organization. Knowledge and skill competencies emphasized will include the understanding and application of developmental stages within the consultation process. Special consideration will be given to consultation within the school and mental health settings.

**CNS 672 Clinical Psychopathology (3)**
This course emphasizes current models of abnormality, assessment of mental disorders using the DSM-5 classification system, and treatment approaches for various disorders.

**CNS 673 Development and Administration of School Counseling Programs (3)**
This course investigates the systematic development and administration of K-12 comprehensive school counseling programs. Knowledge and skill competencies emphasized include the understanding and application of program development, implementation, and evaluation. The role and responsibility of the school counselor is explored within the context of the ASCA National Model. Ethical and legal responsibilities within these frameworks will also be examined. This course is designed to engage students in activities which will develop their knowledge and skills in college and career planning, as well as in the development of effective classroom guidance lessons. **Prerequisites: CNS 611, CNS 643, or equivalent**

**CNS 678 Capstone in Christian Counseling (2)**
This course will focus on helping students to develop knowledge and skills in the integration of a Christian perspective into one’s counseling practice. Students will explore the importance of an ethical approach when integrating spirituality and religion in counseling. This course consists of two one-day seminars.

**CNS 680 Internship (3)**
This is an intensive, 300-hour, field-based experience in which students will apply counseling knowledge and professional competencies in an approved setting. Possible internship sites may include, but are not limited to schools, colleges, and community agencies. With the exception of students seeking Ohio licensure, internship placements must be completed in the State of Michigan. During the second semester of Internship, each student is required to take the Counselor Preparation Comprehensive Examination (CPCE) as scheduled during this course. This comprehensive exam is needed to complete course requirements and serves as an excellent practice test for the NCE. This is a repeatable course. A student must complete this course two times for a total of 600 hours and 6 credits. Dual track students must complete this course four times for a total of 1200 hours and 12 credits. **Prerequisite: CNS 658**
CNS 683 Mental Health within the Schools (3)
Students in this course will investigate methodologies used by the school counselor in dealing effectively with elementary and secondary school students whose physical, social, mental, or emotional needs preclude academic achievement. Knowledge and skill competencies emphasized will include early detection, intervention, and referral strategies appropriate for dealing with special populations within the school setting. Relational dynamics among parent, teacher, and agency resources are examined to encourage placement of proactive measures within the system. This course is designed to engage students in activities which develop their knowledge and skills in the development and implementation of small group counseling.

Prerequisites: CNS 641, CNS 673

Communications (COM)

COM 060 Graduate Online Orientation (0)
Some of the topics covered include an introduction and overview of online learning, expectations, and tools that online students encounter. This course explores SAU online’s learning management system (LMS), principles of online learning, including student expectations, characteristics related to successful online learning, and an overview of SAUonline courses— their structure, typical learning activities, and interactions. Satisfactory completion of this course is required prior to taking the first communication course.

COM 503 (A through F) Communication as Vocation (1)
A: Calling; B: Wisdom; C: Strength; D: Practice; E: Explore; F: Plan
Explore your career opportunities and vocational impulses while working with a professional mentor to individualize your program and develop a sustainable professional growth plan. This one-credit course will be taken in subsequent terms until the student has earned a total of six credit hours.

COM 504 Communication Theory and Worldview (3)
An overview of theoretical frameworks related to various contexts of communication. Theology and ethics of communication are examined in light of a Christian worldview.

COM 508 Writing for Results (3)
This "writing boot camp" develops analytical and narrative writing skills. Explores issues of craftsmanship and context.

COM 510 Communication Leadership (3)
Explores effective communication styles of effective leaders through an analysis of research and practice.

Prerequisites: COM 504, 508, and 608

COM 601 Interpersonal Communication (3)
An examination of interpersonal study and analysis of the relationships between interpersonal communication and group, family, gender, and intrapersonal processes.

Prerequisites: COM 504, 508, and 608

COM 603 Group and Public Communication (3)
Examines how personal and professional communication styles impact group dynamics, conflict, team building, leadership and public presentations.

Prerequisites: COM 504, 508, and 608

COM 604 Digital Media Strategies (3)
Students will learn how to expand personal and institutional influence through the strategic use of mobile application, social media, and various web-based tools and platforms. Includes content creation, management, and planning as well as ethical and theoretical frameworks.

Prerequisites: COM 504, 508, and 608.
COM 607 Communication Ethics and Moral Reasoning (3)  
Case study approach to problems and issues that confront communicators in contemporary culture.  
**Prerequisites:** COM 504, 508, and 608.

COM 608 Research Methods and Application (3)  
The course helps students understand and apply communication research findings. By describing and evaluating communication research methods, students are prepared to conduct and apply research in their academic and professional lives.

COM 610 Advertising and Public Relations (3)  
Considers current research and practice in advertising and public relations. Traditional and nontraditional techniques are explored.  
**Prerequisites:** COM 504, 508, and 608.

COM 612 Conflict Management (3)  
Current theories of conflict resolution, with a special emphasis on biblical peacemaking.  
**Prerequisites:** COM 504, 508, and 608.

---

**Early Childhood (ECE)**

ECE 550 Developing Literacy and Reading Proficiency in Early Grades (3)  
Through research of current – best practices in reading development for struggling readers, student will identify appropriate interventions. Through small group sharing various techniques, strategies will be shared. A case study builds on needs identified through assessments will be conducted.

ECE 565 Early Childhood Social Foundations (3)  
Provides comprehensive coverage of the complex socialization process and its effect on the development of children. Requires students to research their own socialization histories and evaluate their development in the light of major concepts presented in class. Each student will also develop a research proposal and carry out that research during the semester. A formal presentation of the finding will be presented in the form of a formal paper.

ECE 566 Early Childhood Growth and Development (3)  
The prenatal stages of human development through age eight are the focus of the course. Students will study normal and exceptional development of the physical, cognitive, emotional and social domains of young children (infant, toddler, and pre-K through age 8) in the contexts of home and group settings. With this, assessment and diagnostic procedures will be studied. Some field observations and interactions required.

ECE 616 Early Childhood Policies and Standards (3)  
This course focuses on policies and regulations specific to early childhood care and educational settings. The course covers effective guidance of young children, birth, infants and toddlers, through age 8, as individuals and within group settings; government regulations for early childhood programs and personnel; as well as ethical standards for certification of early childhood professionals. An in-depth analysis of selected topics that pertinent to the care and education of young children in child development centers and early childhood school settings.

ECE 620 Effective Behavior Management, Assessment and Evaluation in Early Childhood Education (3)  
The focus of this course is assessing young children’s development and the use of appropriate assessment practices in the ECE environment. Students will examine best practice in assessment and guidance of young children (infants, toddlers, preschool through grade 3) through in-depth research of contemporary theory and methodology. Through a systematic observation experience, students will determine the most appropriate method to guide children’s behavior. As a result, the practitioner will
develop strategies and practices to guide young children in developing acceptable and appropriate self-directed behavior as individuals and in-group settings. A study of appropriate assessment techniques pertinent to child management and behavior that informs parents and teachers in selecting strategies that leads to approaches for better learning and intervention practices and self-regulation.

ECE 640 Emergent Literacy (3)
This course will explore the theories and research in emergent literacy and beginning reading, phonics instruction and spelling. Student will compare historical perspectives on language acquisition, beginning reading and writing, and the interrelationship of reading, writing, listening, and various stages of reading and writing, and spelling development, using a wide range of children's literature, poetry, creative dramatics and storytelling. Formal and Informal methods of assessment will be conducted with emphasis on at-risk or struggling reader with particular concern of ELLs.

ECE 665 Early Childhood Curriculum and Methods (3)
For teaching in a preschool or early elementary program. The basic curricular areas in preschool and early elementary grades are covered. Emphasis on methods and techniques. Examines strategies, materials, and model programs to aid pre-school and primary teachers in classroom organization and instructional design.

ECE 668 Young Children with Special Needs (3)
Students will become familiar with the characteristics of young children (birth to eight years) displaying special needs and with techniques for nurturing their development and interacting with parents. This course will include practice in observation and interaction, introduction to initial screening procedures and service provisions, planning, and implementation of appropriate activities. In addition, student will address Special Education history, theory, models and laws pertaining to young children as well as inclusive curricular, assessment, and family approaches, teaming and collaboration and managing challenging behavior.

ECE 678 Intervention Strategies for Young Children with Developmental Delays (3)
Students will study the theories and implications of formal assessment in early childhood, examine the procedures for initiating and developing formal reporting assessment documents such as IEP, IAP, IFSP, and develop the essential dispositions and skills to develop positive respectful relationships with children and caregivers when discussing assessment results. An integral part of the course will include creating and practicing strategies to remediate diagnosed special needs at the appropriate age and developmental level, create an appropriate transition plan and explore the role of technology in providing services for students. Through research, an appropriate transition plan will be implemented supporting the goals outlined through the IFSP or IEP, developed in collaboration with caregivers, and various stakeholders.

ECE 680 Graduate Thesis and Field Study in Early Childhood (3)
This course consists of a carefully planned sequence of experiences including but not limited to directed observations, conferences, small group instruction, whole class instruction and individualized instruction within the inclusive childcare/classroom setting. The field study is under the professional supervision of an Education professor. It provides opportunities for the participant to synthesize and apply theoretical learning from preview course within realistic, planned professional contexts.

Education (EDU)
EDU 060 Graduate Online Orientation (0)
Some of the topics covered include an introduction and overview of online learning, expectations, and tools that online students encounter. This course explores SAU online’s learning management system (LMS), principles of online learning, including student expectations, characteristics related to successful online learning, and an overview of SAUonline courses – their structure, typical learning activities, and interactions. The course seeks to introduce online SOE students to SAU’s mission and values and the
implications of those values for academic integrity, scholarly inquiry, and collegial behaviors and practices of online students.

**EDU 624 Elementary and Middle School Reading (3)**
This course for pre-K through 6th-grade teachers includes field experiences in the diagnosis and remediation of reading disabilities and provides the educator opportunity to engage with one reader to discover student strengths and needs and develop a case study. Course focuses include interest inventories, English language learning screening, visual and auditory discrimination tools, language expression and processing screening, phonemics, phonics, vocabulary, fluency, comprehension, spelling and writing assessment tools, and instructional strategies. Students will explore current models of reading assessment and support, as well as classroom applications designed to develop effective reading skills and dispositions, including differentiated instruction in response to student needs. For those holding an elementary certificate, this course satisfies the Michigan Department of Education reading requirement for new professional certificates issued after July 1, 2009, per 2007 PA 32, MCL 380.1531(4).

**EDU 625 Secondary Reading (3)**
This course for 6th-12th grade teachers investigates issues in secondary reading and skill development. Focuses include differentiated instruction, interest inventories, fluency, comprehension, spelling and writing assessment tools, and instructional strategies. The course explores the skills and complexities of the reading process through classroom field experiences. Students will investigate a variety of instructional techniques to facilitate the development of effective readers and learners. The emphasis will be on practical research-based classroom applications. For those holding a secondary certificate, this course satisfies the Michigan Department of Education reading requirement for new professional certificates issued after July 1, 2009, per 2007 PA 32, MCL 380.1531(4) (previously PA118).

**Business Administration (MBA)**

**MBA 607 International Business with NYC trip (4)**
Introduces key aspects of contemporary international business management and implications of international business on organizational strategy, structure, and function. Coverage includes ethics in business, country differences, trade and investments, global monetary systems, and competition in a global marketplace. Topics include Poverty Cure, human rights, global human resource development, and conference environment papers and group presentations. As a part of the MBA 607 courses, students attend an International Business Summit as a part of a four-day trip to New York City. The university covers the costs of accommodations (i.e. hotel, food) to participate in the summit. Students are responsible for travel arrangements and expenses.

**MBA 607A International Business without NYC trip (4)**
Introduces key aspects of contemporary international business management and implications of international business on organizational strategy, structure, and function. Coverage includes ethics in business, country differences, trade and investments, global monetary systems, and competition in a global marketplace. Topics include Poverty Cure, human rights, global human resource development, and conference environment individual presentations, peer reviews, and critiques.

**MBA 617 Leadership in Business (4)**
Introduces students to leadership in business administration as a foundation for effective management of the organization. Explores leadership from the perspective of the practicing manager and focuses on
individual, group, and organizational leadership. Covers the nature of leadership, leading change, leadership effectiveness, leadership development, and traditional and emerging leadership theories. Special emphasis is placed upon self-leadership and professional leadership assessment of personal strengths and weaknesses in handling specific managerial issues and responsibilities.

**MBA 622 Statistics for Business Managers (4)**
Introduces students to data driven decision making using a statistical thinking framework. Emphasis placed upon the use of statistical data for identifying, understanding, interpreting, and solving business scenarios and issues. Develops skills necessary to identify business problems, collect data following appropriate protocols and methods, and analyze data using statistical techniques.

**MBA 631 Accounting for Managers (4)**
Introduces students to the fundamental concepts and principles of accounting as a discipline to support managerial decision making in businesses. Examines the use of information for data-driven decision making including organizational level performance measurements. Covers financial ratio calculations and analysis, preparation of financial statements, taxes, accounting liquidity, contribution margin, budgeting, and auditing issues.

**MBA 641 Trends in Healthcare Administration and Management (4)**
Addresses contemporary issues in the field of healthcare and the factors influencing the structure, delivery, and financing within health care systems. Examines the roles of various health care institutions and professional groups providing health services. Covers emerging trends that impact healthcare in the U.S. as well as leadership challenges associated with healthcare administration. Special emphasis on making informed decisions related to healthcare administration and management topics that concern modern healthcare administrators.

**MBA 642 Managerial Finance in Healthcare (4)**
Examines the fundamentals of financial management in the healthcare sectors. Prepares non-financial healthcare professionals with skills necessary to manage and control costs while simultaneously investing resources in strategic opportunities. Focuses on the use of financial analysis techniques, financial reasoning, and financial tools for effective decision making and planning in a healthcare setting. Special emphasis on financial liquidity, solvency, and measuring efficiency of healthcare organizations using key ratio information.

**MBA 643 Managing Quality in Healthcare (4)**
Identifies the principles of quality improvement necessary for creating a quality culture in healthcare. Examines tools and methods of planning and implementing quality improvement initiatives in healthcare. Addresses both clinical improvements related to the delivery of quality patient care and process improvements related to the processes necessary in supporting the delivery of quality patient care. Special emphasis on methodology for improving quality in healthcare organizations, process improvement tools and measurement systems, Six Sigma, lean management techniques, and medical informatics.

**MBA 647 Workplace Learning and Professional Development (4)**
Explores the major issues relevant to workplace learning and development. Develops skills in needs analysis, learning and development methods, method selection, development plans, and assessment. Covers adult learning theory, knowledge, and development. Emphasizes principles of traditional and contemporary approaches to workplace learning and development in organizations. Special emphasis on the practical application of learning development methods and assessments to ascertain factors influencing effective workplace learning strategies.

**MBA 648 Human Resource Development (4)**
Explores major issues of managing human resources. Develops skill in assessing human resource needs for career development and organizational effectiveness. Covers principles of adult learning through designing practical applications in diverse work settings. Special emphasis on current topics in the field of human resource development, including the assessment, design, implementation, and evaluation of
human resource development programs; personal, professional, and organizational development; and application of human resource development in diverse contexts. Various types of training programs will be examined, including onboarding, skills and technical, performance management, employee wellness, career management, organization and management development, and diversity.

MBA 651 Management of Organizational Behavior (4)
Introduction to the management of behavior in organizations, the field of industrial and organizational psychology, and various aspects of people in the workplace. Covers issues related to employee development through training and learning, employee productivity, well-being, attitudes, behaviors, motivation, and leadership. Explores principles of organizational behavior and management such as how people work, where they work, and how the workplace operates. Emphasizes the complexity of organizational functioning and importance of the management of organizational behavior.

MBA 654 Strategic Planning and Management (4)
Introduces the concepts of strategic planning and management and considers the vision, mission, and goals of organizations. Provides students with a framework for conducting strategic planning in the organizational environment. Examines the balanced scorecard approach to planning and management for translating strategy to action. Special emphasis is placed upon the cyclical development of pertinent information necessary for strategic planning and management.

MBA 657 Strategic Leadership (4)
Examines characteristics and skills that allow leaders to make positive and strategic contributions to their organizations. Focuses on the development of strategic leadership skills including the development of strategic thinking and strategic actions for superior organizational performance. Emphasizes the analysis of leader traits, skill, styles, and characteristics and the influence on the strategic leadership of organizations.

MBA 658 Organizational Consulting (4)
Examines of best consulting practices for internal and external change agents. Explores consulting practices such as contracting, assessment and diagnosis, data collection, feedback techniques, implementation of planned change initiatives, resistance to change and other psychodynamics in the organization related to change. Emphasizes the collaborative consulting approach and the collaborative consulting cycle as well as change management models and effective change management consulting techniques.

MBA 661 Marketing for Managers (4)
Introduces the principles of service and stewardship through marketing management. Focuses on developing an understanding of the role of markets and marketing from an economic thinking perspective including an analysis of product markets and developing marketing strategies that will provide sustainable competitive advantage. Special emphasis is placed upon the integration of concepts, principles, and techniques of marketing through application within client organizations. Topics include customer value and satisfaction, market research and surveys, marketing segmentation differentiation, positioning, and the development and execution of marketing plans.

MBA 688 MBA Capstone Study (4)
The MBA capstone experience emphasizes the integration and application of acquired knowledge and skills from the MBA foundation and concentration curriculum. Focuses on the identification of a group/work unit/team or organizational level issue, problem, or opportunity, as well as the proposed solution to improve organizational performance. Students will conduct an organizational assessment, review of the literature, explain the issues using appropriate concepts and theories, create a proposal to address the problem, and develop a final business consultancy report and presentation. The student works with a real organization/client, and the client provides an assessment of the student’s performance and contribution to the organization.
Management and Leadership (MML)

MML 060 Graduate Online Orientation (0)
Some of the topics covered include an introduction and overview of online learning, expectations, and tools that online students encounter. This course explores SAU online’s learning management system (LMS), principles of online learning, including student expectations, characteristics related to successful online learning, and an overview of SAUonline courses – their structure, typical learning activities, and interactions. Provides an introduction to the MML program.

MML 610 Leadership for Personal and Professional Success (4)
Introduces students to self-leadership and the psychology of self-motivation as a foundation for personal and professional leadership development. Explores the importance of self-awareness, self-responsibility, self-regulation, and self-influence to achieve personal and professional effectiveness. Special emphasis is placed upon positive attitudes, proactivity, self-efficacy, empowerment, mental and behavioral strategies, and authenticity.

MML 611 Introduction to Contemporary Management Issues (4)
Introduces students to the professional field of management and management issues in contemporary organizations. Covers essential topics such as organizational design, structure, and processes as well as complexities within organizational life such as power, politics, conflict, ethics, and decision making. Special emphasis is placed upon sense-making, coaching, knowledge creation, and learning in organizations.

MML 614 Foundations of Organizational Leadership (4)
Introduces the concepts, theories, practices, and fundamental principles of leadership within work and organizational environments. Provides practical strategies for developing the knowledge and skills necessary for effectively serving in the leader role in an organizational setting.

MML 615 Organizational Change Management (4)
Introduces students to theories, processes, and practices related to change using creativity and innovation within the work environment to enhance organizational effectiveness. Provides students with practical models and techniques useful for managing planned as well as emergent change. Examines personal and organizational management approaches for overcoming resistance and facilitating positive organizational change. Develops skills for designing, implementing, and managing strategic change and transformation in organizations to foster resulting change in collective behavior.

MML 618 Organizational Behavior: Leading People (4)
Introduces students to the foundational aspects of organizational behavior through the examination of workplace issues. Covers the influence of diversity and individual differences, the impact of emotions, attitudes, and stress, perceptions, conflict, leadership, and change on organizational behavior within organizations. Special emphasis is placed on developing skills necessary for leading people and fostering an environment of positive organizational behavior.

MML 619 Managing the Organization: Culture and Strategy Issues (4)
Introduces students to the culture of an organization as the system of shared values, beliefs, and assumptions that govern the development of attitudes, formation of intentions, and behaviors in organizations. Examines how the culture and strategy of an organization influences organizational effectiveness and performance.

MML 622 Groups, Teams and Motivation: Leading Organizations (4)
Examines management and motivation of individuals within groups and teams. Develops skills necessary for creating and effectively managing groups and teams. Covers job design in groups and teams, group and team development, conflict management, team building, decision making in groups and teams, and approaches for improving productivity and organizational effectiveness.
MML 623 Applied Managerial Research (4)
Introduces students to theoretical, philosophical, and practical insights regarding management and business research. Covers writing research proposals, reviewing literature, addressing ethical issues in research, designing research, and communicating research findings.

MML 650 Leadership Portfolio (2)
Students will enroll in MML650 and MML651 concurrently in the final semester of the program. The leadership portfolio course focuses on the organizational leadership lessons learned throughout the program. Student will construct a portfolio of leadership accomplishments and will reflect upon their personal and professional growth and development while in the MML program.

MML 651 Management Capstone (2)
Students will enroll in MML650 and MML651 concurrently in the final semester of the program. The management capstone is a project that involves applying management learning within a real organization. Students will identify a management problem based upon a diagnosis of a real organization, explain the problem using management concepts and theories, and recommend a solution to the problem. Students will present their research to their client organization, and the client will complete an assessment of the student's work.

Non-Profit Leadership (NPL)

NPL 541 Nonprofit Governance (3)
This course examines the various approaches to governance. Each approach emphasizes different dimensions of the roles and responsibilities of the nonprofit boards and each arises out of a different relationship between board members and staff. They also reflect differences in the size, purpose, and history of the organization. This course considers the issue of which model is the right one and how an organization effects change in governance.

NPL 543 Human Resources for Nonprofit Organizations (3)
This course offers an overview of the functions of human resources activities as they relate to the broad objectives of the organization. Emphasis is upon the fundamentals of job design, employment techniques, performance appraisals, pay compensation practices, benefit options, employee relations, and termination practices.

NPL 545 Grant Writing for Nonprofit Organizations (3)
This course is designed to teach the basics of grant writing. It provides a comprehensive overview of effective grant development techniques, finding funding sources, program planning and funding sustainability. The emphasis is on writing a grant proposal and examining the relationships between sections of a proposal through a variety of interactive exercises.

NPL 548 Budget Development and Accounting for Nonprofit Organizations (3)
This course will examine procedures for projecting revenues and the process for developing operating budgets. The extent that tax policies affect private contributions to nonprofits is discussed. Line item and alternative budget formats, including zero-based and performance budgeting, will be considered. It is recommended that the student have familiarization with electronic spreadsheets.

Nursing (NUR)

NUR 060 Graduate Online Orientation (0)
Some of the topics covered include an introduction and overview of online learning, expectations, and tools that online students encounter. This course explores SAU online’s learning management system
(LMS), principles of online learning, including student expectations, characteristics related to successful online learning, and an overview of SAUonline courses – their structure, typical learning activities, and interactions.

**NUR 510 Moral and Ethical Decision Making (3)**
This course provides a meta-cognitive foundational approach to advanced nursing practice in the contemporary world. It explores worldview presuppositions, with an emphasis on a Christian perspective and development of a consistent, conscious framework for making ethical choices.

**NUR 522 Theoretical Perspectives for Advanced Practice (3)**
This course promotes examination, analysis, and synthesis of a variety of conceptual frameworks, models, and theories that provide a foundation for research and applied practice in nursing. Philosophical ideation, beliefs, scope, and assumptions of select theories and models will be explored.

**NUR 532 Role Development and Leadership (3)**
This course focuses on understanding the professional role of the advanced professional nurse. The processes associated with role development, socialization, and effective collaboration with diverse interdisciplinary partnerships will be examined. Practical leadership roles will be identified and interpreted in a nursing practice context.

**NUR 551 Applied Research Methods (3)**
This course focuses on the significance of research to the development of a profession and the practical application of evidence-based research to improve practice. Emphasis will be placed on data collection, analysis, and interpretation of clinical research in designing an evidence-based project, preparing the student to use translational science in clinical decision making to improve patient outcomes. Specific aspects of the research process, quantitative and qualitative research, and systematic reviews will be studied.

**NUR 602 Advanced Health Assessment for NPs (3)**
This course focuses on advanced health/physical assessment of the client where the client is defined as the individual and includes the individual’s context within the family and/or community. The course also emphasizes comprehensive history, physical/psychological assessment, pathophysiology, and health promotion needs assessment. This course includes an on-campus residency. Refer to the MSN Student Handbook for residency details.

*Prerequisites: NUR 510, NUR 522, NUR 532, NUR 551, NUR 612 and NUR 618*

**NUR 612 Advanced Pathophysiology (3)**
This course provides advanced knowledge and clinical application of normal and pathophysiologic mechanisms related to altered health status and disease processes.

**NUR 618 Advanced Pharmacology (3)**
This course will provide the master’s prepared nurse with the knowledge and skills necessary to assess and integrate pharmacologic agents, alternatives to pharmacological interventions, and therapeutic modalities in the advanced practice of nursing.

**NUR 625 Educational Theory and Curriculum Design (3)**
This course familiarizes the student with education theory and philosophy, teaching and learning styles, examples of curriculum design, the process of lesson development, assessment and evaluation, curriculum/program development and scholarship in nursing education.

**NUR 632 Adult Health Promotion and Disease Prevention (3)**
This course is designed to prepare the student to apply evidence-based principles of wellness, disease prevention, and health risk in individuals, families, communities, and aggregate/clinical populations.
NUR 633 Health Promotion across the Lifespan (3)
This course prepares the advance practice nurse (APN) to apply theoretical and current research concerning health promotion and disease prevention to clinical practice with individuals, including families, communities and special populations, from a Christian perspective. The student will explore the transformative effect of compassion and caring in facilitating healthful behavior change by applying culturally appropriate communication skills adapted to the individual’s cognitive, developmental, physical, mental and behavioral health status. Review of the patterns and variations of human growth and development will inform the student’s exploration into the impact of the family on the health of the individual across the lifespan. Evidence based health promoting strategies and modalities will be analyzed. Students apply the knowledge, skills, and competencies that are the essential to the promotion and maintenance of health, both as an independent provider and within a multidisciplinary team. The student will gain an understanding of their many roles as an advanced practice nurse in health promotion at an individual level and at a population level and the importance that the profession faces in advocating for preventive medicine and patient empowerment.

NUR 635 Instructional Strategies (3)
Students will delve into the selection and application of instructional strategies for traditional and online learning environments. A variety of approaches for learning experiences in higher education, professional/staff development, and community programs for individuals or groups will be used.

NUR 642 Chronic Disease and Complex Problems in Older Adults (3)
This course focuses on management of chronic disease and complex care needs of older adults. Emphasis will be on case management and interdisciplinary collaboration to arrange and evaluate care for the most health-compromised clients.

NUR 645 Family Systems and Clinical Management of the Child Bearing Family (3)
This course prepares the family nurse practitioner student to examine evidence-based principles of nursing care in the context of family and nursing theory, and apply this knowledge to clinical practice within diverse family systems, from a Christian perspective. Students will consider and apply the knowledge, skills, and competencies that are the essential to the holistic management of the child bearing women/family, both as an independent provider and within a multidisciplinary team. Students will focus on the care of healthy ante-partum women and those with health pattern variations that result in at-risk pregnancy. Emphasis is placed on collaborative management of women and families during pregnancy. Concepts focused on promoting wellbeing will be explored with emphasis on family interventions that promote resiliency as well as the health and wellbeing of the family.

NUR 660 Nurse Educator Internship (6)
This internship provides individually supervised field experience in direct care and nursing education settings to provide to our Nurse Educator students opportunities to strengthen their patient care delivery skills to the Master's level and to integrate advanced nursing practice, and nursing and adult learning theory with practical teaching situations. Students will also complete an evidence-based practice project proposal during this course.

Prerequisites: NUR 551, NUR 602, NUR 612, NUR 618, NUR 625, and NUR 635

NUR 680 Clinical Practicum (total of 8-10) taken 3 times for 2 or 4 credit hours each.
This is a clinical course that focuses on application of nursing theory, pathophysiologic and epidemiological concepts and exploration of nursing therapies, skills and techniques essential to the provision of primary health care. The clinical practicum is arranged with a local preceptor (either a certified NP or physician) with the approval of the program faculty. Students have regular contact with SAU clinical faculty, who also provide oversight of the preceptor-led experience.

Prerequisites: NUR 612, NUR 618, and NUR 602
NUR 681 Integration of Evidence for Advanced Practice (3)
Students will examine the evidence base for resolving a current health problem, design and evaluate a project specific to their practice setting. Students will utilize evidence-based practice skills learned earlier in the program.
Prerequisites: NUR 551

NUR 683 Health Policy (3)
The focus of this course is on knowledge and application of policy issues associated with health care that promotes dignity, respect, and justice. Students will explore policy development and financing of delivery systems; critique economic, legal and political factors related to healthcare delivery, influence on structure, financing, practice, outcomes; examine effect of legal, regulatory processes, care delivery, outcomes; and develop advocacy approaches.

NUR 685 Advanced Practice in Primary Care I (3)
This course will focus on the delivery of advanced nursing care with the knowledge and skills essential for comprehensive health assessments, analysis of data, formulation of diagnoses, development of therapeutic plans, and implementation of preventative care, health promotion, and maintenance activities for diverse adult clients.

NUR 686 Advanced Practice in Primary Care II (3)
This course prepares students with the skills to function as an advanced practice nurse in addressing chronic and complex alterations in health experienced by the older adult. Gerontology concepts will be applied in meeting the biological, psychosocial, mental, and spiritual needs of the older adult. Students will combine history taking, physical examination techniques, and diagnostic interpretation with problem-solving and clinical strategies.

NUR 687 Advanced Practice in Primary Care III (3)
This course prepares the family nurse practitioner to provide evidence-based primary health care to infants, children in families from a Christian perspective. Using a holistic approach, students examine the scientific basis of common health problems and factors influencing nursing management of these problems. Relevant nursing interventions for common health problems of children in families are explored, as are the responses and adaptations of the child and family to common health problems. Students will consider and apply the knowledge, skills, and competencies that are the essential to the holistic management of children and families, both as an independent provider and within a multidisciplinary team. Students will combine history taking, physical examination techniques, and diagnostic interpretation with problem-solving and clinical strategies.

NUR 693 Population Health (3)
This course helps the student acquire the skills and knowledge necessary to provide population-based care that promotes health, reduces the risk of chronic illness, and prevents disease. The master’s-prepared nurse applies and integrates broad, organizational, patient-centered, and culturally responsive concepts based on a variety of theories to design and deliver (planning, management, and evaluation) evidence-based clinical prevention and population care to individuals, families, communities, and aggregates/clinical populations nationally and globally.

READING (RDG)

RDG 628 Teaching Writing (3)
Teachers investigate writing development and applications across the curriculum as they design, facilitate, and assess writing experiences and assignments in all subjects. Teachers develop methods and materials for writing process approaches, investigate instructional strategies for teaching genre and writing conventions, and explore the implications of standardized testing for writing instruction. Course
focuses include workshop approaches, current research, experiential learning, and classroom applications of research and theory.

**RDG 656 English Language Learners (3)**
This course offers an overview of the role of language and cultural identity on English language acquisition. Current research in best practices for teaching reading and writing to English Language Learners will be explored. Teachers use a case study to investigate issues, strategies, and programs designed to assist English Language Learners.

**RDG 678 Children and Young Adult Literature (3)**
A study of literature and its uses for K-12 students, including the most recently published materials, the role of children and young adult literature in developing literacy, standards for selection and evaluation of materials, and strategies for involving students in particular types of literature comprise this course. Teachers apply criteria for selecting and evaluating literature from a historical perspective and in conjunction with critical theory. Teachers investigate research in the field and explore strategies to incorporate literature, including multicultural literature, into the curriculum in all subjects.

**RDG 680 Content Area Literacies (3)**
This course addresses reading and writing processes and pedagogy, genre study, elements of effective oral and written communication, and the integrated nature of literacy skills instruction and use across the curriculum. Issues of motivation, developmental needs, and literacy teaching strategies are also explored.

**RDG 682 History and Psychology of Reading (3)**
Teachers explore the acquisition and operation of reading processes beginning with emergent literacy and the history and influences on the teaching of reading and reading practices from colonial to contemporary times. Course work focuses on basic research in reading and reading research methods in cognitive and developmental psychology. Teachers examine the influences of psychology on reading theory and topics in the psychology of reading. Teachers investigate how theory has influenced reading assessment tools and development.

**RDG 684 Program Design and Analysis (3)**
In this course, students will explore how to match the intervention to the child for the greatest effect. Students will gain an understanding of Response to Intervention (RTI) framework as well as the more recent broader term of Multi-tiered System of Support (MTSS). The students will examine school wide and classroom behavioral and academic interventions, small group and individual interventions as well as the importance of intervention integrity. Students will learn how to select assessment measures, evaluate the effectiveness of interventions and make relevant decisions in an RTI model. Students will have an opportunity to design a RTI Plan that investigates past literacy policies within their district and make recommendations to improve their school’s intervention practices. *Prerequisites: EDU 624.*

**RDG 689 Literacy Mentoring, Coaching and Leadership (3)**
This course addresses essential leadership qualities, contextual factors, and the needs of students and adult learners when implementing literacy policies, programs and professional development in schools. Students will develop a deeper understanding of the various roles and responsibilities reading specialists perform within schools today. This course will highlight pragmatic and pedagogical considerations, as well as the need for collaboration among all stakeholders in order to improve student literacy achievement. As literacy advocates, students will gain practical experience through writing a literacy grant in order to acquire critical resources for their classroom and school. *Prerequisites: EDU 624*

**RDG 692 Literacy Research Methods and Thesis Proposal (4)**
This course focuses on the elements and processes of literacy research, action research, and academic writing. Teachers study literacy research methods, existing literacy research studies, and their own literacy concerns to design an action research study. Students develop chapters 1, 2 and 3, of their action research proposal, the bibliography, and the appendices of their proposal within this course.
RDG 694 Literacy Research Thesis (4)
In this course, teacher-researchers implement their action research literacy plans developed in RDG 692. Teachers conduct data collection, analysis, and interpretations leading to recommendations for actions, based on their findings. Students complete Chapters 4, 5, and 6, as well as the abstract, table of contents, and tables and figures of their action research thesis. Prerequisites: All MAR coursework completed

Special Education (SED)

SED 500 Current Issues in Special Education (3)
This course offers an introductory overview of the special education field. The focus will be the needs of students with disabilities: knowledge of specific disabilities, educational implications, legal considerations, procedures for identification and placement of students with disabilities, due process and privacy requirements, historical and philosophical background of special education, and the instructional strategies applied in educational settings.

SED 501 Support & Collaboration: Special and General Education, Parents, Professionals and Agencies (3)
This course provides information on identifying and accessing resources for persons with disabilities. These resources may be within the school setting or from outside agencies. The course will also address factors that impede the use of these resources. Instruction will be provided on the development of interpersonal skills needed to effectively communicate with parents, colleagues, and outside agencies. Instruction will also be provided in methods used to teach cooperatively with regular educators, methods used in participation on teams within the school, and methods used to supervise classroom aides, volunteers, and paraprofessionals.

SED 502 Human Development for Special Education (1)
This course complements an educational psychology course with emphasis on the exceptional development of special education students. Common mental, emotional, neurological, environmental, and psychological conditions that affect learning will be explored.

SED 503 Law and Policy for Special Education (3)
This course includes a study of the history of special education laws, each law’s intent, and the working state and federal laws. Special emphasis is placed on IDEA and the evolution of the Reauthorization of IDEA 2004. The learner will also be able to effectively communicate the needs and rights of persons with disabilities. Knowledge of institutional and administrative factors, which facilitate or impede delivery of services, will be studied. An understanding will be gained of the roles and organizational structures that regular and special education play in providing total service for the students.

SED 504 Classroom Management and Development of Social Competencies for Students with Special Needs (3)
This course is designed to provide students with a practical foundation in the principles of individual and group management structures. The course will enable students to not only understand basic behavioral management concepts but also demonstrate their ability to develop, implement, and incorporate appropriate behavioral management techniques. The maintenance of appropriate academic and social behaviors in the special education classroom will be emphasized as well as the development of strategies in the areas of prevention, assessment, identification, and intervention. These strategies will be used to assist students with learning disabilities (LD) or autism spectrum disorder (ASD) to develop the self-management skills required for constructive social participation and independent learning. Many students with disabilities face challenges in the area of socialization, therefore, this class will include an emphasis on developing appropriate social behavior.
SED 520 Elementary Methods for Language Arts and Mathematics (3)
This course focuses on the educational methods and strategies to meet the needs of the student with learning disabilities at the elementary level. Emphasis will be placed on the understanding of techniques for teaching reading, written expression, and mathematics.
Prerequisite: SED 523

SED 521 Secondary Methods for Content Area Reading, Study Skills, and Transition (3)
This course focuses on the educational methods and strategies to meet the needs of students with learning disabilities at the secondary level. This course will also provide skills in making adaptations and modifications to lesson plans and tests in order to best meet the needs of students.
Prerequisite: SED 523

SED 522 Language Development and Instruction (3)
This course provides skills and techniques in understanding learning problems by focusing on the development of language as it relates to reasoning, thinking, listening, speaking, reading, writing, and spelling. Emphasis will be placed on understanding the components of language, knowing how the assessment of these skills is conducted and what effect disorders in listening, speaking, and thinking have on learning to read, write, and spell. Finally, instruction will be provided on effective teaching strategies to help students with language and communication disorders.
Prerequisites: Undergraduate or graduate introductory course in special education and undergraduate or graduate course in human development for students with disabilities.

SED 523 Assessment and Evaluation in Special Education (3)
This course provides instruction in appropriate procedures for the assessment and reporting of students’ reading, writing, mathematical, and social skills. Emphasis will be placed on assessment methods that lead directly to diagnosing skill deficits and determining current level of functioning, which can be translated into goal, objectives, and statements of progress on students’ IEPs. Methods of evaluating instructional outcomes will be explored so that an ongoing instructional plan can be adjusted to meet students’ needs.
Prerequisite: Undergraduate or graduate introductory course in special education.

SED 524 Assistive Technology for Special Education (3)
This course provides an understanding of how adaptive technology may be used to enhance the education of students with disabilities. It teaches a framework for assessing students’ abilities, environment, required tasks, and effective assistive tools. Students will investigate high-tech, mid-tech, and low-tech responses to meet the needs of students with disabilities.

SED 525 Curriculum and Instruction for Students with Learning Disabilities (3)
This course includes a study of research-based curriculum designs and strategies for students with learning disabilities. Topics include pre-planning, principles of curriculum decision-making, effective school research, and participatory strategies in curriculum and instruction. The types of learning disabilities and the characteristics of each is discussed in light of curriculum design. Emphasis is placed on differentiating instruction for children with learning disabilities. Educators will acquire skills that will enhance student learning.

SED 530 Introduction to Autism Spectrum Disorder (3)
This course provides students with an overview of autism spectrum disorder (ASD). It addresses the process and methods of identification. Social issues and the implications of autism spectrum disorder on an individual’s life will be introduced. Current treatments and research will be introduced with a focus on evidence-based practices in the classroom for students with ASD.

SED 531 Language and Communication Development (3)
This course examines procedures for assessment of communication, language, and speech of students with autism spectrum disorder and it will review strategies for promoting language and communication skills across the different environments.
Prerequisite: SED 530
SED 532 Assessment and Intervention for Autism Spectrum Disorder (3)
This course will cover diagnosis criteria in the identification of students with autism spectrum disorder. The importance of early diagnosis and familiarization with recommended screening instruments for autism will be emphasized. Particular focus is placed on linking assessment data to implementation of meaningful interventions in all educational settings.
Prerequisites: SED 530 and SED 531

SED 533 Technology for Students with ASD (2)
This course will cover assistive technology applications for students with autism spectrum disorders. Emphasis will be placed on proper assessment, informed choices of equipment, training and implementation in the use of assistive technology devices, and progress monitoring of the impact of the use of assistive technology.
Prerequisites: SED 530 and SED 531

SED 534 Collaboration and Transition Planning for Students with ASD (2)
This course introduces students to the idea of collaboration as a special education professional. Pre-vocational and vocational planning and training, as well as transitional issues will be discussed. Using supported employment, community-based instruction, and skillful assessment of a young person’s goals, strength, and skills are emphasized.
Prerequisites: SED 530 and SED 531

SED 535 Behavior Programming for Students with ASD (3)
In this course, students will review legal and ethical guidelines affecting behavior planning, as well as learning evidence-based practices for behavioral interventions as related to students with Autism Spectrum Disorder. Focus will be placed on collaboration to determine impact of multiple variables upon student behavior, to develop interventions based upon group consensus, and to review and modify interventions based upon data.
Prerequisites: SED 530 and SED 531

SED 536 Curriculum and Instructional Methods for Students with ASD (3)
This course will examine the most recent topics in the education of students with autism spectrum disorders (ASD). Participants in this course will examine evidence-based practices and effective interventions for students with ASD throughout the educational system. Research-based practices will be examined in this course along with the effective implementation of techniques and strategies in a variety of educational settings. In addition, the collaboration of all team members, including parents and guardians of students with autism, will be explored. This course will be a blended learning environment which will include course materials and lectures online in addition to pre-determined campus meetings with participants. The primary objective of this course is to prepare course participants to meet the educational needs of their students with autism and to collaborate effectively with all team members.
Prerequisites: SED 530 and SED 531

SED 550 Research Based Student Teaching (5)
In this course interns develop and implement their special education research plans in a supervised and mentored special education teaching assignment in a K-12 setting. Interns will be responsible for managing learning activities of students with disabilities, while considering the need for a specific, student-centered academic or behavioral intervention. For the seminar, interns develop and implement a research plan created from a review of the literature which establishes a theoretical context for intervention. Interns conduct data collection, analyze and interpret the data, and discuss recommendations for action based upon their findings. Findings will be presented in a formal paper in APA format according to the guidelines given in the course.
Social Work (SWK)

SWK 510 Social Welfare Policy and Services (3)
This course is an introduction to the field of social work and the specific areas in which social workers practice. Knowledge will be gained of various practice settings, the history of social work and social welfare, social welfare policies, and the purposes and values that guide social work practice, and the social issues and vulnerable populations with which social work is concerned. Students begin to identify as a professional social worker through personal reflection and class activities.

SWK 512 Human Behavior in the Social Environment I (3)
This course gives the advanced level social work student the opportunity to increase their knowledge of human behavior across the life span. Students will develop competency in applying theories of biological, social, cultural psychological, and spiritual development, and what promotes or deters people from achieving health and well-being, to social work practice. They will develop competency to utilize conceptual frameworks to guide the processes of engagement, assessment, intervention, and evaluation. They will advance their understanding and learn to apply knowledge of person-in-environment and the impact of systems on individuals, families, groups, organizations, and communities. Human Behavior in the Social Environment I (HBSE I) is the first of two courses covering the entire life span. HBSE I covers Pregnancy and Birth, Infancy and Childhood. HBSE II covers Adolescence, Young Adulthood, Middle Adulthood, and Later Adulthood.

SWK 513 Human Behavior in the Social Environment II (3)
Human Behavior in the Social Environment II gives the generalist level social work student the opportunity to build on their learning from SWK 512, and to increase their knowledge of human behavior across the life span. Students will develop advanced competency in applying theories of biological, social, cultural psychological, and spiritual development, and what promotes or deters people from achieving health and well-being, to social work practice. They will develop advanced competency to utilize conceptual frameworks to guide the processes of engagement, assessment, intervention, and evaluation. They will build on previous learning to advance their understanding and learn to apply knowledge of person-in-environment and the impact of systems on individuals, families, groups, organizations, and communities. HBSE II is the second of two courses covering the entire life span. HBSE I covers Pregnancy and Birth, Infancy, and Childhood. HBSE II covers Adolescence, Young Adulthood, Middle Adulthood, and Later Adulthood.

SWK 518 Social and Cultural Diversity (2) online
In this course students will gain competency in working with individuals, groups, families, communities, and organizations from diverse cultures. With the Spring Arbor University Concept providing the model for learning, students will gain competence in applying social work values to their work with vulnerable individuals, families, groups, communities, and organizations. In addition, theoretical concepts of oppression and discrimination will be used to understand social work practice.

SWK 520 Social Work Practice I: Individuals and Families (3)
Students in Social Work Practice I will develop competency in applying theories of human behavior and the social environment to work with individuals and families. Engagement, assessment, goal-setting, intervention, termination, and practice evaluation are the focus of this course. Special attention is given to intervention with diverse and vulnerable populations. Case materials and role-playing will be used. Students will have the opportunity to apply the social work problem solving process to work with individuals and families.

SWK 521 Social Work Practice II: Groups, Communities, and Organizations (3)
Students in Social Work Practice II will build on learning from SWK 520 and develop advanced competency in applying theories of human behavior and the social environment to work with groups, communities, and organizations. Engagement, assessment, goal-setting, intervention, termination, and practice evaluation as it applies to work with groups, communities, and organizations are the focus of this
Course Descriptions

course. Special attention is given to intervention with diverse and vulnerable populations with an emphasis on understanding how to engage in practices and advocate for human rights and social and economic justice. Theories of group work and the impact on vulnerable populations are covered. How to apply systems theory and the problem solving process to advance understanding of groups are emphasized in this course. This is the second half of SWK 520. The two are intended to be taken in sequence.

SWK 525 Research in Social Work Practice (3)
Students will use opportunities presented in their internship to build competency in using research to inform their practice. Using evidence based interventions, evaluating their own practice, and using research findings to improve practice, policy development, and social service delivery to individuals, families, groups, communities, and organizations is the focus of SWK 525 - Research in Social Work Practice. Social work values and theories will provide the lens used as students design a research study.

SWK 528 Ethics and Christianity (2) online
The Spring Arbor University Concept and the National Association of Social Workers Code of Ethics provide the foundation for the study of ethics in social work practice. Students will gain competence in recognizing and managing their personal values in a way that allows professional values to guide their practice. They will gain the skills to tolerate ambiguity in resolving ethical conflicts and apply strategies of ethical reasoning to arrive at principled decisions and will explore personal spiritual formation topics.

SWK 551 Generalist Field Internship I (3)
Students will participate in a 200-hour advanced generalist level field Internship, concurrently with course work to allow the direct application of theory to practice. Students will advance their knowledge of the profession and refine their skills in working with individuals, families, groups, communities, and organizations under the educational direction of social work professionals and university faculty. A minimum of 400 clock hours for SWK 551 and SWK 552 combined is required. **Must be taken with SWK 581.**

SWK 552 Generalist Field Internship II (3)
Students will participate in a 200-hour advanced generalist level field Internship, concurrently with course work to allow the direct application of theory to practice. Students will advance their knowledge of the profession and refine their skills in working with individuals, families, groups, communities, and organizations under the educational direction of social work professionals and university faculty. A minimum of 400 clock hours for SWK 551 and SWK 552 combined is required. **Must be taken with SWK 582.**

SWK 581 Generalist Field Internship Seminar I (1)
This seminar is designed to integrate the concepts, knowledge, and values learned in course work with agency experience. This will provide opportunities for students to share their unique learning experiences from the agency placement and to demonstrate their competencies through a series of integration assignments. Students achieve a beginning level of competency in applying theories and concepts learned in the classroom to the practical world of the practice setting. **Must be taken with SWK 551.**

SWK 582 Generalist Field Internship Seminar II (1)
This seminar is designed to integrate the concepts, knowledge, and values learned in course work with agency experience. This will provide opportunities for students to share their unique learning experiences from the agency placement and to demonstrate their competencies through a series of integration assignments. Students achieve a beginning level of competency in applying theories and concepts learned in the classroom to the practical world of the practice setting. **Must be taken with SWK 552.**

SWK 617 – Advanced Applied Social Policy (1) online
In this seminar-style course, the student will apply the foundation knowledge of social policy to one or more social policy issues that are encountered in the field placement agency. **Must be taken with SWK 651 and 681.**
SWK 618 Psychopathology/Advanced Multi-Dimensional Assessment in Advanced Social Work Practice I (3)
This course is part one of a two-part series that provides and understanding of Mental Disorders described in the Diagnostic and Statistical Manual published by the American Psychiatric Association that social work clients in mental health and other settings may experience. It helps students to define the clinical entities, to explore their etiology and natural course, and to learn how to link diagnosis, assessment and intervention. Emphasis is placed on how to employ evidence-based treatment approaches with clients who present with symptomatology from these disorders. The complexity of the intersection between the person in the environment and mental/emotional and physical selves is explored. Working as a multidisciplinary team is emphasized.

SWK 619 Clinical Social Work Practice and Theory I (3)
This course is part one of a two-part series that provides an understanding of a historical overview of mental health theories and their evolution beginning with Freud’s psychodynamic approach and evolving through modern day theories. This first course in the series, SWK 619, cover Ego Psychology, Object Relations, Self-Psychology, and Relational and Intersubjective Theories. Each theory will be viewed through the lens of major contributors to the theory, the basic theoretical principles, goals, interventions, research findings and limitations. Practice methods and case studies are integrated along with social work values and ethics.

SWK 621 Advanced Practice: Physical and Mental Health (3)
This course considers the physiological, psychological, and social components of various illnesses/conditions encountered in physical and mental health care settings. Themes include: the effect of these components on social functioning or rehabilitative processes, the common psychological reactions of people to treatment, the inter-disciplinary team’s respective roles and value orientations, and the impact of these on the patient and his/her family. Health care policy and issues of loss and death will be explored. Special attention is given to interventions specific to health-care settings versus those of traditional agencies, and to methods appropriate to interdisciplinary practice and the impact of health care on specific population groups. Offered via Zoom/Online.

SWK 625 Clinical Social Work Practice and Theory with Families (3)
Normal and maladaptive patterns in families as they progress through life stages are explored with a focus on environmental and cultural obstacles to family functioning. Family therapy approaches are examined and analyzed from cultural-sensitive and population-at-risk perspectives. The family treatment process based on a multidimensional assessment is explored. The process presented focuses on relationship-building with the family as a system and its members, and general treatment issues.

SWK 627 Advanced Applied Social Research (1) online
In this seminar-style course the student will apply the knowledge of research to one or more research in examining research practices in the context of the field placement agency. It is designed to support students in conducting evidence-based practice in an agency setting by evaluating practice and planning for change. Case material will be drawn from real world practice situations students encounter in their field placements. Must be taken with SWK 651 and 681.

SWK 628 Psychopathology/Advanced Multi-Dimensional Assessment in Advanced Social Work Practice II (3)
This course is part two of a two-part series that provides an understanding of Mental Disorders described in the Diagnostic and Statistical Manual published by the American Psychiatric Association that social work clients in mental health and other settings may experience. It helps students to define the clinical entities, to explore their etiology and natural course, and to learn how to link diagnosis, assessment and intervention. Emphasis is placed on how to employ evidence-based treatment approaches with clients who present with symptomatology from these disorders. The complexity of the intersection between the person in the environment and mental/emotional and physical selves is explored. Working as a multidisciplinary team is emphasized.
**Course Descriptions**

**SWK 629 Clinical Social Work Practice and Theory II (3)**
This course is part two of a two-part series that provides an understanding of a historical overview of mental health theories and their evolution beginning with Freud’s psychodynamic approach and evolving through modern day theories. This second course in the series, SWK 629, covers Cognitive, Behavioral, Motivational Interviewing, Dialectical Behavior Therapy (DBT), Trauma Therapy, Crisis Theory, Solution Focused Theory, Narrative Theory, and Play Therapy. Each theory will be viewed through the lens of major contributors to the theory, the basic theoretical principles, goals, interventions, research findings and limitations. Practice methods and case studies are integrated along with social work values and ethics.

**SWK 631 Strategic Social Work Supervision, Management and Administration (3)**
This course will provide Social Work Students with a conceptual and theoretical foundation for administration and supervision in Human Service Agencies. Students will be prepared with the skills for leadership, management and supervision in practice and community settings. Students will also gain an understanding and application of administration and management methods of strategic planning, program evaluation and community collaboration. Offered via Zoom/Online.

**SWK 651 Advanced Micro Field Internship I (4)**
This course is the first part of the advanced practice supervised field experience. The purpose of the experience is to enable the student to apply advanced social work knowledge, values, skills, and cognitive and affective processes in a micro field setting in their concentration. A minimum of 500 clock hours for SWK 651 and SWK 652 combined is required. Must be taken with SWK 681.

**SWK 652 Advanced Micro Field Internship II (4)**
This course is the second part of the advanced practice supervised field experience giving the student an opportunity to apply advanced social work knowledge, values, skills, and cognitive and affective processes in a micro field setting in their concentration. A minimum of 500 clock hours for SWK 651 and SWK 652 combined is required. Must be taken with SWK 682.

**SWK 681 Advanced Field Internship Seminar I (1)**
This seminar is designed to integrate the concepts, knowledge, and values learned in course work with agency experience. This will provide opportunities for students to share their unique learning experiences from the agency placement and to demonstrate their competencies through a series of integration assignments. Students achieve an advanced level of competency in applying theories and concepts learned in the classroom to the practical world of the practice setting. Must be taken with SWK 651.

**SWK 682 Advanced Micro Field Internship Seminar II (1)**
This seminar is designed to integrate the concepts, knowledge and values learned in course work with agency experience. This will provide opportunities for students to share their unique learning experiences from the agency placement and to demonstrate their competencies through a series of integration assignments. Students achieve an advanced level of competency in applying theories and concepts learned in the classroom to the practical world of the practice setting. Must be taken with SWK 652.

**Teaching English as a Second Language (TSL)**

**TSL 500 Essential Linguistics (3)**
This course provides a study of English as a system, the components of the language system: phonology, orthography, phonics morphology, syntax, and the relatedness of language systems for those preparing to teach English to speakers of other languages. The coursework will compare different theories of language variation, social and academic language registers, the benefits of bilingualism, and how knowledge of sentence structure instruction fits into current practices in language teaching.
TSL 501 Cross Cultural Competence in Communication (3)
This course is designed to assist students in exploring personal biases and methods of overcoming them and the basic principles underlying multicultural education. This course provides an opportunity to develop appropriate teaching strategies, activities and materials and to adapt and evaluate curricula for use in culturally diverse, as well as homogeneous classrooms. Ten clock hours of lab experiences, which will help students apply the concepts, are included in the course requirements.

TSL 502 Methods and Materials (3)
This course focuses on the pedagogical aspects of teaching English and the preparation of teaching materials for classroom use. Integrated methods and strategies will be explored for teaching listening, speaking, reading, and writing to English Language Learners (ELLs) of diverse backgrounds and levels. This course requires highly constructive class participation and responsible out of class lesson assignment preparation for the lab setting. The goals of this course are to develop students' knowledge in the following areas: theories of second language acquisition, research based pedagogy for ELLs, how to manage instruction for different levels of learners with diverse abilities, appropriate interactions with students and various stakeholders from diverse cultural backgrounds.

TSL 503 Instructional Strategies for Teaching Speaking and Listening (3)
The course focuses on the pedagogical and teaching materials for classroom use when teaching English Language Learners. Integrated methods and strategies will be explored for improving pronunciation, listening and speaking skills of ELLs of diverse backgrounds and levels. This course requires highly constructive class participation and responsible out of class lesson assignment preparation. Students will demonstrate the ability to create, plan and teach speaking, listening, and pronunciation activities that apply to the specific needs of an individual English language learner as part of a case study during the course.

TSL 505 Assessment and Evaluation of English Language Learners and Programs (3)
This course explores theoretical and practical aspects of language assessment and evaluation, particularly in measuring English language skills of students in ESL programs. The students will use a variety of assessment tools and standardized placement tests to assess listening, speaking, reading, and writing. WIDA (World-Class Instructional Design and Assessment) and ELD (English Language Development) standards will be reviewed and compared. Performance based, alternative and other commonly used assessment tools will be developed, used and evaluated in light of issues related to bias, social, political, and psychological factors.

TSL 506 Instructional Strategies for Teaching Literacy (3)
This course is a general overview of the interconnectedness of culture and reading and writing skill development. Students will review the developmental aspects of second language acquisition, as well as the developmental aspects of reading and writing, providing insights for the creation of programs for literacy development for ELLs. Students will assess the oral language proficiency, reading comprehension, vocabulary knowledge, and writing skills of a case study student or small group. Reading comprehension and writing skill development strategies will be implemented with the case study individual or group. Challenges for developing phonemic awareness, spelling, vocabulary, and comprehension with ELLs will be explored. Students will review current research into best practices for teaching reading and writing. RDG 656 may be substituted for this course.

TSL 508 Instructional Strategies for Teaching Grammar (3)
This course will enhance the classroom instruction of teachers of ELLs by blending classroom strategies with a study of the most important grammatical structures of the language. Students will become familiar with the meta-language and key concepts of English grammar. Students will develop lessons for the production of English in speaking and writing activities, with a focus on communicative competence. The course will target the most useful grammatical skills needed for beginning and intermediate level ELLs. Students will analyze spoken and written English of native and non-native speakers in order to understand and explain the most frequent error types of learners from different language groups.
TSL 509 Sheltered Immersion (SIOP) for Content Area Teachers (3)
This course is built around the SIOP model for teaching content and language in mixed ability classrooms in K-12 settings. Students will develop an understanding of how to plan a supportive classroom learning environment for ELL students. Candidates will plan for multi-levels of diverse students using standards-based ESL and content curriculum. Candidates will design integrated activities that focus on listening, speaking, reading, and writing goals which also address content objectives. Ten clock hours of observation and participation in a science, social studies or math classroom with ELLs are required.

TSL 600 Capstone Research Project, Field Experience, and e-Portfolio (3)
Teachers will build a web-based portfolio which demonstrates how they have met the criteria for selected National Board for Professional Teaching Standards, TESOL/CAEP Standards, and the Michigan ESL Endorsement standards. Knowledge of research in the field of TESOL will be demonstrated in a comprehensive literature review of an issue related to any one of the domains addressed in the standards. The topic will be pre-approved by the professor. Documentation of teaching competence and reflection will be part of the portfolio. The portfolio contents are a collection of the videos, screencasts, unit plans, article analyses, webliographies, article reflections, case studies, etc. that the student has produced as part of the TESOL course work or during the field experience.

Prerequisites: For both TESOL tracks, complete Foundation Courses.

Director of Graduate Nursing Programs

Ronald DeLap,
Associate Vice President for Academic Affairs, Dean of School of Engineering

Gordon M. Eccles B.B.A.
Director, Student Financial Services

Sherri Hendrix, M.B.A.
University Registrar

Bonnie Holiday, Ph.D.
Chair, Master of Social Work

Alvin V. Kauffman, Ph.D.
Dean of Nursing and Health Sciences
Chair, Department of Nursing

Sharon Joplin, Ph.D.
Director, Master of Early Childhood

Alyn Kay, Ph.D.
Director, Master of Special Education

Heather LaClear, M.S.
Coordinator of Master of Arts – TESOL
Cheri Manthei, M.S.-I.D.T.  
Assistant Registrar for Graduate Records

Chad Melton, M.A.  
Career Advisor

Wallis C. Metts, Jr., Ph.D.  
Director, Master of Arts in Strategic Communication and Leadership

Tezonia Morgan, Ph.D.  
Chair, Master of Arts in Counseling

Sharon E. Norris, Ph.D.  
Director, Master of Business Administration

Dorie Shelby, M.A.  
Dean, School of Communications, Media and Fine Arts

Gary R. Tucker, Ph.D.  
Executive Director, SAU Online

John Williams IV, M.A.  
Interim Dean, School of Education

Vacant  
Director, Master of Arts in Reading

Vacant  
Library Director
GLOSSARY

Glossary for Academic Credentials and Parts of Credentials

**Concentration**
Concentrations are groups of courses within a major that focus on a particular specialization in the field of study. At minimum, a major with concentrations should have at least two concentration choices. Concentrations are comprised of 9-29 credit hours and do not include foundation courses.

**Endorsement**
An endorsement is a special program designed to meet criteria or standards specified by an outside body or agency. Endorsements are affiliated with outside licensure and certification and are typically post-degree or extra-degree programs. The number of credit hours in an endorsement is determined by the standards or criteria of the outside body. Prerequisite requirements for endorsement courses should be included in the credit-hour count unless it is expected that students will have met those requirements prior to matriculating into the program.

**Foundation**
Foundation courses are part of the major that are central to the field of study and are common to all majors in a specific department.

**Institutional Endorsement**
An institutional endorsement is comprised of 9-17 departmentally prescribed credit hours designed to equip students with a very specific knowledge or skill-set within a particular field of study. Institutional endorsements are supplemental to a baccalaureate degree program and cannot be earned as an independent credential, unless specified in the catalog as such. Students may earn more than one institutional endorsement, but courses in an institutional endorsement may not overlap with courses in a major, minor, endorsement or second institutional endorsement. Prerequisite requirements for institutional endorsement courses should be included in the credit-hour count unless it is expected that students will have met those requirements prior to matriculating into the program.

**Master of Arts**
The Master of Arts is a graduate degree conferred upon students who have completed the program and institutional graduation requirements. Master of Arts programs are distinguished by an advanced qualitative and theoretical focus.

**Master of Science**
The Master of Science is a graduate degree conferred upon students who have completed the program and institutional graduation requirements. Master of Science programs are distinguished by an advanced quantitative and scientific focus.

**Master of [Specialty]**
The Master of [Specialty] is a graduate degree conferred upon students who have completed the program and institutional graduation requirements. Master of [Specialty] programs are distinguished by an exclusive advanced focus on a particular professional field.
**Track**
Tracks are distinct curriculum pathways that lead to the same credential. The differences in tracks are specific to either the point of matriculation into the program or the end goal. For example, the Bachelor of Science in Nursing (BSN) post-licensure track is designed for students who are already licensed as registered nurses (RN) but have not yet earned a bachelor’s degree, whereas the BSN pre-licensure track is for students who are not yet RN licensed. Both the pre- and post-licensure tracks culminate with a BSN degree.
